STEPPING AHEAD: Shaping a new direction

In many ways, Clemson University proved itself to be a dynamic institution, Stepping Ahead, in nearly every facet of academic, athletic, and student life. The year marked ordinary and extraordinary events which shaped the future for all the students, faculty, and administration. For many students it was a year of good byes, as they stepped into the work world, and for many

Stepping Ahead

others it was a year of hellos, as they stepped into an unfamiliar world — college!

The foremost step was the inauguration of Max Lennon as the 8th president of the University. President Lennon committed himself to internationalizing the curriculum, preparing the students for the international market, and setting a new direction for the University.

Immediately under his administration, the University began to move ahead. The Computer Center expanded its operations to keep up with the demands of today's computerized society, but furthermore, found itself stepping ahead into

Stepping Ahead

na's industry, rebounded from the ups and downs of the market and prepared themselves for the future.

Sports also took a step into a new direction. Certainly the greatest step was made by the basketball team as they went undefeated in their first 19 games. Under the leadership of Coach Cliff Ellis and great players such as Horace Grant, the basketball team stepped into excellence. The football team, led by Terrance Flagler who was 8th in the nation in rushing,

Stepping Ahead

left behind the memories of probation and boldly claimed the Gator Bowl victory. Other sports such as wrestling, swimming, tennis, etc. all displayed strong programs and showed promise for the future.

Amidst the athletics and academics existed the student life at Clemson University. Student life met changes as the legal drinking age became twenty-one, setting a new step of leisure activities for the students. The Y-theater became a greater attraction to the students as well as the VCR, with a couple of old flicks, popcorn, and the living room couch. A definite new step was

Stepping Ahead

occurring in student life.

Stepping Ahead, whether it be into a new job or setting the direction of this university, characterized the events of this past year. TAPS has been part of this growing process and made every effort to capture this in the 544 pages of this volume.

(Right) In Clemson's fifth Gator Bowl appearance, a 27-21 victory against Stanford University brings home a third Gator Bowl victory. Clemson beat Missouri in 1949 and Ohio State in 1978.

In retrospect, not doing what we were here for was the gist of this section. Oh sure, we studied when it was neccessary. We even sacrificed at times to perform better academically, but none of that could take the place of Homecoming festivities, parties, and, at the very least, sitting on our duffs doing absolutely nothing. Without a doubt, an unofficial dedication to the anti-student in us all should be annually bestowed upon the entire Clemson University student body. However, there remained no doubt that these non-academic activities also added to our efforts to step ahead.

Spring fever
Sun and fun begins

Vern Verna

March ushered in a Tiger basketball appearance in the NIT tournament and the visit of Kenny Rogers and Lee Greenwood to Littlejohn Coliseum. With the constant barrage of classes since January, everyone excitedly anticipated the week of recess labeled Spring Break. Many students headed to the sun-saturated beaches of Daytona, Fort Lauderdale, and the like.

As students returned, tanned and exhausted from the "break," professors somehow managed to pick up right where they left off. Still, the Harlem Globetrotters were here to welcome the refugees back, and with the break supplying most students with a relaxed attitude toward studying, alternatives were sometimes sought.

At Earth Day, held outside Edgar's, advocates of a natural environment with peace and love for mankind had a variety of displays. They included pottery-making, basket weaving, and flute playing. The Peace Corps also made an appearance in hopes of recruiting some Earth Day participants for future aid to third world countries.

From Spring Break on, however, basking in the sun was the number one concern of the students. As it is every

spring, any available spot was fair game for sun. Those who needed to study often did so outside their dorms with a towel and a bottle of suntan lotion. More adventuresome students traveled to East Bank or Twelve Mile beach, where no studying was allowed.

What an excellent way to prepare for those semester-ending exams!

Working hard

Students sweat it out at Fike

All photos by Vern Verna

As the saying goes, all work and no play makes Jack a dull boy. Apparently, this adage was not lost on the many Clemson students who honed their amateur skills at Fike Recreation Center. If you ever entered the library on a weekend and wondered where the students were, Fike was one plausible answer.

Serving as a multi-sports center, students and faculty participated in activities like aerobics. Ann Duke, a senior, said she taught aerobics at Fike "because it's fun, the classes are big, and it's free." Aerobics was not the only activity at Fike that experienced rapid growth. Just try to make a racquetball appointment! Corner shots and broken racquets became as popular as Thermo tests, and racquetball classes, complete with their own tests, were taught as well.

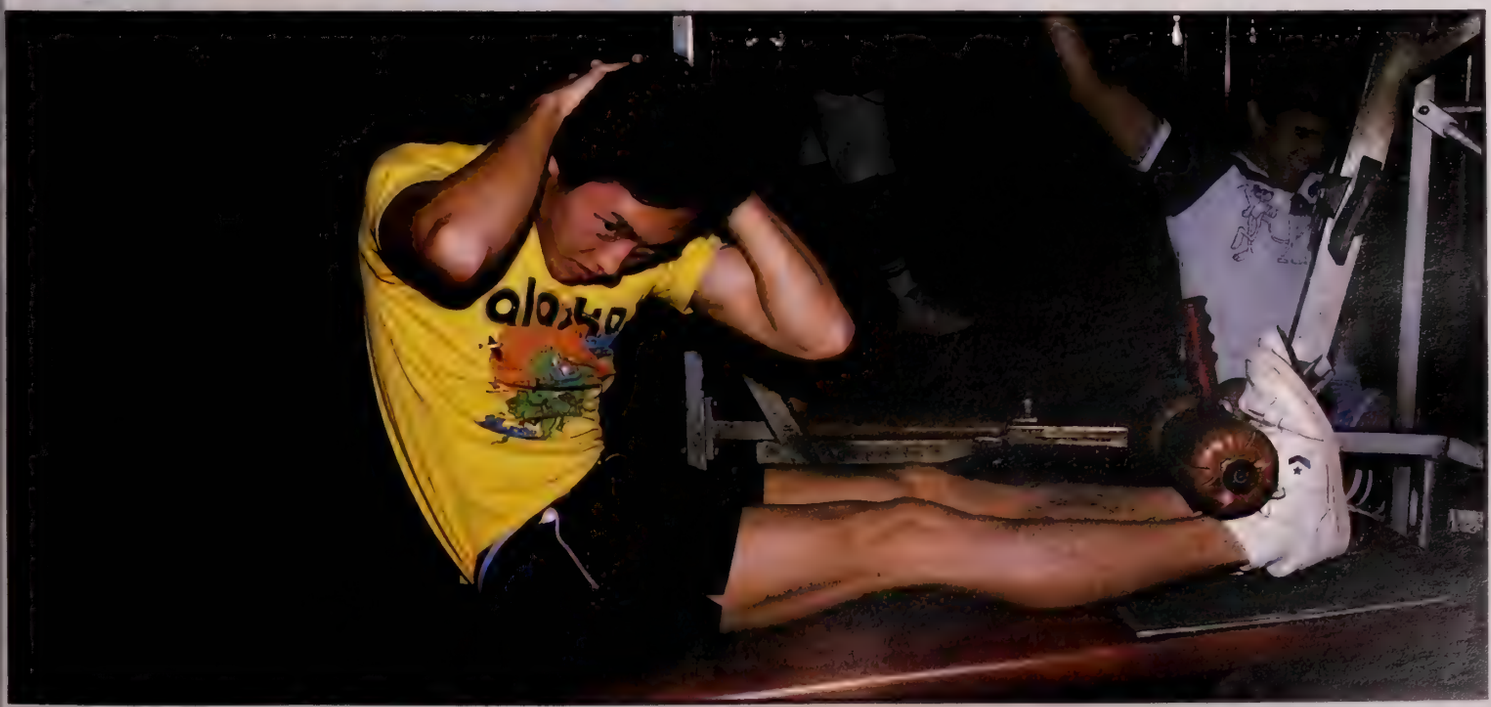
Another craze was weightlifting. Students could choose between a $25 membership to the "dungeon," the smaller collection of free weights, or

(top) Ann Duke leads her aerobics class through a tough workout.

(right) Fike's new pneumatic resistance machines prove a challenge for Sam Head.

(left) Aerobics interest at Clemson is on the rise.

Edwin Chiu (shown here showing off his legs) works out at Fike three times a week to keep in shape.



the Cam II pneumatic resistance machines upstairs. A girls' weight room was also provided. Junior Jerry Greenhill opted for the Cam II machines. "It's a lot easier and quicker," he said.

Still another sports feature was basketball, which students played on the three courts in the large gym and one court in the little gym. Full-court games with no referee's whistle was an excellent way to stay in shape! Of course, you knew you'd made it big when you played on the center court. Muscling for rebounds against the varsity footballers was the true induction of roundball players into Fike.

For gymnastics lovers, Fike was the place. The same was true for swimmers. An olympic-size pool and a diving area were available. The center also had ping-pong tables and offerred Tae Kwon Do lessons. The intramural sports program was also centered at the facility. Despite all the sports provided, there was a place for the non-athlete at the center. In the warm, sunny months, students flocked to the roof of Fike to improve their torsos in a different way, by sunbathing.

Summer

Students high and dry from the sizzling summer

The incredible summer heat, coupled with a torrid drought, drove many of the summer school students to the local beaches. Skiing, swimming, and just soaking up the sun dominated many a hot summer afternoon. As most of the southern United States was forced to cut back on water consumption, certain areas were going as far as to arrest "water violators." Drought-stricken farmers were given a boost by their northern comrades, who supplied the southerners with much needed hay. The scorched cornfields and lawns were the most obvious victims of the dry summer, but those at summer school felt they had it pretty tough, too.

The Strom Thurmond Institute was underway and the Chemistry building was nearly completed. Students also noticed a crowded Harcombe Dining Hall if they were unlucky enough to enter when any of the various summer camp kids were eating. Most students enjoyed summer school, with its eased atmosphere and easier workload. Those frequenting local bars such as Tigertown Tavern became well acquainted with other students due to the smaller attendance at school.

Other summer activities included frequenting baseball games, working out at Fike Recreation Center, and, of course, parties. Despite the heat, most of the students returned this fall for "regular" classes with stories of how great it was at summer school.

"THE BAND THAT SHAKES THE SOUTHLAND"

". . . and now, the song that shakes the southland — TIGER RAG!" These words announced at all Clemson football games to screaming Tiger fans by band announcer Nick Peck were one of the trademarks of the largest spirit organizations on campus — Tiger Band. When this group of high spirited musicians played Tiger Rag, everyone rose to their feet, clapped their hands, and cheered their team on to what they hoped would be a victory. So, for their efforts, TAPS salutes the largest, and loudest, spirit organization on campus, TIGER BAND.

Since the beginning of Clemson College in 1889, there has always been some resemblance of a band organization on campus. This group consisted primarily of volunteers who shared and wished to pursue an interest in music. By the time Clemson College had become Clemson Agricultural and Mechanical College, the band group had developed into the Clemson Band Company of the Cadet Corps. In the 1950's, the Cadet Corps became the Student Body and the Clemson College Band was formed with Hugh H. McGarity at the helm. McGarity was the first paid professor of music and controlled both the band and chorus programs and composed the music for the Alma Mater.

In the mid 1950's, Robert E. Lovett took the position of Band Director and the nomenclature "Tiger Band" was born. Also, Tiger Band started at this time to perform at halftime of football games and even went to perform at bowl games. One story connected with Mr. Lovett was concerning a uniform design. Wanting something new and distinctive, Lovett utilized a design conceived by a Hollywood designer who had worked for the famous director Cecil B. DeMille. 120 units were purchased and elaborately designed with many accessories to provide for a variety of different looks.

During the early sixties, the twirlers were added to the marching ranks, the look of the bands changed as new uniforms were adopted, and a new Direc-

tor of Bands was appointed. It was this director, Dr. John H. Butler, who created a legend with his uniform design. His design was orange, purple and white. This was the beginning of the orange uniforms as seen by today's Tiger Band. The enrollment was approximately one hundred twenty, a few more than in the early 1900's, but still large for a college band during that

TAPS SALUTES

Vern Verna

Vern Verna

period.

In 1965, Bruce F. Cook came to the university as Assistant Director of Bands and eventually gained total control of Tiger Band. Then in 1978, Dr. Cook and a committee decided to go for an entirely new look in uniforms. The uniform adopted was unique, especially the now famous white helmets. This concept was very hard to sell and some people still were not sure about them. But nevertheless, Tiger Band did get a fresh, new, distinctive, and unique look.

In 1982, Dr. Richard Goodstein came to Clemson as the Assistant Director of Bands. Under the direction of both Drs. Cook and Goodstein, the band has grown in numbers and recognition.

Over the years, Tiger Band has evolved from a small military band of about forty cadets playing mostly brass instruments with a percussion section consisting of a bass drum, a snare drum, and one cymbal and a color guard that carried the university, state, and American flags to a corp-like ensemble of 242 with a percussion section featuring a numerous bass drums, quads, cymbals, and snares, a large flag corps which is incorporated into drill design, twirlers, electric bass, mallets, and a synthesizer.

Originally, Tiger Band was known for doing precision military marching drills. Now, the band is known for doing tunes "on the march", doing a concert feature, presenting an occasional percussion feature, and spelling out "CLEMSON" while playing Tiger Rag. This year, Tiger Band even danced in one of their shows.

Through time, Tiger band has had some great honors. They have played for President Ronald Reagan, for Vice President George Bush, at numerous Bowl parades and halftime shows, have toured the White House, have stood on the steps of the Capitol Building with Sen. Strom Thurmond (and were subsequently threatened to be arrested for demonstrating without a license for doing C-L-E-M — in Cadence Count), performed at numerous Governor's inaugurations, and performed at halftime during pro football games. The band has traveled to Atlanta, Balti-

more, Miami, South Bend, Shreveport, Washington, Houston, and other cities, and even flew to Boston for a game with Boston College. Probably one of the most memorable of these experiences was in 1961. Dr. Butler took Tiger Band to Washington and being in full uniform (including the opera cloaks) but without their instruments, they sang the Clemson Alma Mater for President John Kennedy.

Recently, IPTAY has played a large role in funding Tiger Band. Though most expenditures were budgeted through the university, IPTAY provided travel funds. This enabled Tiger Band to attend all away games in full force making Clemson one of the few schools whose band follows and supports the football team wherever they may go. IPTAY also provided funds for the purchase of much needed, and much appreciated, new uniforms this year. These uniforms, although still bright orange, were more military in style and included a cape.

Tiger Band was offered as a one hour course through the Department of Music under the title of Music 361. Band practices were held on the intramural field across from Fike Recreation Center on Mondays through Wednesdays from 5 to 6:30 p.m. with an extra Friday evening and Saturday morning practice on home game weekends. Tiger Band performed at pregame of home football games, performed at halftime and in the stands at all games, participated in the First Friday parade, and played at pep rallies.

According to Dr. Cook, the purpose of Tiger Band was not necessarily to play at halftime "which the crowd does seem to enjoy", but rather "to represent the university, to provide and create spirit, and to lend visible and vocal support to our team." And what made Tiger Band "so special, so unique" is that it was not a band for the sake of being a band, but that it was a collective group of unique individuals in touch with the students which helped to create spirit in the stands.

Amazingly, none of these students were music majors, since Clemson did not offer one. They were students dedicated to playing their music and creating that great, unique Clemson spirit. And so, for all of this throughout the years, TAPS salutes the members and all those associated with "... The Band That Shakes The Southland — TIGER BAND!"

FIRST FRIDAY THANKSGIVING

Gearing up for another football season

The students were forced to wait some three weeks before the Tiger football team kicked off their 1986 season in Death Valley. The Virginia Tech game was preceded by the 12th annual First Friday parade, which carried the theme "First Friday Thanksgiving," in reference to the featured Tech mascot, the Gobbler. A pep rally and concert followed the parade.

Despite the notable absence of the "Kudzu Kids," the usual large crowd swarmed to the bank and sidewalks of Highway 93 to see the parade. The freshly cut grass accented the novelty of the gridiron season and school year while the hot weather chased many spectators to the friendly confines of the shade.

As students made their way from the downtown bars or campus, Clemson residents were also lining the streets for the traditional event. Students and locals alike enjoyed the spirit and atmosphere of the parade, which was sponsored by the Pi Kappa Alpha fraternity and Central Spirit Committee.

After the normal delay in the parade starting time, cheerleaders, fraternities, sororities, organizations and many others took to the street, parading from Thornhill Village to Sikes Hall. Mr. and Mrs. Taps were there, as was University President Max Lennon.

Any doubts as to whether or not it was really the eve of the Tigers' first football game were laid to rest when the Tiger Band entered playing "Tiger Rag." Goose bumps arising, the spectators were now ready to embark on the new season.

Parade chairman Jay Reel said he considered the floats, and the parade in general, to be among the best ever. In the float competition, the overall winner was the Delta Delta Delta sorority, while in the fraternity/sorority division, Chi Omega took home the crown. Arnold Air Society/Angel Flight placed first in the club/dorm division.

The completion of the parade saw much of the crowd trek by Sikes to the amphitheatre, where an overflow crowd got it's first chance to yell for the Tigers at the pep rally. An excited crowd showed the hunger of the student body for a big game in the Valley.

Students were introduced to the varsity and junior varsity cheerleaders, and the Rally Cats performed as well. Those in attendance even got the opportunity to participate in the first wave of the year, with students creating the illusion across the amphitheatre a few times.

Coming on the heels of the *Rocky Horror Picture Show* pipe bomb incident, the pep rally and subsequent

three-band concert showed any skeptics of Clemson students that such violence was an exception, not the norm. The one downer of the weekend was the loss to the Hokies, but those who traveled to Athens the following week end were convinced that the exciting display of spirit on "First Friday Thanksgiving" was simply celebrated a week later.

Jim Hailey

THE 21 BLUES

Drinking age hampers students

In the past year there had been many incidents, both national and abroad, which had not only captured the attention of the Carolinas, but also changed the lives, if not the attitudes, of a multitude of people.

What event could cause the economic decline several key businesses experienced? What circumstance could have made the people of MADD and SADD so jubilant? What phenomenon could have caused 5,000 Chapel Hill residents to go on a rampage inflicting $12,000 in damages to local properties? The stimulus for these reactions was none other than the increase in the drinking age once again; for on September 14, 1986, North and South Carolina simultaneously increased the legal drinking age to 21.

This act of legislation led to a variance of reactions from Clemson area residents, though, fortunately, none of these reactions resulted in any riots. For some local enterprises, alternative actions had to be taken to prevent the loss of business. Nick's, located on Sloane Street, began serving non-alcoholic beer to prevent the loss of customers.

Esther Revis-Wagner, owner of Nick's, did not revert to these actions out of desperation; sustenance was also provided to customers. Also, according to Mrs. Wagner, "most of our crowd has been grad students."

(right) Tigertown Tavern is a great place to shoot pool.

(lower right) The beer is constantly flowing at Tigertown.

(bottom) Yes, some students do eat in the bars!

(below) Trivia Whiz has become quite popular at TTT.

All photos by Sheri Irwin

(above) Pretty workers are an added attraction at some area drinking spots.

(right) Esther Revis-Wagner doesn't feel the new drinking age has affected Nick's much.

Not only had bars taken steps to beat the system, but so had some minors. The use of false identification, as well as the occurrence of private and 12:01 parties, was also prevalent. It was even feared that usage of drugs and alternate substances were on the increase among minors. No matter how extreme the activities, minors were only trying to join in the social functions of the legal set, trying to achieve a right which was not within their grasps yet.

Then, of course, there were the boys that make up "the system", the Highway Patrol, the City Police, the Sheriff's department and other state officials in the Carolinas. The increase in drug trafficking, use of false identification, privately initiated parties and the disturbances they caused, and, naturally, the old stand-by "cruising", which usually involved as much drinking as it did driving, unfortunately eding in DUI for some. All these and a host of other problems made the law enforcement's job just a little harder.

No matter how this new act of Congress affected Carolinians, it was sure to be remembered by all for at least a little while. Unless, of course, the age is increased again in 1987!?

Barry Mayes

APARTMENT LIFE

Living the collegiate "high life"

It has never failed. Each year, countless freshmen have charged to Clemson with an ideal picture of freedom, a.k.a. dorm life. But, like every other year, many students, almost always past the freshman status and with "give me dorm life and give me death" attitude, flocked to the privacy and luxury of apartments. Whether it was Clemson Courts, Cedarwood or even on-campus quarters like Calhoun Courts, upperclassmen were again the adventurous individuals who dared to keep their kitchens clean and cook good meals. Granted, neither was often accomplished, but there was still something appealing about the lifestyle.

"I like being able to kick back and not be bothered by anyone," said senior Kenny Owens. This type of statement was not to suggest that the older ones were anti-social. They, with a few years of college tucked away, realized the need to be alone to relax or study.

What were the advantages of apartment life? Well, an on-campus apartment resident enjoyed the obvious conveniences of classes within walking distance, cable television, and campus at his fingertips (though he did have to reach a little more).

If a student was lucky enough to live somewhere like Clemson Courts, which is downtown, he still lived close to campus and enjoyed a pool as well. In fact, a swimming pool was a common feature for off-campus apartments like Goldenwoods, River Bank Commons, University Ridge, Village Green, and Cedarwood.

Thornhill Village, an on-campus apartment complex, received a major face lift. New sinks in the kitchen and bathroom were installed. The apartments were painted inside and out, and large identification numerals were attached. New carpeting was put into all the rooms and the kitchen received new flooring. The Housing Office estimated the renovation to have costed $4000 per apartment. However, the cost was well worth the end result because Thornhill Village became a more pleasant place to live.

Basically, apartment life anywhere in Clemson provided the student with a more pleasing environment. After all, his biggest chores were devising a way to study more and goof off less. But rest assured, the "level-headed" upperclassmen would not have traded those duties for anything in the world!

HOMECOMING '86

Clemson has another great celebration

Homecoming. Thoughts of floats, football, and fun. Images of Tigerama, tailgaters, and Tiger rags filled the mind. Parties and laughter echoed across the campus. Homecoming brightened everyone.

Battling time and juggling budgets, fraternities and organizations struggled to create winning Homecoming displays. It rained the beginning of the Homecoming week, October 13, 1986, and the weather threatened to dampen the entire week. However, by Tuesday, the skies cleared and the fraternity brothers and pledges raced to build their floats.

Cold nights and the prohibition of open alcohol dampened the spirits of some, but most were able to throughly enjoy the entire week of Homecoming. Many people's having mid-terms did not stop them from constructing displays and partying at the same time. By Friday, Bowman field was the place to be. Sounds of music, laughter, and good times could be heard until the early hours of Saturday morning.

Before the game, while the students rested from a hard week, alumni, parents, relatives, friends, and other dedicated Tiger fans arrived in orange with tailgating baskets. Before the game, they saw the colorful Homecoming displays. Chi Psi fraternity won the still display competition with a prize of $350. The victory was Chi Psi's third in a row, and set a new Homecoming record. Kappa Alpha fraternity placed second, followed by Sigma Phi Epsilon fraternity.

Sigma Nu fraternity won the moving display category. Their winning float was "Paving the Way for Clemson." Alpha Tau Omega and Phi Delta Theta

fraternities won second and third, respectively.

"Fairytale Clemson" was the theme of Tigerama '86. Sponsored by the Blue Key Honorary fraternity and WSBF, the student radio station, Tigerama celebrated its thirtieth birthday. Tigerama opened with a pep rally featuring the Tiger band, cheerleaders, and the Rally Cats. Following this, six fraternities and sororities performed skits for the 40,000 plus crowd. Sigma Nu's "Danny Pan" won first place. Alpha Tau Omega and Pi Kappa Alpha came in second and third. All the productions, however, were greeted with much applause and laughter, making the judges' job a difficult one.

During Tigerama, Jacquelyn Lawrence was crowned Miss Homecoming 1986. She was sponsored by the Delta Delta Delta sorority. Tammy Ward, sponsored by Tiger Band, was the first runner-up, followed by Nancy Humphries, Leslie Yoakum, and Beth Woodard.

The Homecoming Queen was chosen by the students, who voted during the week. Tigerama ended with an impressive display of fireworks, which drew many "oohs" and "aahs" from

the crowd.

The highlight of Homecoming was, of course, the game. The Tigers mauled the Duke Blue Devils 35-3, but the fun didn't end with the game. George Burns was the star Saturday night at Littlejohn Coliseum. Miss South Carolina, dawn Smith opened the evening with several songs, but the audience wanted Mr. Burns.

During an intermission, the crowd did a traditional Clemson wave around the coliseum. Later, one half of the audience yelled, "George" while the other half responded, "Burns!" Mr. Burns kept the audience laughing, and no one was disappointed after the show. One of his better lines concerned his fetish for young women. "It was good to me when I was young," he said, "so why not keep it up?"

Homecoming '86 promised to be a memorable occasion for all the people involved. It was.

Kris Coakley

SHORT COURSES

Becoming Jacks of all trades

While walking back to her dorm room in Manning at 11:00 p.m., she heard mysterious footsteps fall in behind her. Yet, she remained calm because this was the first thing she learned from taking the University Union's short course "Rape Prevention."

University Union sponsored eighteen non-credit short courses. The topics ranged from rape prevention to radio broadcasting. They were designed to provide enrichment, enjoyment, and opportunities for personal growth.

Qualified instructors taught the courses which were usually held in the evenings. Some courses such as "Rock Climbing and Repelling" were taught on location. This provided the students to experience what they were learning first hand.

"I just wanted to know it in case I ever needed it," said John Lloyd, after completing the CPR course. Courses such as CPR offered certification upon completion. Ms. Patricia Hightower and Linda Lecray, who taught the CPR course, maintained an informal, relaxed environment where learning was fun. In fact, all the short courses kept an informal spirit.

In "Basic Bartending," students learned to plan parties and prepare drinks, both being important to college students.

"Bridge" offered more than bridge instructions to students. The best bridge player from the course received a $200 scholarship and qualified for national bridge competition and honors.

Coeds learned to bring out their best features in "Makeovers by Aloette." The $5.00 course taught in two evenings by Lisa Wilson focused on eye techniques and patterns.

"Shagging," both beginning and intermediate courses, allowed students to learn South Carolina's official state dance to "Beach Music." The course, instructed by Carroll Brown, proved to be very popular among students.

The course on relaxation techniques proved to be extra helpful to many students. The stress management and stress prevention techniques taught in the course came in handy to those students who took the course after several exams.

Other short courses offered included "Body Massage," "Cake Decorating," "Calligraphy," "Knitting," "First Aid," "Scuba Diving," and "Snorkeling." The courses were designed with a student's budget in mind, and faculty, staff and their families were all invited to participate.

PARTY IN THE STREET

Students are given a warm welcome back

Last year marked the beginning of the Welcome Back Festival in downtown Clemson. After a summer away from classmates, nothing seemed more appropriate than a yearly get together in August to see good friends again. The festival returned this school year with a short welcome speech by University President Max Lennon, the Clemson cheerleaders, including the Tiger mascot, and the Silver Bullet Cloggers. More than 20 area restaurants offered food samples in exchange for 25 cent raffle tickets.

The festival, which also greeted Clemson mayor Larry Abernathy, the University Pep Band, and WFBC-FM's Russ Cassell, was a literal party in the street. Despite the planned festivities, the large turnout could mostly be attributed to the students' yearning to see one another after a summer apart. It was impossible to travel too far down the street without encountering an old roommate, lab partner, or casual friend.

If the heat became too much in the road, Tigertown Tavern and the other downtown spots were alternatives. More familiar faces appeared as students headed into the bars. Whenever these students chose to exit the watering holes, the outdoor party was still on! All things considered, the festival, sponsored by the Clemson University Student Alumni Council and the Alumni Association, proved to be another success.

THE COFFEEHOUSE COMMITTEE

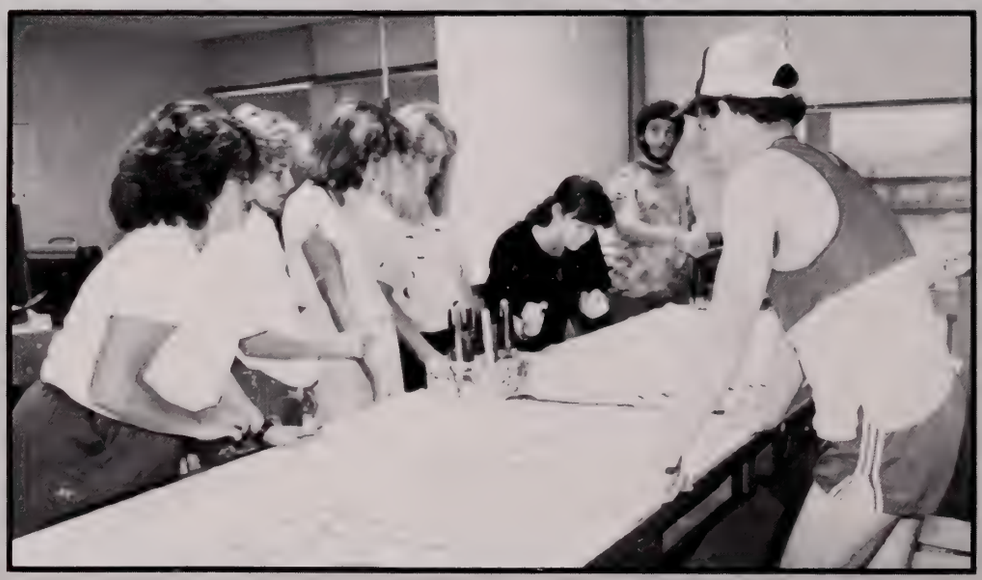
Entertainment provided at Edgar's

Edgar's, the former campus pub, was transformed into the coffeehouse every Tuesday night with candles, table cloths, and super entertainment. The Coffeehouse Committee was a branch of the Clemson University Student Union and had origins back to Greenwich Village. It was one of the original committees in the union and once again became the "happening" thing on campus. Events were once held in The Gutter under the YMCA, but because of fire hazards, they were moved to Edgar's.

The original coffeehouse was intended to be an "out-of-the-way" place for beatniks who escaped society, sipped herbal tea, and listened to mellow music. As time passed and changes occurred, the coffeehouse wasn't forgotten or left behind. Rather, it evolved from an "out-of-the-way" place to the center of campus. The entertainment offered was also changed from the mellow sounds of Robin and Linda Williams and the Bluegrass of the Shady

(below right) Clemson students usually flock to Edgar's when Carl Rosen comes.

(below) Coffeehouse Committee members prepare for the Carl Rosen concert.



(far right) A lot of the work for coffeehouse entertainment goes on behind the scenes.

All photos by Brian Arldt

Grove Band to the Motown sounds of Rick Kelley and the upbeat sounds of Carl Rosen. Coffeehouse even went comedy with comedian Joel Madison.

With the change in the drinking age, Edgar's went dry for much of the year, and the coffeehouse was the committee best suited to handle this change because it had always been the committee to offer alternative beverages as well as alternative entertainment. In addition to this change, other renovations occurred in Edgar's last year. A fresh coat of paint and the elimination of a wall behind the stage to allow more room turned the former bar into a music hall or entertainment center.

The season opened with the Motown tunes of Rick Kelley, who, back by popular demand, proved once again to be at the head of the list with his Top Priority tour. Robert Starling, from Myrtle Beach, S.C., made a splash with his James Taylor style on both guitar and keyboards. The house was packed when Carl Rosen, making his fourth appearance in Edgar's, transmitted from himself to the audience the high energy of his one man performance. Elton John, Billy Joel, Sting, Bruce Springsteen, and, yes, even Stevie Nicks were present that night in Edgar's in the form of Carl Rosen. A standing ovation demanded more.

These few performers were isolated examples of the wealth and variety of entertainment offered by the Coffeehouse Committee last year, and it never ceased to provide quality performances.

SNOW!

Students make most of extra holiday

For those students in their fourth year at Clemson, it finally happened. A hefty, honest-to-goodness snow brought smiles and, for the first time since 1983, cancelled classes to CU.

As the snow began accumulating in the early hours of Thursday, January 22, students eschewed the sleep that would be sorely needed if, in fact, classes weren't called off for the day. There were too many snowballs to throw for that unlikely possibility to spoil the fun.

Nevertheless, many students huddled by their television sets and radios at 6:30 a.m. to discover whether our president from Ohio State considered the six inches of snow trivial or worthy of a day without classes. Alas, President Lennon drew smiles from the entire student body by giving the thumbs down to classes.

Students then turned to utilizing those once ridiculous "Snow Plan" booklets. Cafeteria food trays were "rented" for an ID, and every semi-hill on campus became fair game for sleigh or tray riding. Williamson Road, which ran by the West Campus "pit," was closed off to give students an official sleigh area. Snow football was also an outlet the students could take advantage of on the intramural fields.

The biggest attractions, though, were the ongoing snowball affairs. On East Campus, walking near the dorms was tantamount to suicide, unless the attacked had an arsenal of snowballs and friends. Students standing outside in the lengthy lunch lines at Schilletter dining hall were bombed, as was a police car!

West Campus provided the setting for the CU football players' charge on the fraternity quads. Not to be outdone, several groups of guys loaded huge mounds of snow on the backs of four-wheel drive trucks and cruised the campus, terrorizing students with the ultimate in snowball warfare.

The snow had ended by mid-day, but the bad conditions caused classes before 10:10 a.m. Friday to be cancelled. For those choosing to sit out the remainder of Friday classes, three years void of a real snow were rewarded by a four day weekend.

Jim Hailey

IN THE NEWS

The year in review

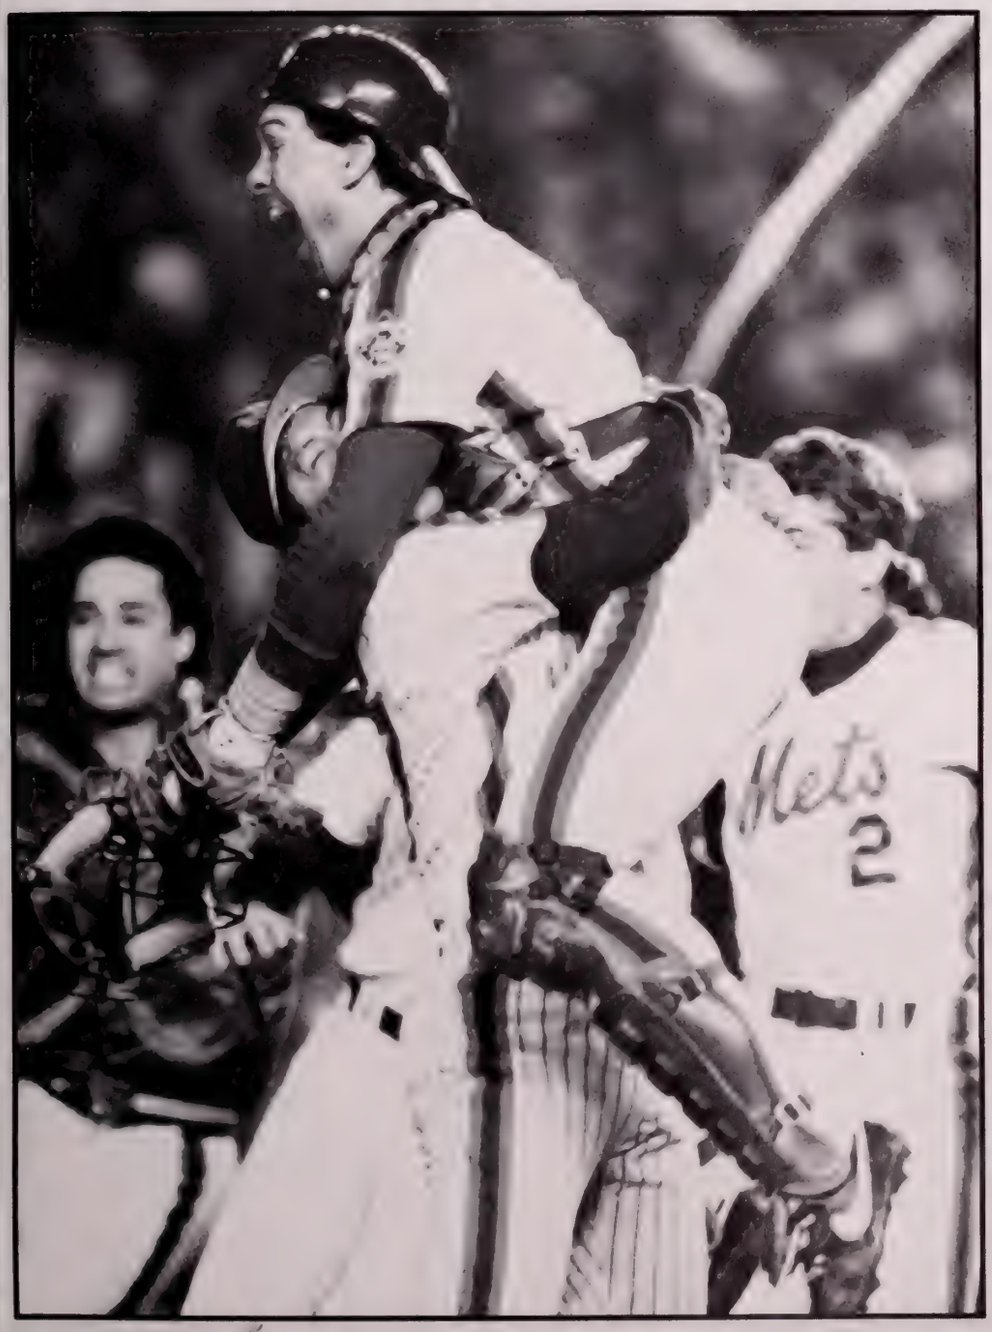
As each year always does, the past one brought us many surprises, both pleasant and unpleasant. It was a period where some trends started and others ended. 1986 was a year that wrought change on societies across the globe as well as here at Clemson University. Although events are sometimes lost and forgotten in the passing of time, some events will always be remembered.

On the national level, there were two small nations that led the world in change; a change for the better. Led by Rev. Desmond Tutu, the oppressed blacks of South Africa demanded that the Dutch minority government relinquish its apartheid methods. Meanwhile, President Reagan vetoed the Senate bill to impose economic sanctions on South Africa, arguing that such action would only hurt the oppressed even more. However, the Senate overturned his veto and sanctions were eventually imposed. In South Africa, the political unrest continued, causing the deaths of 1,300, most of which were black demonstrators. This prompted Americans to begin treating the situation as not only a foreign policy matter, but a basic civil rights issue. American opposition took many forms; demonstrations, marches, and divestments of U.S. holdings in South Africa. By the year's end, IBM, Honeywell and Coca-Cola agreed to pull out of the country.

While the riots in Cape Town grew bloodier, Corazon Aquino was leading her country in a coup against the regime of Ferdinand Marcos. In an amazing display of people power versus tank power, the Phillipine people triumphed in forcing Ferdinand and Almelda to flee for Hawaii after 20 years of despotic rule, leaving their shoes behind. Aquino, however, was left with a crippled national economy, an escalating guerilla war, and a disloyal staff, yet some felt that not even these challenges would deter "Cory" from rebuilding her nation.

During 1986, when revolution shook these two countries, the superpowers were having troubles of their own. After more than a week of stonewalling, the Soviet Union announced that a nuclear reactor at the Chernobyl power plant had exploded, releasing a radioactive cloud that spread across the globe. In Poland, iodine was distributed to children in hopes of preventing thyroid cancer, while European officials monitored farm products for signs of contamination and Tokyo increased radioactivity readings prohibiting the consumption of rainwater. The U.S.S.R. finally released the grim news of the disaster: 31 Soviets died in the fire and the radiation released (more than at Hiroshima or Nagasaki) may eventually cause the death of at least 4,000.

Earlier in the year Americans watched in horror as the Space Shuttle Challenger disintegrated on its ascent. The explosion shocked the nation and was particularly devastating to a small



(far left) Reagan and Gorbachev meet in Iceland to discuss arms control.

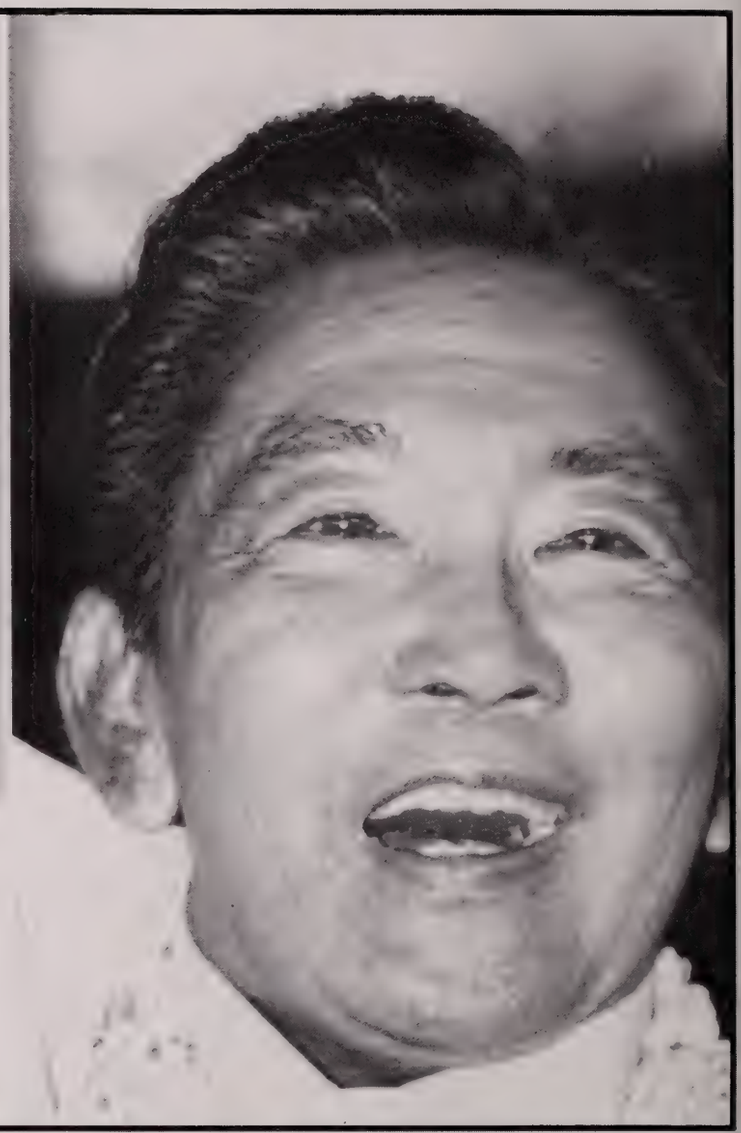
(above) Scalding gas kills 1700 people and a large group of cows in Cameroon.

group of school children whose teacher, Christa McAuliffe, was the first civilian to venture into space. Along with McAuliffe, six others died in the disaster, one of those was Lake City, S.C. native, Ronald McNair. The effect of the shuttle catastrophe led to a self-examination and government inquiry into the NASA organization that would delay the space program for two years.

In the following summer the Southeast experienced the worst dry spell on record. At the drought's peak, crops in states from Pennsylvania to northern Florida were wilting under the excruciating heat. Even after some rain, many farmers in the Carolinas, Georgia, Tennessee, and Virginia were on the brink of ruin. If not for the efforts of western and midwestern farmers who sent hay to the many needy southeastern farmers, the drought's effects may have been much worse.

In the midst of this devastating dry spell there was not total despair. New



York City sponsored a huge birthday bash to celebrate the Statue of Liberty's first 100 years. A four day celebration was organized to include 6 million people, an international naval review, a Hollywood-style song and dance show, and the largest fireworks display ever. With a brand new $69 million makeover, The Lady stood tall to observe the entire extravaganza and remained America's enduring symbol of idealism, energy and self-confidence.

Later in the year, the U.S. had to defend its stand on Star Wars and arms control, and at the same time hope to reach a peace agreement with the Soviet Union. The events which led to the two-day summit in Reykjavik, Iceland

(top) Corazon Aquine replaces the exiled Philippine president, Ferdinand E. Marcos.

(far right) Miss America 1987, Kellye Cash, is crowned by Susan Akin.

in October began with the New York arrest of Gennadiy Zakharov, a Soviet Union employee, on charges of espionage. A week later, American journalist Nicholas Daniloff was apprehended in Moscow on charges of spying on the Soviet Union. Both men were released within weeks. Unfortunately, the arms talks fell through when Mikhail Gorbachev refused to accept Reagan's proposed Star Wars plan.

Although Reagan failed to gain support for either the Star Wars plan or the veto on South Africa sanctions, he did succeed in signing into law the largest tax overhaul in a generation. The bill cut taxes for most workers while paring some prized tax deductions and boosting the tax burden on corporations. Illinois Democrat, Rep. Dan Rostenkowski headed the House delegation while Oregon Republican, Sen. Bob Packwood headed the Senate delegation.

Reagan also gained another victory against his opposition in 1986, this one against terrorism. Under cover of the April darkness, U.S. Air Force and Navy forces attacked five targets inside Libya, which Reagan considered

(right) A major tax overhaul is signed into law with the help of Rep. Dan Rostenkowski and Sen. Bob Packwood.

to be a strong force behind the "monstrous brutality" of terrorism. Among the targets was the Libyan Naval Academy, which is located in a suburb of Tripoli, and among the victims was one of Kaddafi's own children. However, there were further incidents of terrorism later in the year. On September 6, two Arab terrorists stormed Instanbul's main synagogue, killing more than 20 worshippers with sub-machine gun fire. Before the police arrived, the terrorists had killed themselves by detonating several hand grenades.

The violence and terror did not end there. While Europeans fought an unseen human force, the people of northwestern Cameroon combated an invisible natural force. Deep from under the surface of Lake Nios, the earth released a bubble of scalding gas that spread across the land. Within minutes, more than 1,700 people and a large herd of livestock were dead, burned by steam and choked by carbon dioxide and toxic gases.

In 1986 we bid farewell to many celebrities and famous people. Singer Kate Smith died on June 17 of respiratory arrest at the age of 79; The King of Swing, Benny Goodman, died June 13 of cardiac arrest; actor James Cagney, one of Hollywood's infamous tough guys, died March 30 at the age of 86; and Ted Knight, best known for his role as Ted Baxter on the "Mary Tyler Moore Show," died August 26 of cancer at the age of 62. The two most surprising deaths came from the sports world, those of University of Maryland basketball star Len Bias and the Cleveland Browns' John Rogers, both of whom died from "crack", a cheap and highly addictive form of cocaine. Bias died just days after being drafted by the legendary Boston Celtics, and he had just signed a $1.6 million contract to endorse sneakers. Rogers died the day of his wedding. It suddenly became apparent to many that cocaine could kill even a light

(right) Clockwise from top left, Kate Smith, Benny Goodman, Ted Knight, and James Cagney are lost in 1986.

user. These two dreadful events prompted Congress to pass a new sweeping drug bill. America finally began to believe that drugs weren't fun and games.

In the wake of these tragic deaths there were several events that lifted America's spirit. Among those were several sumptuous weddings. Caroline Kennedy, who captured America's heart as a little girl romping through the White House, married New York businessman and artist Edwin Schlossberg in Hyannis Port, Massachusetts. They were married in the same church that her cousin, Maria Shriver, married Hollywood hunk Arnold Schwarznegger in several months earlier. Among others to tie the knot were Bob Geldoff and his bride, Paula Yates. but the wed-

(left) A severe summer drought ravages much of the Southeast.

(top) 1986 becomes the year America learns of the deadly effects of "crack."

ding to top the list was that of Prince Andrew and Sara Fergusen. The couple was united in July at Westminster Abbey. Prince Andrew is the Queen's second son and fourth in line to succeed the throne. Following in England's tradition was our own Miss America Pageant. Miss Tennessee, Kellye Cash, grandniece of country singer Johnny Cash, was crowned Miss America 1987. Miss Cash received the crown from outgoing Miss America Susan Akin.

There were also reasons for others to rejoice, fifteen years after his death, a federal holiday was set aside to commemorate the life of civil rights leader Martin Luther King, Jr. All but a dozen states observe this new holiday, the only one that honors a black person. Another reason for many to rejoice was the new crackdown on pornography in the United States. Attorney General Edwin Meese and his self-appointed Commission on Pornography spurred on the anti-porn movement by attacking hard-core porn and urging citizen action against peddlers of the milder material.

The year 1986 proved to be another year of change and redirection for the world. A year of devastation and a year of rejoicing, a year of celebration, and a year of heartbreak. As each year passes we can expect a variety of events, for a year in the life is never dull, never monotonous, and never lifeless. Life always holds something in store for us.

LOCAL NEWS

Region has usual ups and downs

The region encompassing South Carolina and surrounding areas contained its share of noteworthy news throughout the past 365 days. One had to look no further than the "pipe bomb incident" to find unfortunate news. The student-instigated explosion at the August showing of the *Rocky Horror Picture Show* in the Amphitheatre left two people injured.

In Columbia, January ushered in the inauguration of Carroll Campbell as governor and bid farewell to outgoing Governor Dick Riley.

Also in January, a 16-year-old boy and two 11-year-olds destroyed Woodruff High School, which was about an hour from the CU campus. The arsonists were from Woodruff.

The mountains of Edneyville, North Carolina, near Asheville, were infested for a few days by a killer hiding from police. The man was eventually shot and killed by police.

Racism also became a big local, as well as national, issue in January. Cumming, Georgia, in all-white Forsythe County, became the site of a civil rights march during the week of Martin Luther King's birthday. Cumming residents had earlier hurled insults and objects at black demonstrators, and Ku Klux Klansmen came out in full force for the second march. The presence of heavy security halted any possible major violence.

Also on the racism subject, white Citadel students who performed racist hazing on a black freshman were the targets of major protests from members of the NAACP.

In sports, Sugar Ray Leonard chose Hilton Head Island as the training site for his boxing match against Marvelous Marvin Hagler in April. Also, Lower Richland and Eau Claire, two high school basketball teams ranked in the nation's top twenty, played in the University of South Carolina's Carolina Coliseum before over 11,000 fans.

In September, a Gaffney resident caused extreme panic in the waning minutes of a Gaffney High-Greenwood High football game. The tear gas canister the man threw behind the stands sent thousands of Gaffney fans racing from their home side to the playing field. Hundreds became sick, but, fortunately, no one was seriously affected.

EUGENE "MERCURY" MORRIS

Ex-Dophins' star enlightens crowd

Former Miami Dolphins' running back Eugene "Mercury" Morris came to the Tillman Hall Auditorium in January with a unique message concerning America's drug problem. Presented by the school's athletic department CORE committee and co-sponsored by the Office of Student Life, Morris' talk captivated the large crowd, much of which consisted of Clemson athletes.

Morris, who played in Super Bowls VI, VII, and VIII, later became a cocaine abuser who spent time in jail, which he termed "the can." He then turned himself around and began campaigning to help prevent drug abuse.

"After football ended, I had no direction in my life," he said.

The former footballer, who insisted his cocaine past made him a more valid authority, said he never told others to, as the White House administration suggested, "just say no."

"I never tell people not to do drugs, because they've heard that a thousand times," he said.

Although he respected the Reagan administration for their efforts, he felt a change would never be made by attacking the drugs themselves.

"The drug problem will never be fine by taking the symptoms away," he concluded.

Jim Hailey

"It's not a drug problem, it's a people problem."

Dr. Sharon Harley

Southern black women praised

All photos by Jill Russell

As part of the recognition of Black History Month, Omega Psi Phi fraternity and the Clemson University Black Awareness Commmittee brought Dr. Sharon Harley, Assistant Professor of History at the University of Maryland, to speak at Tillman Auditorium on February 2, 1987.

Dr. Harley's studies focused on the women's suffrage movement, the lynching of blacks, Jim Crow segregation laws, and the moral uplift campaigns of black women.
segregation laws, and the moral uplift campaigns of black women.

A lack of historical research and a "tendency to ignore the anti-suffrage movement of women in the South" fostered a false image of both black and white southern women, according to Dr. Harley. "Southern black women were not the subservient, passive individuals they were made out to be," she said.

Dr. Harley spoke of the outstanding achievements of black women activists such as Mary Church Terrill and Ida Wells Barnett, as well as the efforts of lesser known activitists such as Fannie Lou Hamer and her work in the voter registration movement.

The illustrations of black women in the South which Dr. Harley presented left the audience with the true image of the black southern woman: "Instead of being weak and passive, black women of the South engaged in battle . . . to bring about racial and sexual equality."

Jill Russell

"Southern black women were strong, not weak."

JEFF GREENFIELD

Getting a handle on politics

"The myth that television is the dominating force of political life is dangerous." This was the message Jeff Greenfield, a contributing analyst for the American Broadcasting Company, conveyed to a Tillman Hall Auditorium audience last March. Greenfield aptly defended television's role in politics, saying TV doesn't decide who gets elected, despite the popular belief to the contrary.

While admitting TV has brought changes to the political world, he upheld that "the politicians make the difference." Citing that politics determined a lot about our future, Greenfield said it was an underlying reality that decided who gets elected. Humorous throughout, he sought to dispel a few myths concerning TV and politics.

He disagreed with the theory that attractive politicans on television usually get elected. Greenfield pointed out that good looks were beneficial in all walks of life, but that society often disregarded physical appearance, as in the case of New York mayor Ed Koch. The assumption that TV has made American politics less honest also held no water with Greenfield. "Politics has always been corrupt." he said. His basic defense of television politics was the exposure TV provides. "TV gives a means to politics."

Jim Hailey

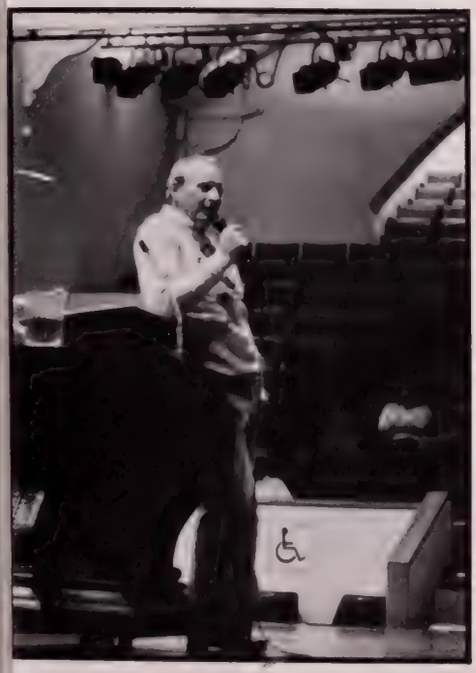
"Used appropriately, television is an excellent device for politics."

LARRY LINVILLE

Students get M*A*S*Hed

All photos by Michael J. Morga



"M*A*S*H is a series that no one thought would make it, but it did."

"You are dealing this evening with a professional liar." So began the visit of Larry Linville, who portrayed Frank Burns on the television series M*A*S*H. A large and rowdy crowd greeted Linville to Tillman Hall Auditorium in September.

Linville revealed that his first stint as an actor came in high school, when he joined the drama club to meet girls. He later attended the University of Colorado as an Engineering major with aspirations of flight training at Edwards Air Force Base. However, the discovery that he was color blind halted his flying dreams.

Out of desparation for a career he could enjoy, he applied to the Royal Academy of Dramatic Arts in London. He was accepted and, of the 60 students in his class, he was one of only six to receive a diploma.

Linville's career on M*A*S*H followed a strange series of events that proved, as he said, "success is an inverted disaster." The humorous war story was first written in book form by a Korean doctor, but it took 16 publishers' refusals before one decided to gamble on the plot. 20th Century Fox was just as disenchanted at the prospect of a M*A*S*H movie, but, like the book, it was a smash. The TV series was also considered a poor investment, but CBS' Fred Silverman liked it, stuck with it, and the rest is history.

Of the people Linville worked with on the series, he was especially fond of his working relationship with Hawkeye, Alan Alda. Linville felt the two were superior performers together. "We had magic, instant chemistry," he said.

Jim Hailey

THE Y-MOVIES

YMCA provides great entertainment again

(below) Students await the start of another weekend feature.

(bottom) Popcorn is a must for some moviegoers.

All photos by Michael J. Morga

So often during the year students would find themselves with a night void of excitement or studying. What was there to do? One excellent option that many students took was offered on campus by the YMCA.

Once again, the YMCA movies at Clemson reeled in its share of students with its quality and variety. Early in the year, *"Monty Python and the Holy Grail"* entertained a packed and rowdy crowd for the weekly free movie on Sunday night.

Of course, it took very little to get the students rowdy. Any villian gracing the screen drew a large round of hisses, while some flashes of light, either on the screen or from the theater switch, drew squeals of "bright light!," educed by last spring's showing of *"Gremlins."*

Probably the biggest part of any Y-movie presentation was the preliminary cartoon showing. Abandoned for a short time last year, overwhelming student demand led to the triumphant return of Road Runner and friends. The animated creatures always produced a lively audience for the feature film.

The feature presentation on Thursday, Friday, and Saturday nights usually was impressive. For the serious drama advocates, flicks such as *"The Color Purple"* were shown. A horror fan needed to look no further than *"Alien"* for satisfaction. Comedy lovers were given choices such as *"Running Scared"* and *"Ferris Bueller's Day Off."*

Also, Five-Directions Cinema, in connection with the English department, gave students cultural and obscure films such as *"Repo Man"* on Wednesday nights.

Movies were shown six nights a week with no movie costing more than two dollars. With people like Rob Lowe, Billy Crystal, Tom Cruise, and Matthew Broderick around, there was no reason for students to sit idly in their dorms or apartments.

Jim Hailey

(left) The method of ticket collection is crude, but don't let it fool you.

(above) Y-movie prices are always a bargain.

CLEMSON PLAYERS

Quality performance once again

The production of quality theatre continues to be the end result of the Clemson Players' efforts.

During the summer of 1986, the Players presented two plays. The first play, *Reversals,* was a collection of shorter pieces including a selection from *Lovers and Other Strangers* by Renee Taylor and Joseph Bologna and a one act play entitled *Epiphany,* by Lewis John Carlino. The play, directed by Raymond Sawyer, was concerned primarily with power struggles between men and women in relationships.

The second play of the summer was *Yellow Dog Crossing,* an original play written by Tom Evans and directed by Clifton S.M. Egan. It is a delightful story of a young boy who comes to stay with his grandfather after the death of his own father. During the course of the play, they continue a project which his father and grandfather had started — building an Ornithopter. In building the flying machine, they also build a relationship of their own. The play featured Frank Grossclose, an actor from Atlanta, in the role of the grandfather and Russell Warner, a young student from Clemson, in the role of the grandson.

The Players continued their season in the fall with a presentation of *The Curious Savage,* a light comedy written by John Patrick. It was about a woman committed to a sanitarium by her money hungry children. Mrs. Savage thwarts the efforts of her greedy children with a little help from her friends, the inmates of the sanitarium.

Festival greets second production

The second production of the school year produced by the Clemson Players was Clemson University's entry in the American College Theatre Festival. The production, entitled *Backstreet Passages*, was performed at the South Carolina Theatre Association festival at Francis Marion College on November 15, 1986.

Backstreet Passages is a selection of two one act plays written by Leslie Wade. *Les Voyeurs* is a story concerning an ailing old man's struggle to survive and his relationship with a younger boy. The boy has recently left his dead father unburied and is learning the life of a con-artist/beggar. he has gotten to the point where he is supporting both he and the old man and decides that he has had enough and threatens to leave. The old man exposes the boy's guilt over his dead father and persuades the boy to stay.

Gargoyles is the second of the two one act plays and a recent recipient of the Christina Crawford award for the best new play by a college student. It concerns the relationship of an older man and a younger woman. The man has been placed in a rehabilitation work program and serves as a janitor in a local church in a northern port city. The woman is the owner of a rundown bar in the same vicinity. The pay deals with his frustration at being a marked man living on empty life and her need to be needed by someone and to be loved.

The production was directed by Raymond Sawyer, who was also director of the Players' production of *American Buffalo* which advanced to the Kennedy Center in Washington, D.C. in the 1982 American College Theatre Festival. This production of the two original one act plays was expected to advance further into regional competition.

MISS HOMECOMING

Lyn Lawrence

Lyn Lawrence, Miss Homecoming 1986, was a senior Administrative Management/Marketing major from Simpsonville, S.C. Lyn was a member of Delta Delta Delta sorority, in which she served as the Historian. She also was a member of the American Marketing Association, the 1986 Pi Kappa Alpha Dream Girl, and Miss May on the 1987 Alpha Tau Omega calendar. Miss Lawrence gave special thanks to her Tri-Delta sisters for giving her the "experience of a lifetime."

MISS DERBY DAYS
Eboo Cole

Eboo Cole was a junior from Seabrook Island, South Carolina majoring in Parks, Recreation, and Tourism Management. She was a Rally Cat and a member of Delta Delta Delta sorority. She thanked her wonderful sorority for all it's support in helping her raise over $2000 for the American Cancer Society. Her big sister in the Tri-Delta sorority was Homecoming Queen Lyn Lawrence.

MISS MAGNOLIA
Beth Woodard

Miss Magnolia 1986, Beth Woodard, said the title was one of the most exciting and special things she had ever experienced. An Accounting major, she was a Sigma Alpha Epsilon little sister, taught aerobics, and was a member of Beta Gamma Sigma, the Accounting Club, the American Marketing Association, and Central Spirit. Miss Woodard, whose sister is a former Miss Magnolia, thanked her sorority, Alpha Delta Pi, for its support.

MISS CLEMSON
Merritt Sanders

"Being Miss Clemson has been a great way to meet new people and get involved in school and community activities," said Merritt Sanders, a senior who majored in Graphic Communications. Miss Sanders was a member of Kappa Delta, the American Marketing Association, and the Technical Association of the Graphic Arts. Miss Clemson, who said she enjoys tennis and dancing, followed her crowning by being named a top ten finalist in the 1986 Miss South Carolina pageant.

MISS TAPS
Martie Hook

Miss Taps 1986 was Martie Hook of Charleston, S.C. A senior Secondary Education/English major, she said she hoped to get her masters' degree next year and teach at a college one day. Martie, who was a Phi Delta rush girl, chairman of the Coffeehouse Committee, and on the Student Union Board, was a fourth generation Clemson student.

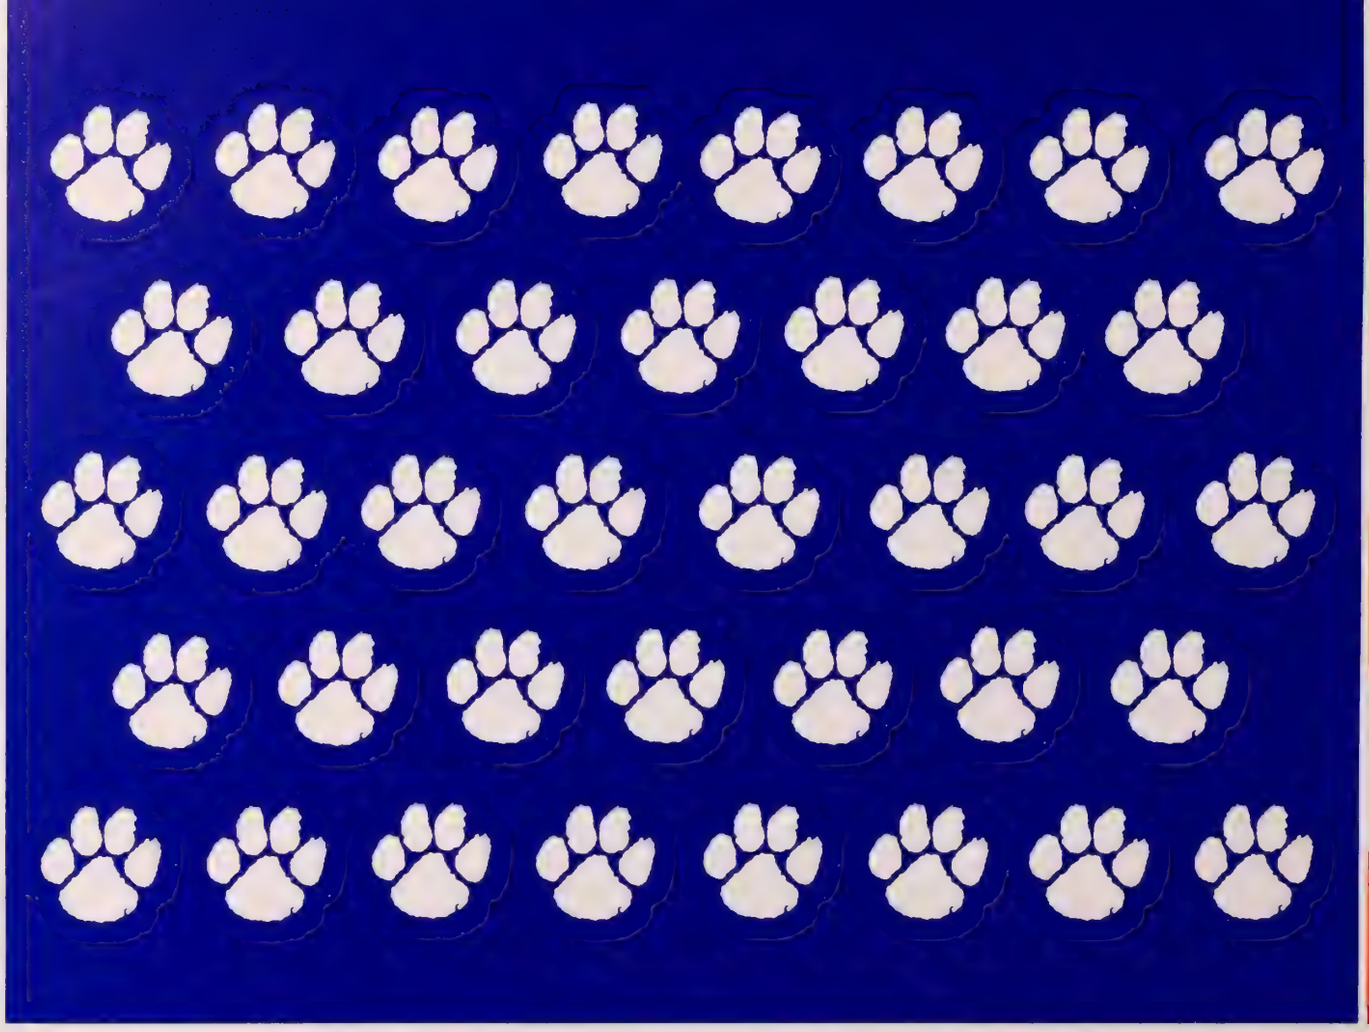
MR. TAPS
Bert Heffernan

Bertram Alexander Heffernan was an Administrative Management major with a minor in Economics. The native New Yorker enjoys drawing and playing the drums. A two-time All-ACC catcher, Bert led off for the Tigers and entered his junior season with high expectations for both himself and the team. He would like to pursue a professional career, and if that meant leaving school early, he would finish his degree at a later date. Says Coach Bill Wilhelm, "In my thirty years here, he comes as close to giving a hundred percent as any player I've had."



(right) The Tigers, in orange pants for the first time since 1984, are greeted by a solid orange crowd.

SPIRIT BLITZ '86

UNC victimized by Orange Day USA

On November 8, 1986, the Central Spirit Committee conducted Orange Day, a spirit day, in order to show special appreciation to the Tiger football team during the game against The University of North Carolina. Not only did Clemson fans wear enough orange during the game to thank the football players for a terrific season, but the UNC team seemed intimidated by the sea of orange that swarmed in Death Valley. The Tigers tarred and feathered the Tar Heels with a 38-10 victory that virtually clinched the ACC championship as long as Clemson didn't lose to Maryland the next week. That game ended in a tie, but that was good enough to bring home the crown.

The Central Spirit members also provided the orange shakers that helped the Clemson fans show the team and the nation during the nationally televised game just how much spirit Clemson had. The 80,000 shakers that were distributed at the game were donated by Amoco Oil Company and WFBC. The excited crowd took to the cheering instruments like fish to water. In addition, Central Spirit tied orange ribbons around trees and stuck them on windows in an attempt to add more orange to the Clemson campus, if that was possible.

Central Spirit also carried on the field an 80 yard long Tiger paw flag during the halftime show. It took about 115 people just to carry the flag on the field.

The football team showed their Clemson spirit by wearing orange pants, in which they had only lost once. Their last outing in the orange britches had been in the 1984 season finale against USC, which they lost. However, there was no such disappointment coming this time. This special uniform was only worn at the UNC game and certainly added to the spirit of the day.

The most interesting thing about the whole day was how much the Clemson fans participated. The tremendous support and spirit that Clemson fans showed for their team set them apart from any other university in the nation. Where else would grown men wear orange pants? Where else would students paint Tiger paws on their faces? Where else in the nation would a town of 9,000 residents pack 80,000 fans into a stadium every weekend? Where else but Clemson? It is the tradition and pride that makes Clemson great. This pride and spirit attracts Clemson to bowl games year after year and makes the college experience a whole lot of fun.

STUDENT PARKING

Many struggle with restrictions

"Do they ticket here?" For yet another year, that inevitable question was on the tips of countless Clemson students' tongues. In the ongoing battle by students to park close to their dorms, they often lost by the means of fines or, gasp, having their cars towed.

What was the deal? Why, the students collectively growled, was it necessary to park in Anderson? Even worse, why were tickets issued to cars illegally parked in lots that were obviously completely filled? Indeed, a student living in Johnstone Hall was very unlikely to make the day-long trek to his car in the pit only to find that upon his return, a parking space in the "convenient" lot was often dependent on the day and time.

On the high-rise side of campus, students had their own pit. At least they always found parking spots, but it was still a lengthy trip to their cars.

Students in Calhoun Courts and Thornhill Village enjoyed better parking luxury without the wrath of tickets,

(top) One ticket isn't always necessarily the limit.

(right) A sight that's all too familiar to Clemson students.

Johnny L. Wood

Johnny L. Wood

(left) An unpleasant surprise awaits the owner of this car.

(below) Even vehicles in the First Friday Parade aren't spared!

but limited space in the Thornhill parking area did routinely take it's toll. A filled lot meant a drive to the aforementioned high-rise pit.

Naturally, weekends were fine, right? Well, probably. The big problem with students was deciding whether to

Richard M. Baldwin II

check their student handbooks for parking regulations or park where their peers had (i.e., gamble). Pulling up beneath the underpasses in Johnstone was apparently fine, but once in a blue moon, it was deemed illegal. The same was true of the small lot in front of Calhoun Courts.

Why all the confusion? Students could often park illegally, along with the other 100 cars, and not get caught. Naturally, the assumption was that everything was okay, but the law of averages had no concern for assumptions.

Of course, fire hazards, limited space, and the loss of a commuter lot due to the Strom Thurmond Institute were cited reasons for the parking situation. After all, students had only to thumb through that trusty handbook to note what was legal parking.

"Hey, have you seen my student handbook?" Oh, well.

CAMPUS MINISTRIES

Keeping the faith

College students are often characterized as young adults searching for an eternal purpose in their lives. Clemson is no different, as was attested by the continued growth of several Christian ministries on campus. Foremost in expansion were Reformed University Fellowship, the Baptist Student Union, and the Fellowship of Christian Athletes. Students attending the groups' functions discovered what surprisingly few know, that the Christian life could, and should, be an exciting, continual experience.

David Sinclair, the RUF campus minister and a 1980 graduate of Clemson, saw his ministry grow from two students in 1984 to over 150 this year. "We want to find a balance between fun and fellowship and studying the Bible," he said. He also emphasized the group's goals of academic excellence among Christians.

The BSU campus minister, Tim Willis, felt his students gained a great deal from opportunities such as mission trips, visits to convalescence homes, and raising money for student summer missions. "We want it (BSU) to be more of an experience than an organization," he stated.

The most popular campus ministry may have been FCA. Not confined to

(top) BSU students sing their praises to the Lord.

(right) RUF campus minister David Sinclair emphasizes a point.

Vern Verna

Johnny L. Wood

athletes, a packed Mauldin Hall crowd was usually on hand at the Thursday night meetings. As with most of the Christian fellowships, FCA held Bible studies and attended a conference to learn more about the Christian faith in the Lord Jesus Christ.

The interwoven message of these three groups, as well as others such as Campus Crusade for Christ and the Navigators, was the revelation that Jesus died for the sins of the world and salvation was dependent on accepting His gift. FCA President Gary Massey summed up the belief of most campus ministries by labeling "the importance of receiving Jesus Christ as Savior and Lord and serving Him in the Church" as his group's purpose.

Jim Hailey

TRENDS

Students help usher in the fads

Trends. They were, as they are every year, present in abundance among students at Clemson. Musically, there were the pop artists of note, such as Janet Jackson and Whitney Houston. Cyndi Lauper also returned to the charts with "True Colors."

A different preference, however, came through the air waves of Atlanta's Fox 97, which played older music that many students took a fancy to. Yet another popular form of music was the funk and rap music of groups like Run DMC, which combined with Aerosmith in a remake of the latter's 70's

Beth Kicklighter

(right) Reeboks are the rage in America, even at Clemson.

(left) The biggest movie hit of the summer was "Top Gun" with Tom Cruise.

(below) Sunglasses and dresses go together in the 80's.

Beth Kicklighter

hit, "Walk This Way."

"Top Gun" and "Karate Kid II" were the principal movies of the summer, along with Rodney Dangerfield's "Back to School." As the school year kicked in, "Stand By Me" and, later, Eddie Murphy's hilarious "The Golden Child," captivated many students. And the crew of the starship Enterprise took yet another journey in the "Voyage Home."

Tuesday and Thursday nights were set aside by many students for television purposes. Tuesday meant a date with Dave and Maddie on "Moonlighting," while Thursday nights were reserved for "The Cosby Show" and "Family Ties," with "Cheers," "Night Court," and "Hill Street Blues" thrown in for good measure.

It wasn't just entertainment that enamored Clemson students. Girls led the surge with high-top Reebok sneakers, Swatch clothes, and gold and silver shoes. Other fashion crazes were fair game for anyone, such as ripped blue jeans, Coca-cola clothes, and the interesting habit of wearing sunglasses indoors.

With the rise in the drinking age, spots like "Lester's" and "The Gameroom" became bigger student draws. Hairstyles moved, in some cases, to the shaved sides. If students tired of the traditional pizza, "Brothers" offered hoagies, pizza burgers, and other excellent delivered foods.

These exciting trends notwithstanding, it was probably safe to say that they didn't compare to what we'll see next year!

CU CITY

Students experience the "big town"

As my alarm clock sounded, I viciously turned it off and jumped out of bed. One of my roommates was already awake and walking out the door. "Where are you going?" I asked.

"Downtown to check my mail," he said. Now, I knew that our mailboxes were under Harcombe Dining Hall on campus, not downtown.

Luckily, he explained to me that the Clemson University post office WAS downtown, just as our Calhoun Courts apartment was in the suburbs. Mmm . . . never thought of it that way.

It made sense to me. Downtown Clemson University was the most populated area, and there were the 2,200 folks living in the heart of it in the slums, uh, Johnstone Hall. Once you got in town, you could do a lot more than just check your mail.

Books, Clemson attire, and engineering utensils were available at the Clemson Bookstore, which was also below the old standby eating place in downtown CU, Harcombe. Students complained about Harcombe, but they also kept coming back.

If students ever needed a break from classes, the University Union game area, located below the city's Student Government building, provided enjoyment. Also, anyone refusing to eat in Harcombe needed to look no further than the Clemson Canteen, which also combined the CU clothing and necessities of the bookstore with the video games of the game area.

There was the University Union information desk to fill anyone in on events like concerts.The local newspaper and radio station also operated downtown. On the edge of town was the enormous 80,000+ seat football stadium.

Still, there was much to the outskirts of Clemson University's city. Take, for instance, the business district. That was where students from all over the CU area, about 7,000 people including the surroundings of downtown, attended classes each day.

About 400 folks came from the Thornhill Village section, which was out in the country. The suburb-dwelling students in Calhoun Courts, some 700 strong, also flooded the business district.

The uptown district, with the high rises invading the sky, had about 1,400

(left) Every student knows the pain of the infamous "air mail."

people in the penthouses. Those living uptown had their own washers and dryers, convenience store, and cafeteria while still being somewhat near the inner city and very near the spacious library. The pathway to downtown carried us all by the library, although some often chose the path by the pretty Amphitheatre, with stopping to study or rest an option.

CU didn't have a mayor, but it had a president. He lived at the edge of uptown, between the suburbs and the high rises.

Alas, in addition to the bank machines in both downtown and uptown, a bank was in the business district. Hey, it takes a lot of money to survive in a big city like CU!

DAVID LEE ROTH

Van Halen refugee rocks Clemson

By the end of last summer, all followers of David Lee Roth and the new Van Halen knew the two weren't the least bit fond of each other. In the aftermath of the controversial exit of Roth from Van Halen over a year ago, video Dave strutted his stuff before a big Littlejohn Coliseum crowd in October on his "Eat 'Em and Smile" world tour. Love him or hate him, Diamond Dave and his new band were something to see and hear.

The band coupled it's own music, such as "Yankee Rose," "Tobacco Road," and "Crazy from the Heat," with Van Halen standbys like "Unchained," "Panama," and "Pretty Woman." The energetic Roth was his usual self, acrobatically parading around the stage and even moving to a different stage for a short time.

As if the tunes and antics of Roth weren't enough, the awesome show included a guitar duel between his lead and bass players. Despite all the talk of Dave's selfishness and indifference to his band while with Van Halen, he seemed willing to give his new band it's share of the spotlight.

Surprisingly, Roth carried an acoustic guitar on stage with him after one break and played it in "Ice Cream Man," commenting afterwards that he could never do that with "the last band."

The crowd was standing and rowdy throughout, and sexy Dave played it perfectly, commenting several times that Clemson folks were obviously serious rock and rollers and the women were beautiful.

There was no mistaking the power and talent of Roth and his new buddies. They may even be on the edge of rock greatness!

"FIRST FRIDAY" CONCERTS

Bands close out celebration

Though students enjoyed many styles of music, the First Friday concert in the Amphitheatre provided something that everyone could enjoy with three talented bands supplying music to please everyone.

Widespread Panic opened the evening with a trip back to the music of the sixties and early seventies. Out of Athens, Georgia, the five-member band performed with intensity and feeling. The issues and emotions of the era were conveyed to the audience in the first leg of "A Walk Through Rock."

After the walk through rock, Next Move excited the audience with a selection of more current cover tunes by such popular groups as the Producers, the Outfield, and the Hooters. They also performed a few of their own promising originals.

The Spongetones wrapped up the evening with a broad and well-done presentation of many of the songs which became classics through the years of rock. Tunes by the Beatles, the Rolling Stones, and the Kinks were just a few of the familiar songs enjoyed by the audience.

Tight security was a grim reminder of the tragic incident in the Amphitheatre during the *Rocky Horror Picture Show,* and some students were annoyed by the strict limitations of alcoholic beverages and coolers. However, the concert ran smoothly and the weather was perfect for being outdoors. The concert provided a fun evening for everyone to get together and have a great time.

TRUTH

Gospel group impresses Tillman crowd

The early and mid-1980's were marked by the rapid growth of contemporary Christian music. Few of these groups achieved more or received more attention than Truth, which came to the Tillman Hall Auditorium in November. Most people identified Truth as having a host of singers, but it also had its own band, complete with a keyboardist, a drummer, guitarists, and others.

The concert, sponsored by the Baptist Student Union, attracted a following that filled about three-fourths of the auditorium. Popular Truth tunes such as "Jesus Never Fails," "Majesty," and "Gentle Hands" delighted the crowd, much of which consisted of students involved in on-campus Christian organizations.

Although the night's main emphasis was musical, the group didn't hesitate to share its faith in the Lord Jesus Christ. A testimony and invitation to become a Christian were included.

Truth also didn't miss its chance to plug sales of its music, holding up copies of its albums and encouraging fans to buy them.

For those Christian students looking for a music alternative, the Truth concert was perfect. These fans could begin anticipating the next Truth visit to Tigertown, which would definitely be soon.

NETWORK

Giving substance to rock

A positive outlook on life through music characterized the September appearance of the rock band Network in Tillman Hall Auditorium. Sponsored by Great Commission Students, the six-member band performed, conducted "air band" and "stump the band" contests, and shared a little about their Christian faith.

The Washington, D.C. group's music ranged from Rod Stewart's "People Get Ready" to Amy Grant's "Wise Up." The two contests were a fun way to encourage audience participation, which the band stressed at all the colleges and universities it entertained across the nation. A $100 cash prize was awarded for the "air band" victor, while popular songs such as Van Halen's "Jump" were requested and jokingly botched by the "stumped" band.

On a more serious note, drummer Rob Lamp told the crowd of his bout with cancer. He said his faith in God was helping him through a very trying period.

The group attempted to give those in attendance a dose of rock and roll displaying positive ideas and lyrics. The performers were very supportive of many songs by musicians like Bruce Springsteen and Phil Collins. As it was with all their shows, the purpose of Network's Tillman appearance was to portray the positive outlook with a show that was more of an entertaining evening than just a concert.

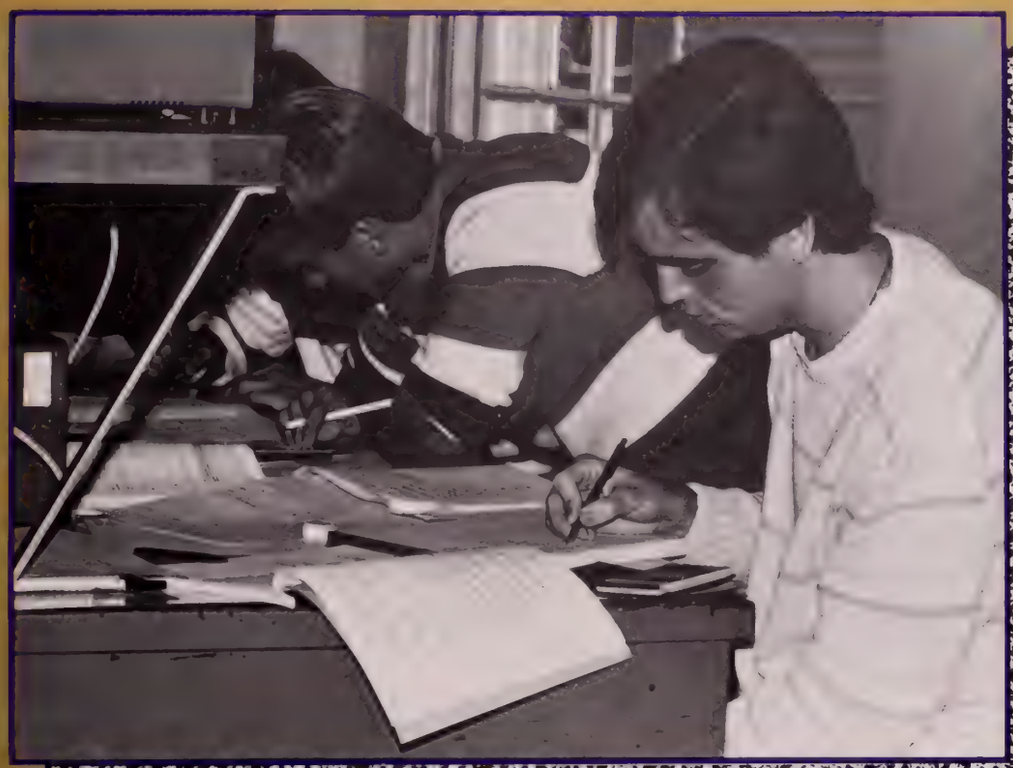
Suk B. Fields



It was often easy, in a univer-
ity like Clemson, to forget that
he real reason we were here
vas for an education. In be-
ween the parties and the foot-
all games we had to attend
hings called classes. The 1986-
7 school year marked the be-
inning of many things. Per-
haps, most important was the
inauguration of President Max
Lennon. But, there was also the
new chemistry building, new
majors in the School of Liberal
Arts, and more computer re-
motes around campus. In 1986-
87, we certainly were stepping
ahead, academically.

Vern Verna

A new beginning

On September 6, Clemson University formally inaugurated Dr. Max Lennon as it's eleventh president. Dr. Lennon was elected president in October of 1985 and worked hand in hand with president emeritus Walter Cox in the Spring of 1986. During this short time, President Lennon acomplished much, including the school's "Second Century Plan". This project, drawn up with help from faculty and state business leaders, emphasized research in agriculture, engineering, basic science, marketing, management, quality of life and textiles; all these areas and several more were just a portion of a $600 million proposal to spur economic growth in the state. His inauguration was a great success, with dignitaries from over one hundred and fifty universities in attendance, as well as many of South Carolina's most important members of government and industry.

The event took place in Littlejohn Coliseum where a large audience was enthralled by excellent speakers who told of President Lennon's accomplishments and Clemson's rich history.

The governor of South Carolina, the Honorable Richard W. Riley, spoke of a "quest for academic excellence which has never been more important than today". He called Dr. Lennon "the leader for the future of all South Carolina".

The Honorable J. Strom Thurmond, president pro tempore, and United States Senator from South Carolina, as well as a graduate of Clemson, spoke on President Lennon's behalf, calling on him to carry on Clemson's great tradition of excellence. He spoke of a "renewed commitment in the notion with which this nation was formed (dedication to greatness)."

Student Body President Fred Richey offered Dr. Lennon the advice to follow in his predecessor's footsteps by listening to the voice of the students. James E. Bostic, Jr., a member of Clemson's board of trustees called President Lennon "an innovative educator, a great scholar, and an aggressive administrator possessed with great integrity and strong character".

After all of the speakers were finished, President Lennon was presented with a silver chain which has been passed from president to president, symbolizing the pursuit of truth and responsibility to students and faculty alike. He was also presented with Thomas Green Clemson's last will and testament, which is the basis of the university's constitution.

Finally, President Lennon spoke. He told of how proud Thomas G. Clemson would be if he could see the campus today. He went on to tell of the accomplishments each individual college has made in the past few years. He commented that "Old Green Tom would simply burst with pride if he could see us now".

President Lennon, looking forward to a strong future, said that "we believe in this

place (Clemson University) and we'll give it everything we have. We believe that our next decade will prove to be one of the most exciting." We can only hope that President Lennon's term in office will go as smooth as his inauguration and that he can take this university into it's third century with the same degree of excellence which brought us to where we are today.

All types of computers for all types of students

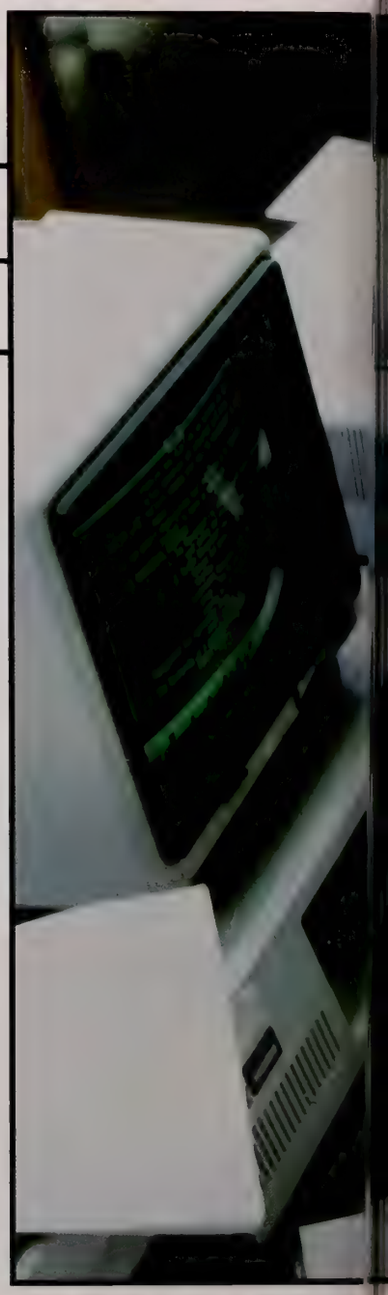
The Division of Computing and Information Technology expanded every year since it was established. It worked to become one of the finest divisions on campus. One of the major advancements made this year was in increasing the number of remote facilities around campus.

The IBM 370/3081K mainframe for the university was stored in the Computer Center in Poole Agricultural Center. Dr. Chris Duckenfield headed the Computer Center which offered services such as Consulting and Technical Services and Data Processing Services.

Students could access the mainframe in Lee Hall, first floor of Sirrine Hall, Martin M101, Bracket Hall, Library, Riggs Hall, and P & A Building. The mainframe gave access to; LUIS, the library user information system, the Job Placement Program, which gave information about specific companies and their backgrounds, and TSO, which required an access code to log on and held the school's records.

To relieve some of the work load from the mainframe, the Computer Center resorted to microcomputers. Beginning engineering and computer science classes relied on microcomputers instead of the mainframe.

Microcomputers were self contained and did not need to run through the mainframe. Kinard Hall and Sir-



(right)

rine Hall housed IBM microcomputers while Daniel Hall and the Library contained Digital microcomputers. Tandy microlab in Jordan Hall and Apple MacIntosh microlab opened in September.

All BASIC, FORTRAN, PASCAL and most other languages could be run on the microcomputers. Business majors ran spreadsheets such as Lotus 1-2-3, Multiplan, and Supercalc 3 and date management programs such as Dbase III.

A wordprocessing software, Freestyle, which was

available to any student, was very popular with liberal arts students working on term papers. Many students used the microcomputers to do their resumes and write cover letters for employment.

VAX system, located in the basement of Riggs Hall, added a Digital Corporation VAX 8650 minicomputer in September. Minicomputers were slower than the mainframe but faster than microcomputers. Upper-level computer science students and University Forestry and Agricultural Network mostly used the VAX equipment.

Consulting and Technical Services offered short courses in three levels to give all the students a step ahead in the world of computers.

The Computer Center planned on purchasing more computers and computer software in the near future, as well as enlarging the remote system. This helped Clemson to keep up with the times in the computer game.

Nicholas Bogdin

(left) Daniel Remote has both microcomputers and terminals for the mainframe.

Master teacher chosen

Professors at Clemson University worked with little or no recognition. One of the few ways that they were recognized was by being elected Alumni Master Teacher. This award was presented at commencements and in 1986 was presented to Dr. Robert Rouse of the School of Accountancy. Students submitted the nominations, but the Student Alumni Council made the final selection. Also included in this once in a lifetime award was a fifteen hundred dollar stipend from the Clemson Alumni Association.

Dr. Rouse said that being selected by the students was the "nicest thing." He felt that he had worked with "some of the best students around" and would "put them up against anybody". Apparently, his students felt the same way about him.

"Rouse", as he was affectionately called by his students, walked that thin line between being friendly and being tough.

"In 1962, teachers were tough, and we lived in fear of them. The teacher was always right, and nobody questioned that. I've gone the other way. I like my students, and I encourage them to come by my office and talk to me. If a student takes an interest in himself and wants to learn and improve, then I take an interest in him. I genuinely like the students."

That is probably why there usually was at least one student in his office and another waiting to see him. He also was not the least bit surprised to get calls from students or ex-students, at any hour of the day or night.

Dr. Rouse had quite a legacy in teaching to live up to. His father was president of Anderson College, and his mother, wife, brother and sister were all teachers. However, when first presented with an opportunity to teach, Rouse wanted to refuse. He eventually grew to love it, however, especially accounting. "It's black and white, it represents a defi-

A popular professor with his students, Dr. Robert Rouse talks with some of them in his home.

Dr. Rouse shows his friendly, informal side as he invited students to his home for a Christmas party.

nite amount of knowledge. Somehow I can make it live for those students."

Dr. Rouse remained extremely active around campus as well, being the advisor for Blue Key and a member of Tiger Brotherhood honor fraternity. He was also a placement liason for accounting graduates, and active in the Holy Trinity Episcopal Church.

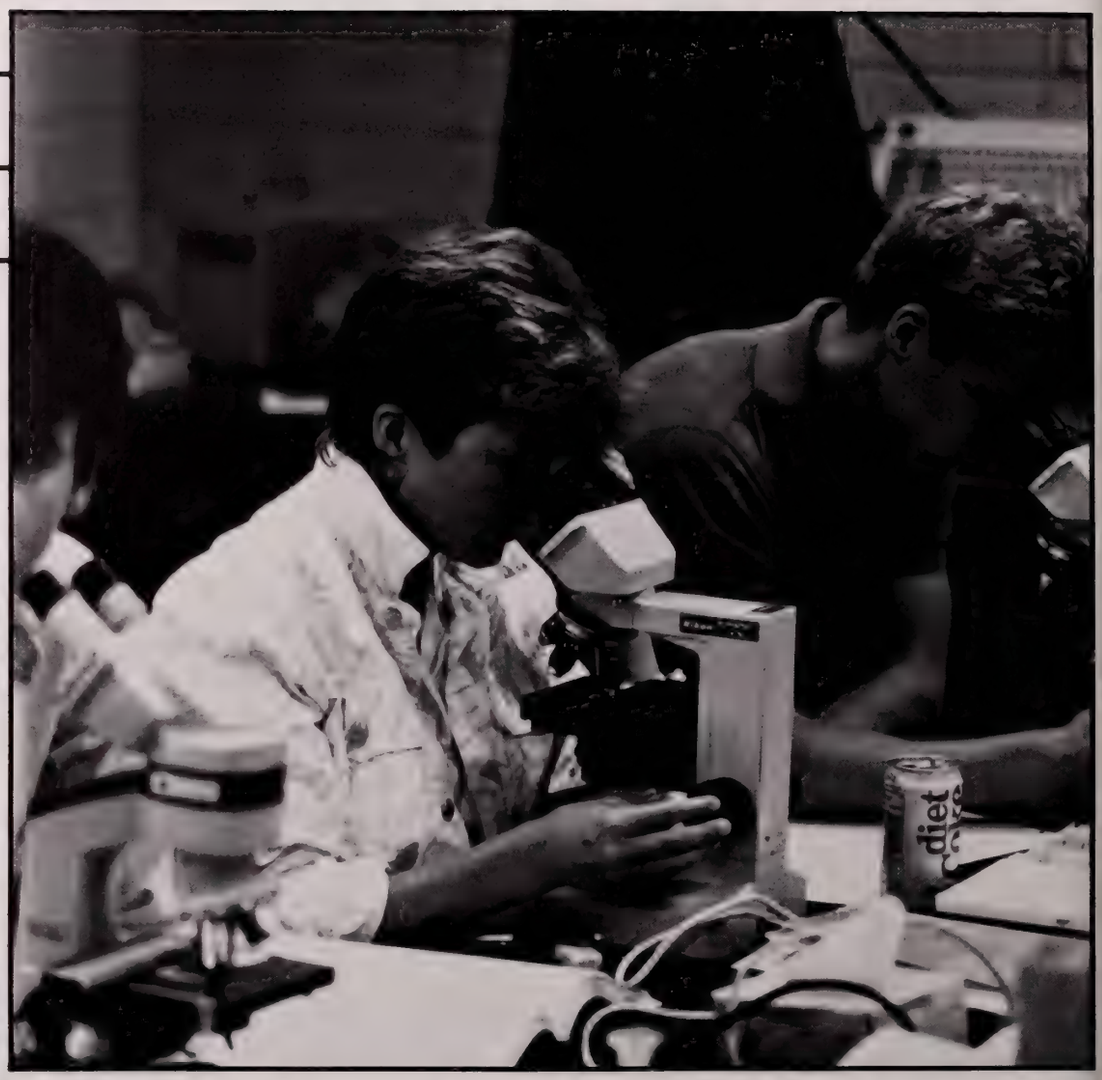
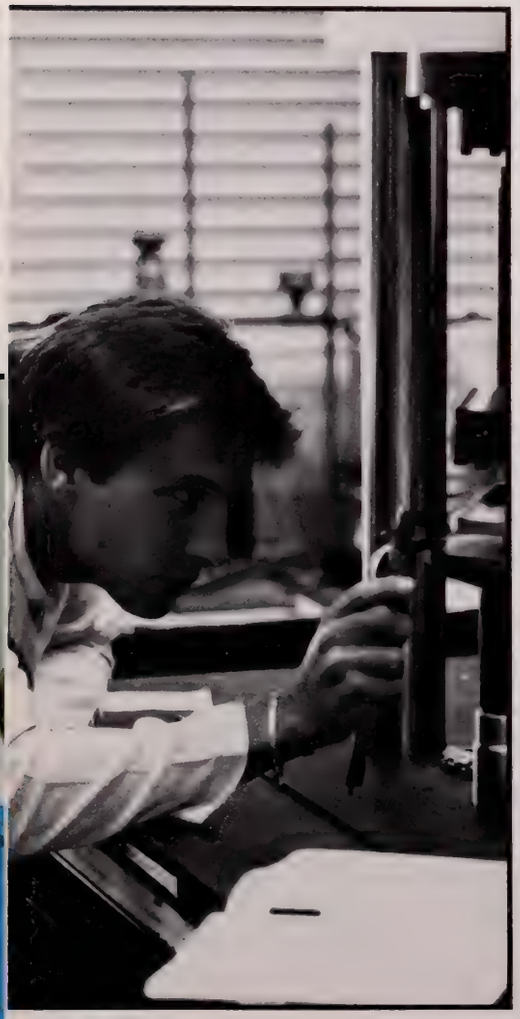
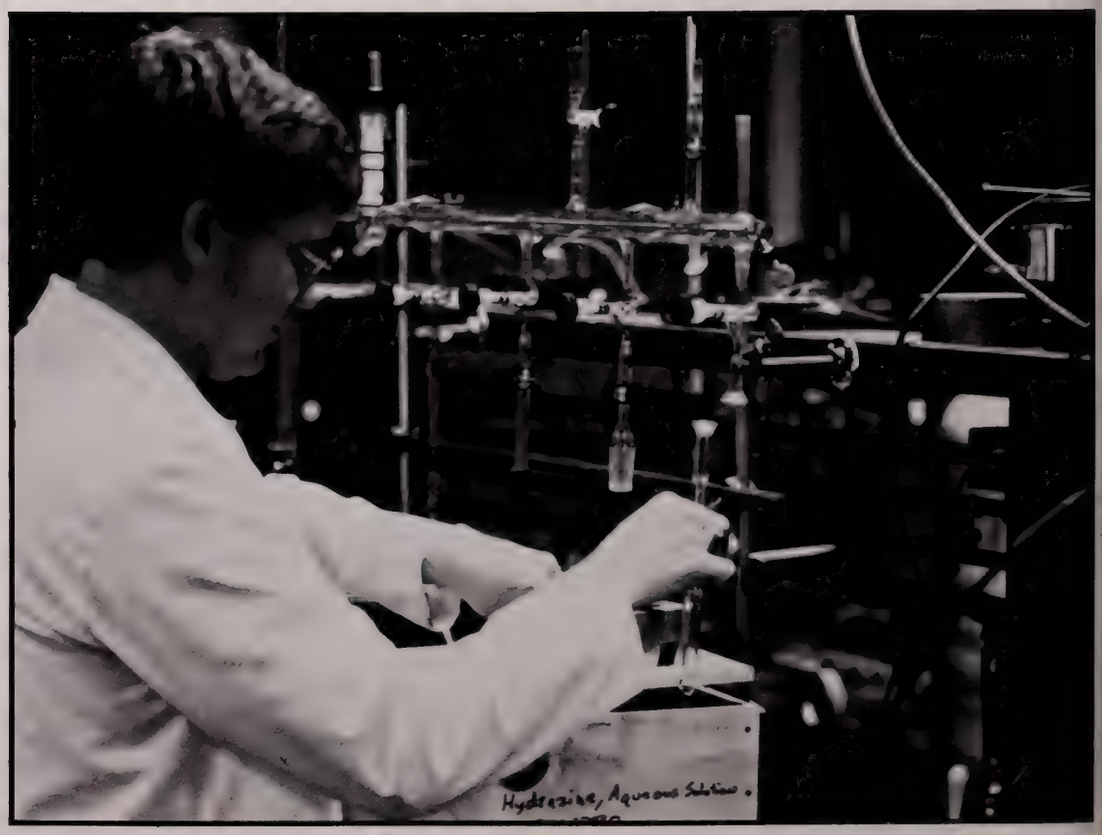
Grad students become experts with the finest equipment available.

Working hard for high rewards.





Jim Boyer works with lasers to complete his alonical lab.



Providing great opportunities

The academic excellence associated with the undergraduate program at Clemson is not unique, for the same high degree of prominence was offered to the graduate program. The graduate school's reputation had always been one of hard work at high reward.

There were, approximately, 2250 students enrolled in this program in the 1986/87 school year. These students were working in almost every major offered to the undergraduates. They worked to earn one of sixty seven masters degrees and twenty nine doctoral degrees in any of over forty one academic areas.

One of the most popular schools of study had always been the sciences. The students, while pursuing a great higher learning experience, served the university with an invaluable service in acting as student teachers. The schools used these students to teach a number of classes and found to have been helped immeasurably by these young instructors.

The students in the sciences were given the great opportunity to experiment in their fields of study in incredible facilities. Grad students worked in laboratories that they would ordinarily have, if not for the university's graduate program. The experience that they had gained lead them to excel in their majors once they earned their degrees.

Especially important to the students has been the specifically tailored courses of study being offered. Each individual grad student was allowed to help shape his own curriculum which has lead to a more unique learning experience.

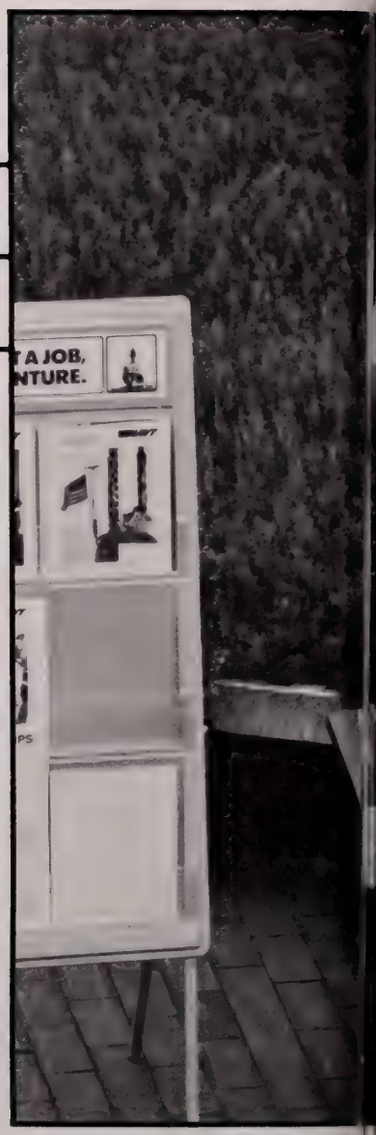
Co-op your way through school



The cooperative education program has had a long and outstanding past at Clemson. This program has enabled numerous students to get a valuable experience in the business world. The major job of the co-op department on campus has been to find students jobs, in their majors, to work at on a semi-regular basis.

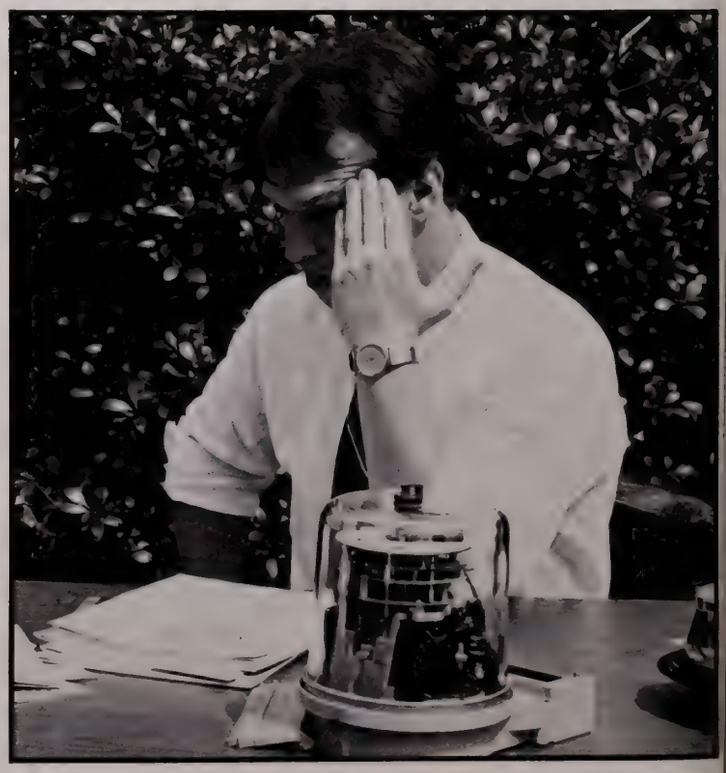
Most students started the co-op program after their sophomore year and worked, every other semester, until they graduated. The majority of the jobs had been in engineering, but just about every major was represented. The jobs that the students have been asked to do have ranged from working for the CIA to farming.

Companies show that work can be fun, too.

Taking time out to consider the options.

The school organized a Co-op Career Day on September 10 which was very well represented. We had representatives from over fourty companies and organizations here who spent the day in the Union Plaza talking with hundreds of students about their future in and out of school. They recruited quite a few students and set up interviews for quite a few more.

The co-op plan of study was helpful to its participants mainly because it incorporated what the students learned in class with



All photos by Suk B. Fields

what they were asked to do on the job. Most of the students spoken with had only favorable things to say about their experiences.

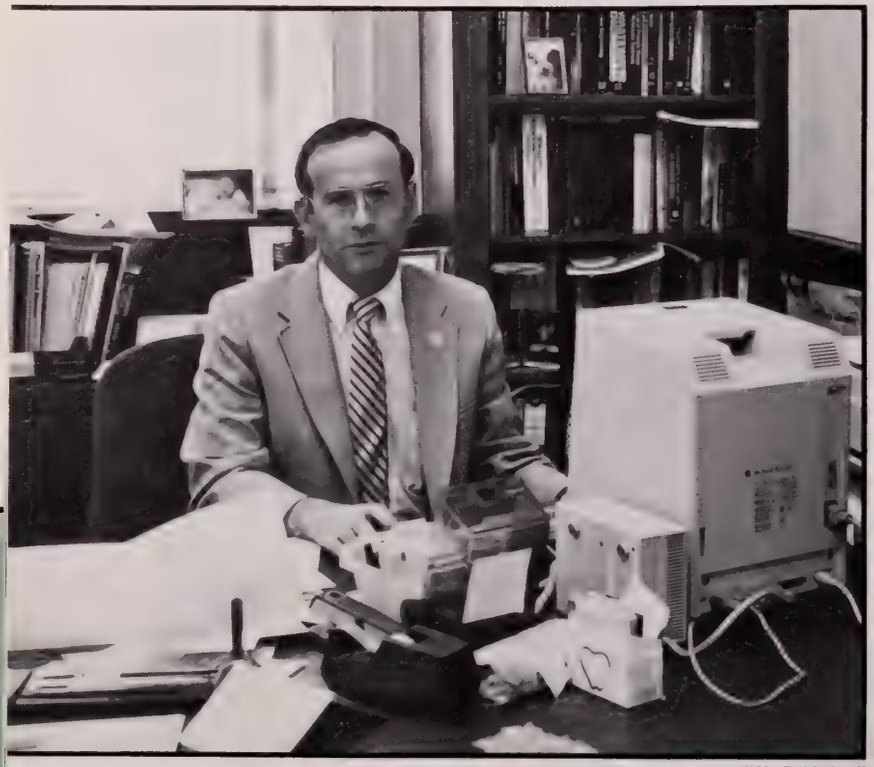
Susan Hane, a computer science major, had this to say about her experiences . . . "Co-oping played a major role in my search for permanent employment. Co-oping gave me the opportunity to work in different environments (research and development/business data processing) and to make important decisions about the kind of environment in which to begin my career".

Joel Lehrer

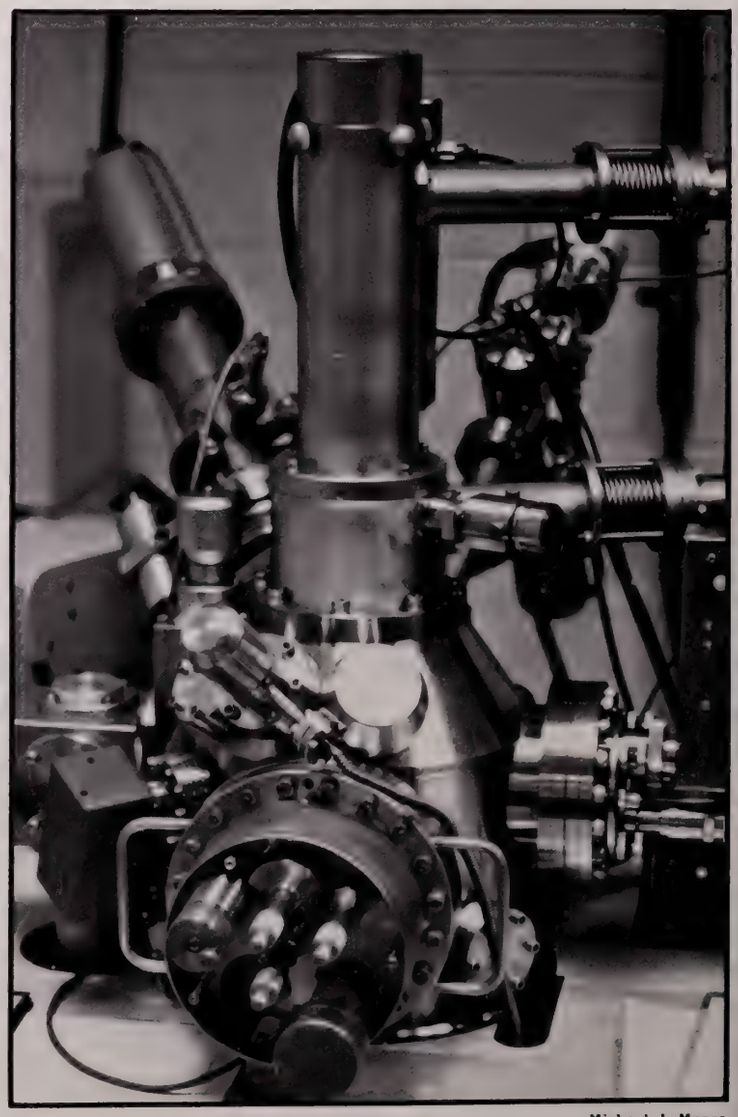
The Navy offers great opportunities to it's co-ops.

Students see great futures in co-oping for the larger corporations.

Engineering Department in full swing



Richard M. Baldwin II



Michael J. Morga

The past year was marked by many accomplishments for both students and professors in the College of Engineering. Within 1986 alone, four professors from the college became Fellows in their respective societies. This title indicates that the professor is among the top two to eight percent within their field. The professors honored were Dr. B.K. Webb, Agricultural Engineering; Dr. Tah Teh Yang, Mechanical Engineering; Dr. Christian Przirembel, also Mechanical; and Dr. Charles Jennett Civil Engineering.

As for students, Clemson's engineering graduates continued to have the highest EIT test scores in the state. The EIT, Engineer in Training, is the preliminary exam given before entering the work field. The exam was given by the same agency that administers the Practicing Engineer's (PE) exam.

The 1985-86 academic year also saw the initiation of the College's Freshman engineering program. The program, now in full swing, allowed the student to get a uniform and well-rounded education. The curriculum included a class which exposes students to various fields of engineering. Should the student decide to change Colleges within the University, they did not lose any credits. After their freshman year, a student with a 2.0 GPR did have a good background in computers, the sciences (Chemistry, Physics, Mathematics) and Liberal Arts.

In the area of funding, this year the University received the Campbell Chair, the largest gift of its kind. The chair was managed by both the college of Engineering and the College of Liberal Arts. Its emphasis was in bettering the communication skills of students within technical fields. The College of Engineering hoped to integrate this course of study into the curriculum without

Dean Charles Jennett is often swamped with paper-work concerning the College of Engineering.

increasing the required number of hours.

Looking towards the future, Dr. Charles Jennett, Dean of the College of Engineering, hoped to see these advancements continue. The College wanted to see an increase in the number of students with one-third of the total participating at the graduate level. With the achievements and recognition of the past year, the college also expected to increase their visibility both nationally and internationally.

Cindy Bagwell

Using a VLSI (Very Large Scale Integration), engineering students can put thousands of cheat notes on one microchip!

French maids just don't look like they used to!

Delayed reactions

What's one building in a hundred? Well, if the building is the new chemistry building, chemistry students agreed that this particular one was not just any building. As the construction of the new chemistry building neared completion, faculty and students anticipated the delayed opening of the building.

The facility, which opened for the spring semester, was the answer to the outdated Brackett Hall. Sporting such amenities as modern, air-conditioned labs, a 250 seat auditorium, and a library, the research and teaching facility was the long-term dream of the chemistry department. The special labs included glass blowing, photography, wood shop, x-ray, and an explosive lab called the pressure cell. The construction of the cell consisted of one foot thick concrete walls having an eighth inch steel plate on the interior and exterior, two inches of oak on the interior, and an opening for release of pressure during experiments. With all the features the new facility had to offer, it was not surprising that everyone was disappointed when the opening was delayed from the fall semester until the spring semester.

Containing 105,000 square feet and an endless network of pipe and ductwork, construction of the project originally expected to take 24 months. The contract time was shortened to 20 months at the agreement of all contractors; however, the overall construction time became lengthened due to the complex nature of the project, changes in the work, and other scheduling complications. The fabrication of the auditorium seats took an unusual amount of time, while fittings in the nitrogen and propane gas lines had to be changed because of the incorrect type of silver solder which had originally been utilized. Deliveries of the custom made laboratory units also contributed to the late completion date. Despite the difficulties the contractors, architect, and the university had to face, the project costing close to ten million dollars was executed. Providing both faculty and students a more comfortable environment, the new chemistry building and adjacent auditorium was necessary to accommodate a growing department.

Meg Pridemore

While the loading dock remains incomplete, the entrance is used as access for deliveries.

Implying the joining of theory and practice, the auditorium is placed adjacent to the laboratory building.

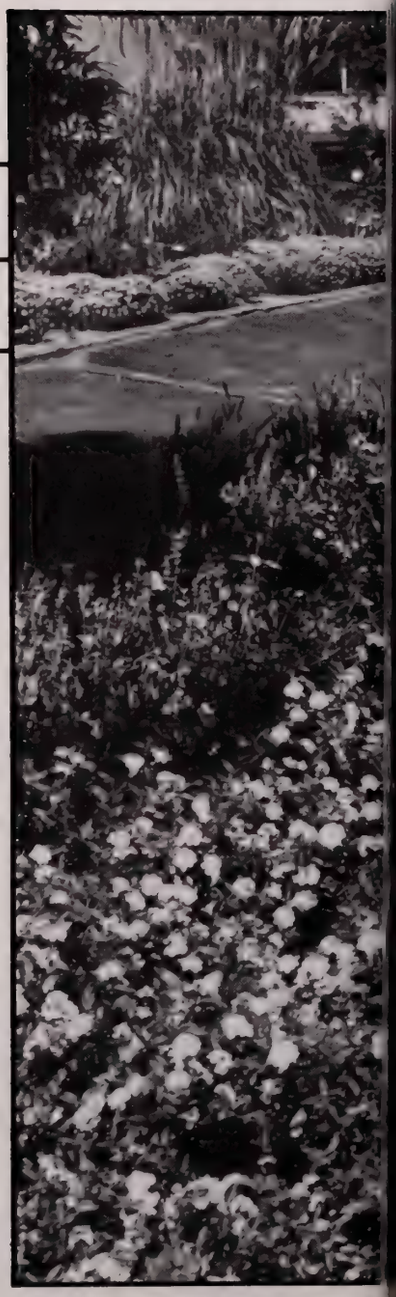
Horticulture department cultivates the future

One of the most enterprising departments on campus was the Horticulture Department. Of the 405 undergraduates enrolled in Agriculture, one-fourth were horticulture students. This year was an exciting time for both the students and the faculty as their department faced some new challengers.

By the fall of 1987, the department hoped to offer a new option in the horticulture major. Previously, three options: ornamental, turfgrass, and fruits & vegetables were offered. If all went according to plans, a fourth option — the Bachelor of Landscape Architecture — would have been available; hopefully this would have attracted new students to this growing field.

Another concern was campus beautification. The Horticulture Department was actively involved in the planning, leadership and maintenance of the campus. With the enthusiasm and support of Dr. and Mrs. Lennon, the Horticulture Dept. hoped to see flowering plants and shrubbery added to Clemson's already impressive landscape.

The faculty staff had three basic parts: teaching, research, and extension. Twelve of the thirty faculty members were specialists that worked in every county of the state for the purpose of educating and informing South Carolina Residents.



(right) The Horticultural gardens offer a wide variety of Flora and Fauna to area residents.

(left) A series of paths winding throughout the gardens guides visitors through an array of plant life.

(bottom) The Horticultural gardens, located on Perimeter Road, also offers wild-life and an old-time caboose.

Their jobs ranged from helping the Highway Department develop welcome centers and creating special designs for individual questions posed by farmers and greenthumbs.

The biggest challenge the Horticulture Department faced was one they set themselves — a goal to raise a $1 million endowment by 1989 — Clemson's Centenial. This endowment would have been spent towards the Horticultural Garden along Perimeter Road; which many people used for picnics, weddings, and recreation. The Friends of the Gardens, volunteers who were mainly senior citizens, were instrumental in maintenance. The department would have liked the Horticultural Gardens to become the South Carolina Botanical Gardens — an educational and research resource for the entire state. The first step of this exciting project would have been the $1 million endowment needed.

The challenges that the Horitculture Department faced may have seemed formidable. But, with the spirit and determination that the department had, nothing would keep them from accomplishing their goals.

Kristin M. Coakley

The beautiful blooms are a direct result of the hard work and the great amount of time put in by the staff.

New philosophy/religion department born

Religion and philosophy were once considered a part of the History Department, but in the fall of 1986 they branched out to form a new interim department. This department had its own committees and would have representation on admissions, honors and curriculum committees.

There were many reasons why this department was considered "interim". They still kept the same department head that they had while with the History Department. Their payroll, also, still came out of the History Department. Because, the budget could not be cleared until January, the new department was forced to stay under history's wing.

The department heads had planned this expansion for a long time. They wanted to see it reach the high standards held by other land grant institutions, and develop their full potential. They have seen an increase of 40% to 60% every year since 1983 and foresaw at least equal growth in the future. They had increased their staff by 50% and were planning to do the same again, by 1988. Along with the new department, Clemson hoped to see the addition of two new majors in either the fall of 1987 or 1988. They were to have been: a Bachelor of Arts in Religion, and a Bachelor of Arts in Philosophy. The drafted proposals for these new majors had been sent to the Commission of Higher Education, in Columbia. After it passed the commissions judgement it would have been submitted to the president of trustees, of the university, for their approval.

A major in philosophy would have included; several history courses, and introduction to philosophy courses building towards higher level philosophy courses and seminars. The department would have liked to have seen students, who wished to continue their education in law school, viewing philosophy as a viable alternative to prelaw. Philosophy majors consistently out perform students from other majors in the LSAT and the GMAT exams.

A major in religion did not specialize in one specific religion, but gave its students an overview of religion in general and its interaction with society and culture in specific. The students were required to take: introduction to religion classes, philosophy of religion classes, sociology of religion classes, and a free choice of 300 and 400 level classes, which included at least one seminar.

With these changes, the study of liberal arts had come to an age of critical mass, in 1986. John Wunder, head of the History Dept. said, "This is an important moment in the history of Clemson University".

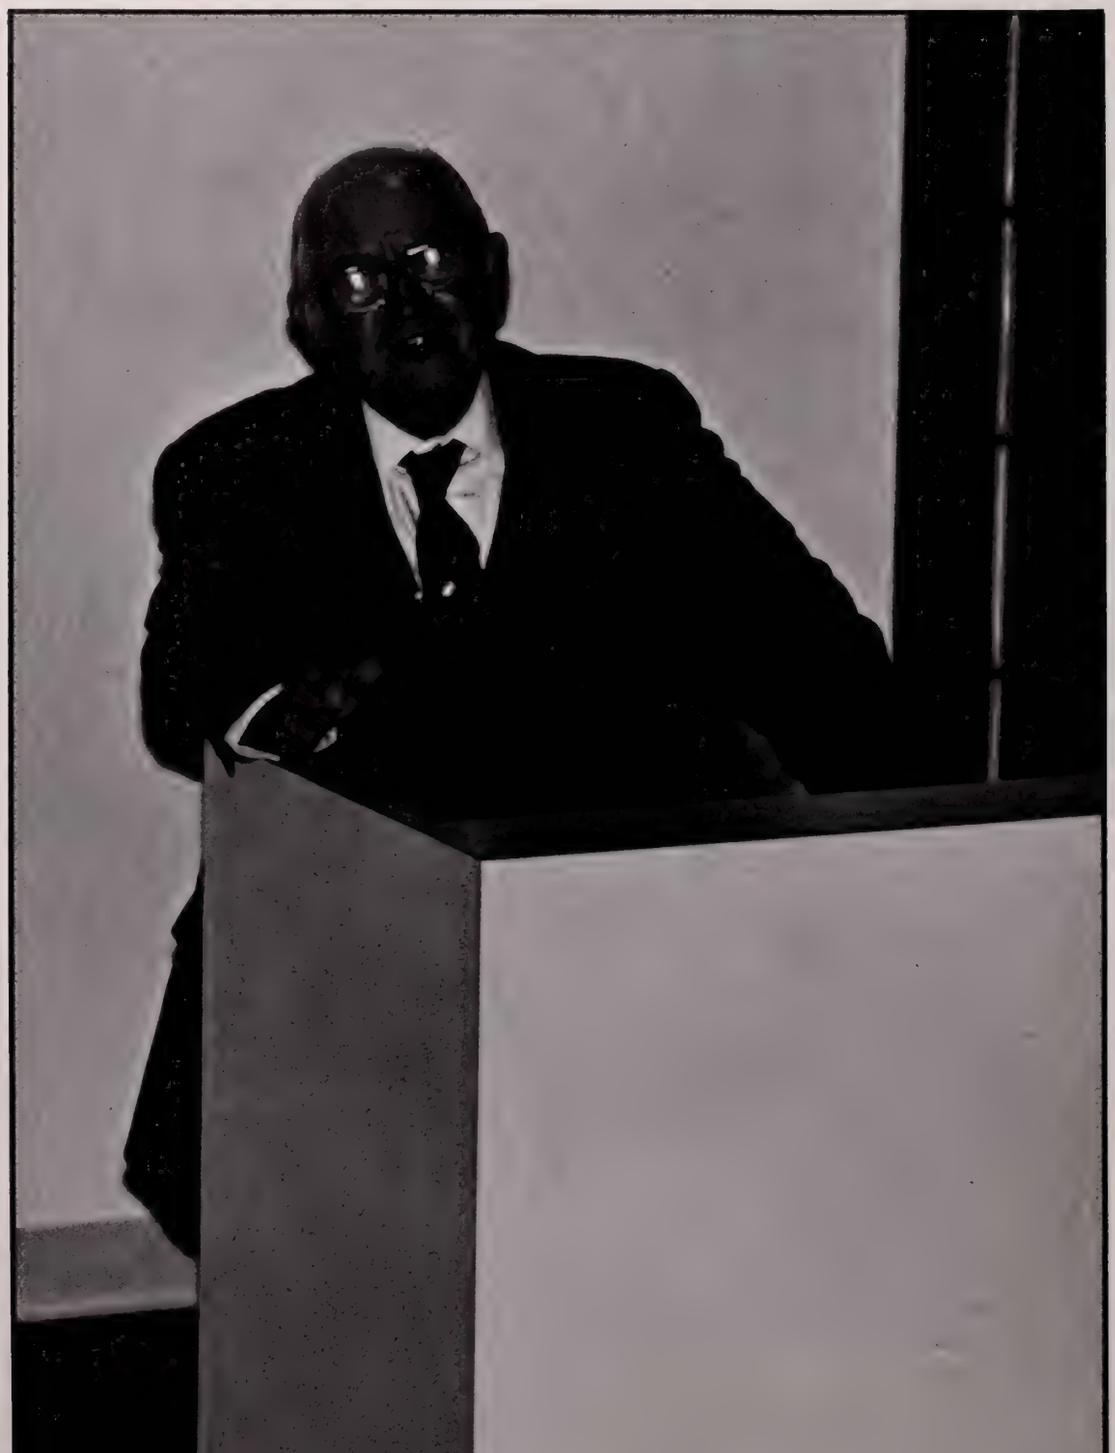
Honors program celebrates twenty-fifth anniversary



Eric Freshwater

Looking back on its first twenty-five years, Calhoun College had a record marked by achievement and growth. Since it opened in 1962, the College had included Clemson's academically exceptional students. Those meeting the requirements had access to special academic and social benefits.

To qualify for an invitation, incoming freshmen had to score at least 1200 on the SAT and be ranked in the top 10% of their graduating high school class. Continuing or transfer students were allowed to enter when they earned a grade point ratio of 3.4 or higher. The program was unique in that most other honors programs invited students who earned a 3.0 or 3.2 GPR.

Calhoun scholars had to maintain a 3.4 GPR to remain in good academic standing within the program. There were two symbols of recognition awarded to exceptional Calhoun scholars. Some earned the honor of graduating with Senior Departmental Honors. Another award for select students was the Honors Medallion.

There were advantages for putting forth the extra effort, which included a block 555 registration card that assured students of scheduling priority. Honors students had the opportunity to take

As the director of the honors program, Dr. Stevenson hopes to promote a higher level of education at Clemson University.

special honors classes. These classes were small, usually having about twenty students and were discussion oriented. Many honors students enjoyed the convenience of honors housing on the fifth floor of Clemson House.

Calhoun College sponsored three lecture series. The speakers included the former South Carolina Governor John C. West, well-known artist Paul Maxwell, and Princeton professor David P. Billington. In April 1986, the university also had the honor of hosting the Southern Regional Honors Council.

Other activities included a softball team, Honors Council Meetings, Honors Students' Picnic, and many late-night study sessions.

Special projects were planned to commemorate the 25th anniversary of the Calhoun College. Among them, the presentation of a gift to the University, in appreciation for their support in the honors programs' drive for excellence.

Star Wars issue hits campus

1986 saw Clemson University enter the world of national politics. One of the most controversial issues of the year was the "Star Wars" plan of defense. The Star Wars plan, also known as the Strategic Defense Initiative, was a plan devised by President Reagan's military staff to safeguard the United States against Russia's "first strike" potential.

The university held an open forum on this topic in September, led by Dr. Howard Ris. Dr. Ris was a key member of the Union of Concerned Scientists, a group designed to make certain that all new advances in technology were used appropriately. The organization was formed in 1969 and had a membership of more than 10,000 people worldwide. The U.C.S. did technical research and policy analysis on major issues such as the S.D.I., the MX missile plan and the nuclear freeze question.

"Star Wars" attempted to stop Soviet missiles and warheads from reaching their targets in the United States. Dr. Ris felt that before installing a plan of defense "we must determine what an attack would look like. The typical flight path of a soviet missile takes about a half hour. It travels at something like 15,000 to 17,000 miles an hour."

"They are launched from missile fields throughout the Soviet Union. Most of them are along the Trans-Siberian Railway, in the middle and eastern part of the country." In fact, Dr. Ris said that Russia had 3,000 land-based missiles along the Trans-Siberian Railway as of 1986."

" 'Star Wars', right now, is the number one, most expensive military program in the United States. It has quickly come from nowhere to become the number one priority for President Reagan."

Dr. Ris said that the S.D.I. falls into two basic categories: directed energy weapons, and kinetic energy weapons. "Directed energy weapons are lasers, powered by chemical or nuclear explosions. Some of these weapons are based in space and others on land. And the kinetic weapons, which rather than using beams of light or energy, are designed to destroy a target by just smashing into it."

"The idea is to establish some sort of layered defense. The first layer would try to combat the boost phase of a Soviet launch using directed energy weapons. The problem is that in this phase we only have two or three minutes to react. So, if the Soviets make a launch we will have to work very quickly to make a viable reaction."

"The missiles that get through that first phase would then encounter a second layer of defense. This probably would contain a mixture of directed energy weapons and kinetic attack vehicles."

"In the final phase, you would not only have some more of the 'Star Wars' weapons, but you would also have our own set of small missiles to try and intercept the remaining Soviet warhead."

In conclusion, Dr. Ris said, "Star Wars or S.D.I. is an issue that we all must think about hard and perhaps harder than anything else for a couple of reasons. First, is that a great deal of your tax dollar goes to defense spending, and the largest percentage of that goes to S.D.I. Second, you are the ones who, 20 or 30 years down the road will have to live with Star Wars. Not only the burden of cost will be yours, but there could be orbitting battle stations over your head."

Joel Lehrer

Diversified programming: their secret for success

A reorganization of the College of Industrial Management and Textile Science resulted in the formation of the College of Commerce and Industry. The years since that change, in 1981 were marked by growth and advancements. The college was one of the largest at the university, illustrating the success of the program. The college had three schools — Accounting, Business, and Textiles.

The School of Accountancy underwent curriculum changes to keep pace with the progress in the accounting world. The curriculum for the undergraduate program included education in the areas of auditing, managerial, and taxation. A Bachelor of Science degree in accounting was offered in each of these areas.

The departments of the School of Business offered opportunities for students interested in a variety of business fields. The four departments were economics, finance, management and marketing.

The Department of Economics worked under the proud motto, "We do economics". As a supplement to the traditional academic environment, the department diversified through private consulting work.

The Department of Finance prepared students in the areas of business finance, institutional changes, and financial applications of computers. There was no graduate program in the department, but a Masters of Science in Finance had been under development.

The Department of Marketing prepared students for careers in some of the most promising career opportunities in the field of marketing. Marketing was a complex and changing field. An important addition to the department was a new major in marketing. The new major should promote growth in the department. Dr. Ryan Amacher, Dean of the college predicted that the marketing major could grow to become the most popular major in the department.

Textile studies have been at Clemson since 1898. Professors, recognized worldwide, instruct in textile classrooms. A broad curriculum emphasized polymer and fiber science, textile manufacturing, and movement of fibers.

The Office of Professional Development provided South Carolina with continuing professional education for industry and business. The office sponsored textile conferences, management series and computer seminars. The college also offered aid in consulting throughout South Carolina through the Small Business Development Center.

The diverse programs offered in the college illustrated its success. Which, according to Dean Amacher, should be attributed to the quality of its faculty and students.

Nurses learn how to handle future situations

The College of Nursing prepared its students for a career choice that was both rewarding and difficult. Students just enrolling in the curriculum took core courses consisting of basic science and liberal arts classes. The nursing students also were exposed to laboratory classes that offered the student experience in dealing with the most simple to more complex problems they would face in their careers. Hospitals, health departments, and clinics in the local area allowed students the chance to polish their techniques in real-life settings.

In an attempt to improve an already excellent program, the College of Nursing revised its structure. The aim was "to bring together the undergraduate facilities into one group united by a committment to excellence in all college programs and activities." It was hoped also that through this revised structure, programs in the college would be more readily available to both traditional and non-traditional students.

Clemson boasted the only nursing center in South Carolina. This center provided health services for the general public. It gained national recognition for its services including faculty practice, student learning, research, and community service. The College of Nursing offered help to those students having academic difficulties through the Nursing Resource Center. This center was provided with funds from the Helene Fuld Trust Fund and opened its doors to all students, not just those in nursing. A computer facility provided the nursing student with opportunities to improve their word processing, clinical laboratory, and research abilities.

All of the services available to the students led to preparation for the N-CLEX exam for licensure as a professional nurse or preparation for a master's degree in nursing. The college emphasized research as a career choice, along with community involvement. The College of Nursing had a 94% passing rate of its students taking the N-CLEX exam compared to an 80% passing rate nationally. The nurses went on to take jobs in health organizations all over the country and were qualified to practice abroad. The salaries were competitive with other professions. The outlook for the student nurses was bright, with the American Nurses Association projecting an increase in demand for nurses by the year 2000.

Liberal Arts graduates no longer overlooked

Clemson's liberal arts department may have been one of the most overlooked on campus, in the past, but since 1983 it increased greatly in popularity. It's enrollment had increased twenty five percent, since 1982. There have also been great increases made in the number of faculty members and courses offered by the department.

One of the largest factors involved with this increase was that major corporations had been looking more towards Liberal Arts majors to fill positions in their managerial staff. According to a report in Fortune magazine, 38% of Chief Executive Officers majored in the liberal arts, and a close reading of The New York Times showed that 9 of the top 13 executives at IBM were liberal arts majors.

They felt that a students best career preparation was one that emphasized general understanding and curiosity. This was to build a knowledge of how to learn, and give a desire to do so. Literature, history, philosophy and the social sciences have been traditionally believed to develop such habits of mind. These have also been the most ignored classes until recently.

The curriculum of the school of liberal arts was designed to develop certain capacities in it's undergraduates: the ability to write and speak effectively in English and a basic understanding of a modern foreign language; the capability to solve problems; a sensitivity to sociocultural differences and their international implications; the ability to assume a leadership role in the community; an appreciation for the arts and the humanities. In short, what was taught was the ability to learn and, thus prepared the graduates for a lifetime of learning.

Even with their great opportunities in the business world, most students went on to some sort of post graduate studies. One half of psychology majors went on to further their educations. Many graduates went on to law or medical school, as well.

On campus, the largest change may have been in the development of a department of Performing Arts. This was heralded as a great advance in bringing Clemson into the status as one of the great universities of the South. It brought together faculty members in music and English faculty emphasizing in drama.

The College of Liberal Arts has been a great asset to Clemson. It has been helpful to students majoring in all other disciplines on campus as well as producing highly productive graduates.

Counseling center grows to further help students.

College was an overwhelming and confusing time for students in both their personal and academic lives. To help students cope with their problems, Clemson University's Counseling and Career Planning Center offered services free of charge to students and to faculty. The primary function of the center was to offer students professional help with career planning, with academic adjustment, and with personal problems.

The Counseling and Career Planning Center was established in 1964 primarily to aid Clemson University students with academic pressures. Later in the 1970's the center began to offer more personal counseling, and in the 1980's, the center expanded its staff and personnel to five professional counselors and two receptionists and broadened its outreach. The center organized several self-help workshops such as one entitled, "Time Management" and published pamphlets which explained the services of the center. Also, the center began to sponsor the National Testing Program in order to allow students to take exams such as the Graduate Record Exam at Clemson.

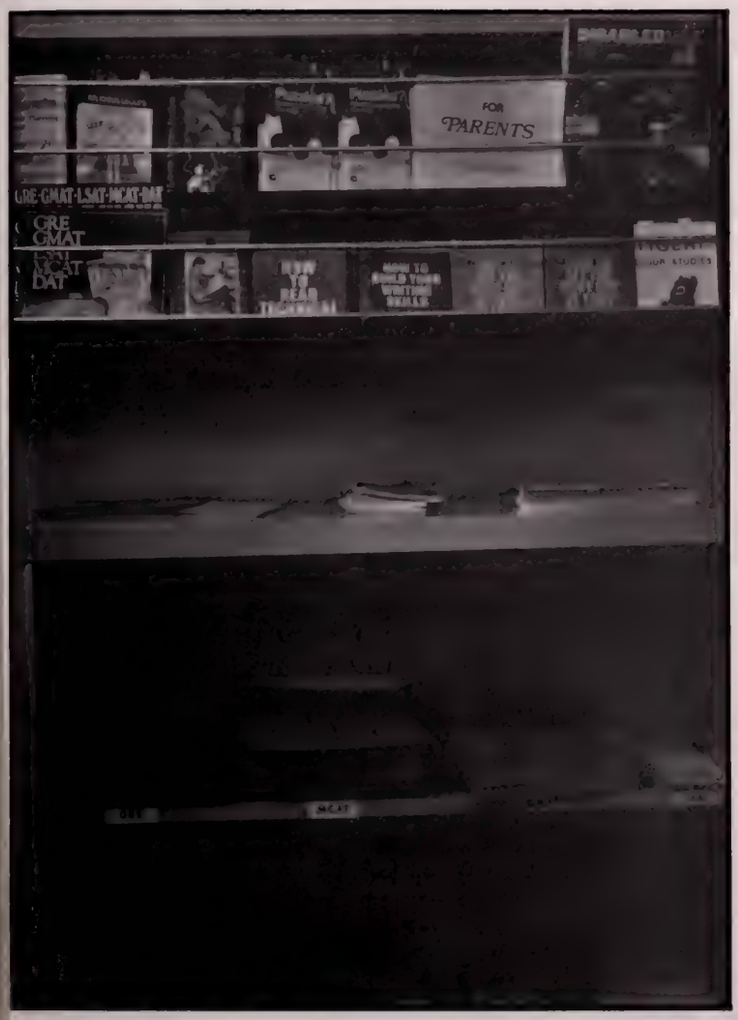
The center's director, Dr.

The Counseling and Career Planning Center located on S. Palmetto Blvd. is open to any student who needs assistance.

Dr. Judith Haislett, the center's director, is to organize self-help workshops.

Bottom Left; The counselors rely upon human and literary resources.

An employee at the center, Lynne Marcus, is always ready to help students.



All photos by Brian Koldyke.

Judith Haislett, who came in 1980, said that she is really excited about the program. She pointed out that academic stress is the biggest problem among Clemson University students and that the center could do a lot to assist students with their stress load. In the future, Dr. Haislett said that the Counseling and Career Planning Center expected to continue to publicize the services that it offered, and to, "expand what we already do as far as we can reach."

Athletes in all sports participate in the study halls.

Because of their busy schedules, athletes receive one-on-one tutoring.

Michael J. Morga

Sherryl A. Oates

The Athletic Advisory Board

New and higher academic standards were required of athletes in the NCAA this year, but Clemson was in fine shape, as we have always had high academic standards for our athletes. We have the Athletic Advisory Board to thank for that.

This board worked under the Dean of Admissions. It worked closely with the heads of each department and had a close and personal relationship with the faculty. Much of their funding came directly through IPTAY, but they were a part of the university and received university funds, as well.

Their job was to monitor the student's class work, offer tutoring and study halls, and help in the athlete's pre-registration. Recently, due to the NCAA's new rules on recruiting, they played a major role in the recruiting process, as well.

The board was in constant contact with the professors of their athletes. They would call to find out how the athletes were doing on their exams, what projects were coming up, and whether they had gone to class or not.

The athletic department had a very strict attendance policy. Athletes were required to attend class, every day, or were disciplined accordingly. The individual coaches would devise the athletes punishments, which would often include extra laps or extra time in study hall.

The athletes were required to attend study hall for two hours a night, Sunday through Thursday. While in study hall, the athletes were offered tutoring in any class, as well as just a quiet time to work on their studies. Over 70 tutors were hired for the athletes, and between 50 and 55 would be available every night. Over $2,000 was spent on tutors, each year, through funding by IPTAY. Some of the athletes were required to attend a supervised study hall, at Daniel Auditorium, which gave specialized assistance in English and math.

The AAB offered valuable assistance to it's athletes in terms of pre-registration. The athletes were blocked out of all afternoon classes, so that they could attend practice. However, if a class was only offered in the afternoon then allowances were made.

In recruiting, the AAB showed prospective students around, making sure that they saw Clemson for it's academics as well as it's athletics. They checked the prospective students records for core curriculum as well the average transcripts. They helped the students find the major that would be best suited for their needs.

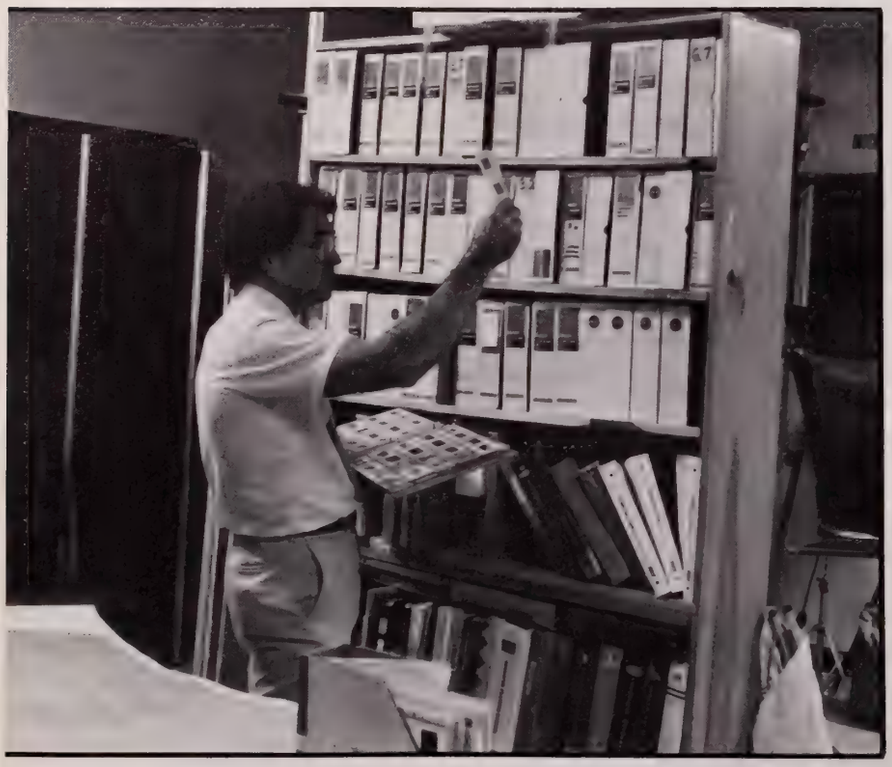
All of this attention helped student athletes record an overall cum. of 2.39 which, compared to the average student's cum. of 2.52, is quite impressive. In fact, the head of the department, Joe White said that "Clemson is second to none in Division 1 schools as far as money, time and faculty devoted to student athletes is concerned".

Joel Lehrer

Michael J. Morga

Study hall can be a good time to study with a friend.

Printing their way to a great future: Graphic Communications



Clemson had been honored by having one of the finest graphic communications departments in North America. The school received international recognition for its ground breaking research in this up-and-coming field.

This major was designed to prepare students for professional careers in printing, publishing, packaging and related industries. Their core curriculum assured its graduates of having the skills and knowledge required by most entry level jobs in printing management, production planning and supervision, and both commercial and technical sales.

One of the more popular aspects of this major has been its internship program. The program allowed the students to spend their summers working for companies, doing real jobs. Not only did they gain great experience and good money, they also received credit towards graduation.

Students were given very general instructions for their projects and were allowed to expand upon them. This gave them a great advantage, over students from other schools, when they entered the work place.

Graphic communications majors left the school with a vast knowledge in their field and a strong background for success.

A state of the arts year

Over the past year many great things happened in the College of Architecture for both the faculty and the students. The year saw the college with a new Dean, Dr. James Barker, a graduate of Clemson and former Dean of the College of Architecture at the University of Mississippi.

Concerning the students, further work was done in initializing new majors within the college. These included a master's degree in Building Science and Management, a bachelor's degree in Landscape Architecture, and a bachelor's degree in Fine Arts.

The year began, for the students with the establishment of a computer graphics laboratory in Lee Hall. The laboratory remote included $60,000 worth of software, donated to the college by the country's largest Architectural firm, Skidmore, Owings, and Merrill.

Also affecting the students were the great advancements on the part of the faculty of the school. Upon the arrival of Max Lennon, and following his aim of advancing the "State of the Art", the faculty had their hands in many notable projects, bringing both them and the college much notoriety. Following this, Professor Harlan McClure, former Dean of the college, received the "Distinguished Professor Award" indicating that he was one of the top three or four architects of the century.

In publications, Professor S. Wang made major contributions to what the university used as the textbook for its photography classes. While Professor Harold Cooledge, one of this year's Alumni Professors, published his book *Samuel Sloan, Architect of Philadelphia.*

In the Fine Arts Department, four Art Professors, John Acorn, Ireland Regnier, Mike Vatalaro, and Sam Wang, were selected for the Invitational Exhibition, "South Carolina: The State of the Arts." This annual exhibition was the most comprehensive and ambitiously organized in the state. On the same scale, the Gallery in Lee Hall had another great year with such exhibits as Lady Liberty, in October, celebrating her 200th anniversary. The exhibit was part of a two week long "celebration", all prepared by Dr. Lynn Craig.

Because Dean Barker was a graduate of Clemson's College of Architecture, he was able to see not only where the college had been, but also where it needed to go. In the near future we can hope to see a study program set up in the city of Charleston, a bachelor's degree program in Landscape Architecture, and a continued commitment to the already strong student/faculty relationships — truly the college's greatest asset.

Missy Bogdin

Teaching the teachers of tomorrow

In 1984, the Education Improvement Act (EIA) was passed prompting action from South Carolina's teacher certification programs. The quality program of the College of Education required only a few minor adjustments to meet the new standards. In response to these new standards, the college raised it's admission requirements and began having students take the National Teacher's Examination *before* beginning to have student teach.

One stipulation of the EIA was that the NTE scores of first year teachers would be made available to the public. The performance of the students of these first year teachers would be evaluated, as well. The results would be used to reflect on individual teachers and educational institutions.

Besides the changes mandated by the state, internal changes also took place. Among these were: the addition of a new graduate major, and a consolidation of three secondary education programs, psychology, sociology, and economics, into one. Within existing majors, students had to show proficiency with computers. The education department was planning physical expansion, with the completion of Godfrey Hall. Classes began in the renovated building in January.

The department was the third largest of nine colleges on campus, and still growing. The undergraduate enrollment had grown from 890 to 1017 students between 1985 and 1986. The graduate program grew from 860 to 1015 students in the same year. New professors joined the faculty with a wide variety of expertise. Russell Marion specialized in computer training, David Barrett in computer training, David Barrett in nutrition and learning, and William Leonard teaching in the biological science field.

As in years past, the college continued to provide service to the surrounding community and state. The Clemson Reading Conference updated education elementary teachers in reading instructional techniques. The Clemson Writing Project offered similar services for writing teachers. The college also sponsored the Piedmont Reading Council, and participated in the S.C. Convention of the Council of Exceptional Children. The Computer Vantage program continued to develop. It began as elementary training

Johnny L. Wood

for those unfamiliar with computers. It has since developed into a program with full length, in depth graduate courses.

A new program began through the college, addressing the national crisis of dropouts. The National Dropout Prevention Center started operations from its coordinating point at the University. Much work was done in the past to control the epidemic of public school dropouts. Attempts were largely unsuccessful to curb the 700,000 per year dropout rate. A headquarters for operations was needed and the College of Education was decided upon as that center.

The year for the College of Education was marked by physical as well as curricular expansion, growth of enrollment and faculty members, and renewal of it's long standing commitment to service.

Working hard to maintain a level of excellence

The year of 1986 saw many changes in the College of Forest and Park Management. The school began to integrate Max Lennon's policy of bringing Clemson into a new era of education.

Dr. Benton Box, dean of the school for the past seven years, took the interim position of Vice President in charge of Agriculture and Natural Resources. This left his seat to fill, and Dr. Herbert Brantly aptly stepped in for the year.

It was a tough year for the acting Dean. He was faced with severe budget restraints, but he was also expected to live up to the high standards required by the university. The fields of study, in the college, were growing rapidly and he was expected to move the school along with them.

In the state of South Carolina, the forest industry accounted for over $2.6 billion in resources, and tourism made up 3.5% of the state's economy. In fact, 1986 saw tourism surpass all other vocations as South Carolina's single most money producing field.

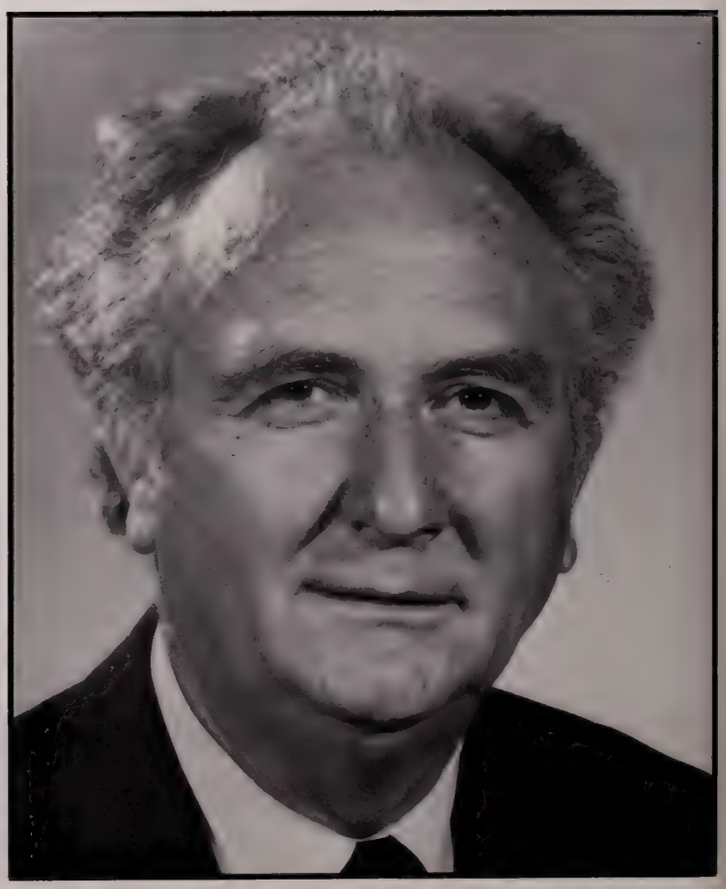
More than just monetarily, the field of Forestry increased the quality of living in South Carolina. Aesthetically speaking, the field of Forestry helped make South Carolina a state that all could be proud of.

Even with the tightening of the budget, the college managed all right. They had great increases in the amount of outside funding for research and continuing education. This aid came from many sources, in the public and private sectors. In fact, as one of the smaller colleges on campus, Forest and Park Management elicited more funds per capita than any other school.

The school had two sections; forestry and parks, and recreation and tourism management. Majoring in forestry gave opportunities in the forest industry, including timber growing and wood processing. PRTM opened up the fields of park settings; including local, state, and federal parks. There was a large influx in the field of recreation systems, and tourism was growing by leaps and bounds.

Dr. Brantly saw the school as giving an opportunity to Clemson's students to explore a vocation they might not have know about otherwise. Unfortunately, many students were not aware of the program until recently. Dr. Brantly foresaw a great increase in interest in the field. In fact, enrollment was expected to increase by 50 to 60% in 1988. They were certainly living up to Clemson's high hopes.

Joel Lehrer



Dr. Herbert Brantley is the Interim Dean of the College of Forest and Recreational Resources.

Forestry uses their field office, in the woods behind campus, to get first hand experience in the field.

The woods of Clemson provide an excellent area for study.

Textile Department changes with the times

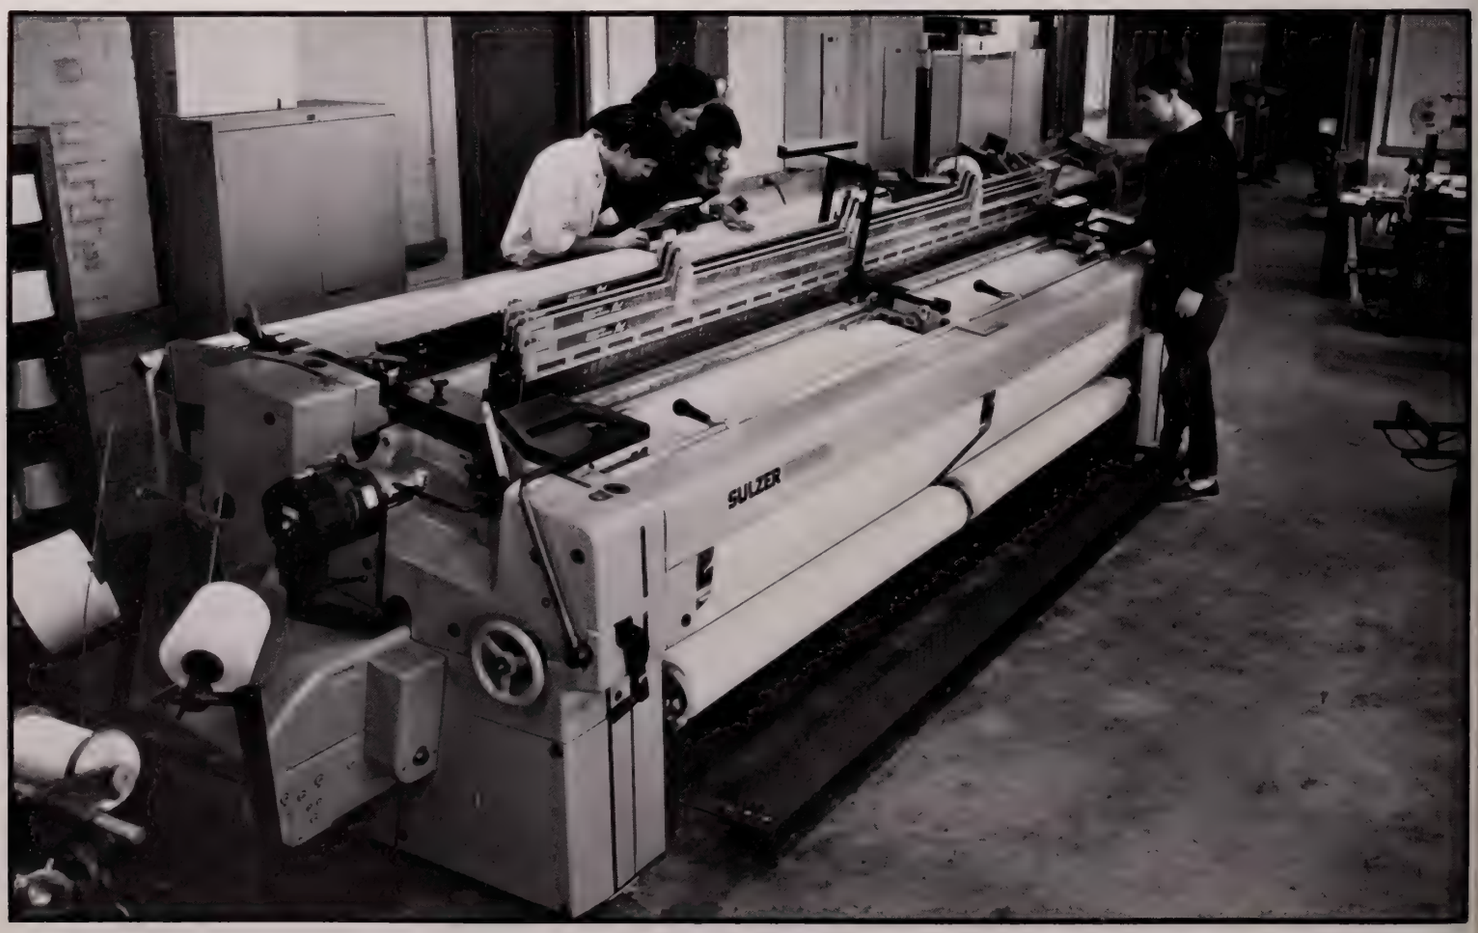
The Department of Textiles prided itself on giving its students "a friendship that goes beyond counseling and teaching". Personal relationships between the faculty and student body have been the basis of greatness for one of Clemson's oldest departments. With only about 130 students in the department, the faculty was not overwhelmed by the students. This benefited the students in immeasurable ways. They only had one advisor, all four years to their graduation. The teachers could work one on one with them to determine what would be best upon graduation. These benefits made Clemson's program one of the five best on the East Coast and a great source for the corporate world to draw from.

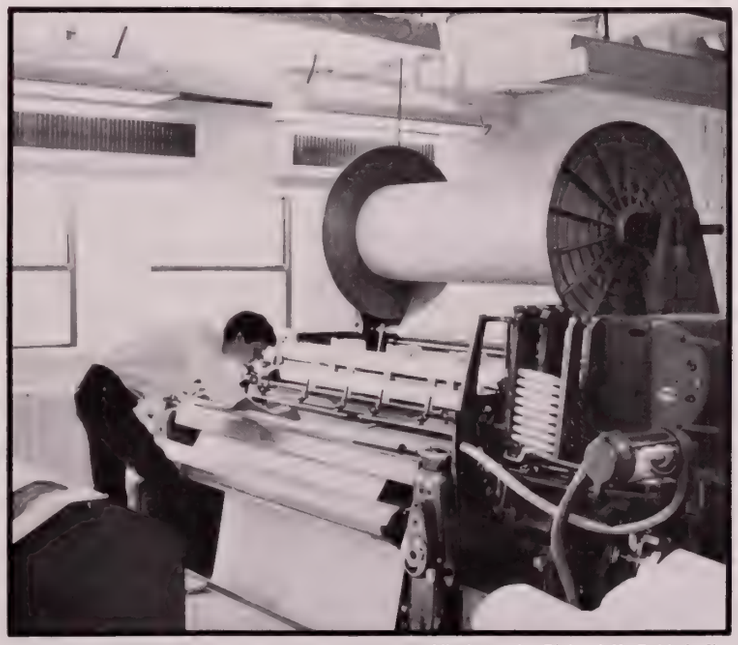
The opportunities available to graduates had always been great. Dr. E.M. Vaughn, director of the department, said that in his twenty years with the school he had never seen a student who was diligent and willing to work have a problem getting a job. He said that the big problem was in choosing among the jobs offered.

Students were also encouraged to go through summer internships, much like co-opping. These allowed the students to see, first hand, what it was like to work in the industry. They could make the big decisions about their future after gaining great insight through this experience. Plus, it was figured to be a big boost in their starting salaries after graduation.

1986 was a very important year for textiles, internationally. There was a glut on the cotton market, causing prices to drop to the lowest they had been in 15 years. President Reagan vetoed the Textile Trade Enforcement Act, though the "Made in the U.S.A." campaign saw much new trade legislation passed. And, the Carolinas remained a major factor in the international scene.

Clemson made advances to keep up with the changing times. They furthered their relations with the Engineering Department. Plans for a new Textile/Engineering facility were drawn and the ball was sent rolling to-





wards that end. The new facility would make Clemson an even more important factor to the corporate world and Clemson had always played a large role in the industry. New work was researched, both for in house studies and out in the businesses.

The major, Textile Management, entered its third year. This major was in answer to all of the changes forecasted in the business cycle to come. Graduates of this major were to fill the many positions opening up for people with their experiences. The forecasting, that was done, came with a lot of help from alumni who held high positions out in the field.

The Department of Textiles was working hard to uphold their great tradition, in 1986, and helping to fulfill Max Lennon's "Second Century Plan"

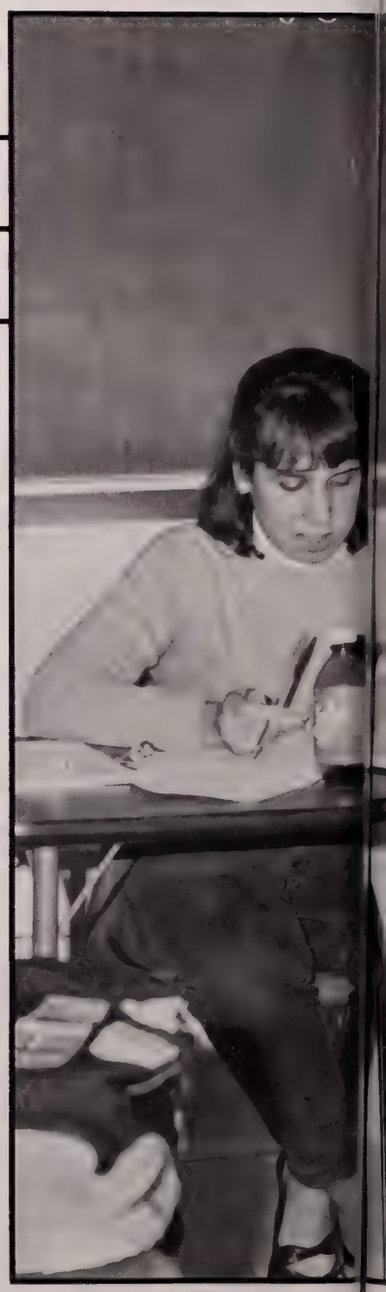
Honoring our outstanding students

Honor fraternities were established as a means of recognizing those students who excelled either academically or in leadership. There were over forty such fraternities on campus honoring every major, plus.

There were two fraternities, Alpha Lambda Delta and Phi Eta Sigma, honoring freshmen with over a 3.5 GPR who were of exemplary character. Golden Key, which was new to Clemson in 1986, honored seniors who had maintained a 3.3 GPR or better. Phi Kappa Phi allowed the top juniors and seniors, elected by the members, to join. These groups were all national organizations, which looked very good when a graduate went to look for a job.

Potential employers looked for these national honorary fraternities when they were hiring applicants. A student who belonged to one or more of these fraternities had a definite upper hand in the job search. Acceptance showed the employers that, not only was he a good student but that he was so good that he was recognized for his abilities.

There was an honorary fraternity for Greeks, Order of Omega. Mortar Board honored seniors for their scholarship, leadership, and service to the community. We even had a campus based fraternity, Tiger Brotherhood, which honored men of high morals and character. This fraternity was dedicated to the betterment of Clemson and was



(left) Military honor fraternities are becoming more popular not only in Clemson but in other universities across the United States.

open to students, faculty and community leaders.

The other fraternities represented every college on campus and almost every major. Ranging from Alpha Epsilon Delta, for pre-med students, to Xi Sigma Pi, for students in forestry, the honor fraternities gave everyone the chance to be recognized for academic excellence.

What makes a good class?

"Is this a good class?" asked frantic university students at the beginning of each semester as they compared schedules. If the response was, "Yeah, it's great", the inquiring student was satisfied with his schedule. But, if the response was, "No, I hated it", the student rushed to the end of the long drop/add line. What factors determined whether a class was good or bad? Although each students definition was different, most people agreed that a good class depended on the quality of the professor and on the students in the class.

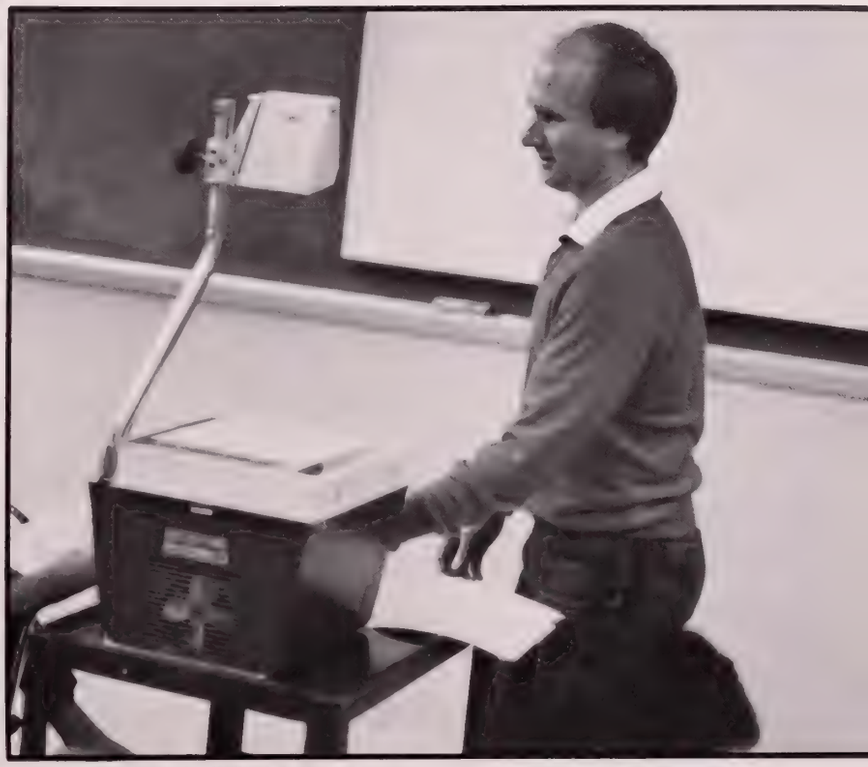
The most important factor in creating a good class was the professor. Because, to most students, the professor was his class, his personality and teaching methods were very important. Most people liked a professor with a good sense of humor, who genuinely enjoyed working with college students. The professor had to make the students feel comfortable, both with him and with the other students in the class. The professor had to be open-minded and fair.

A professor's teaching methods also determined a good class. The professor had to enjoy the subject he was teaching and present it in an interesting way. In a good class there was a lot of interaction between the students and the professor. This kept the class from dragging on, because of boring lectures.

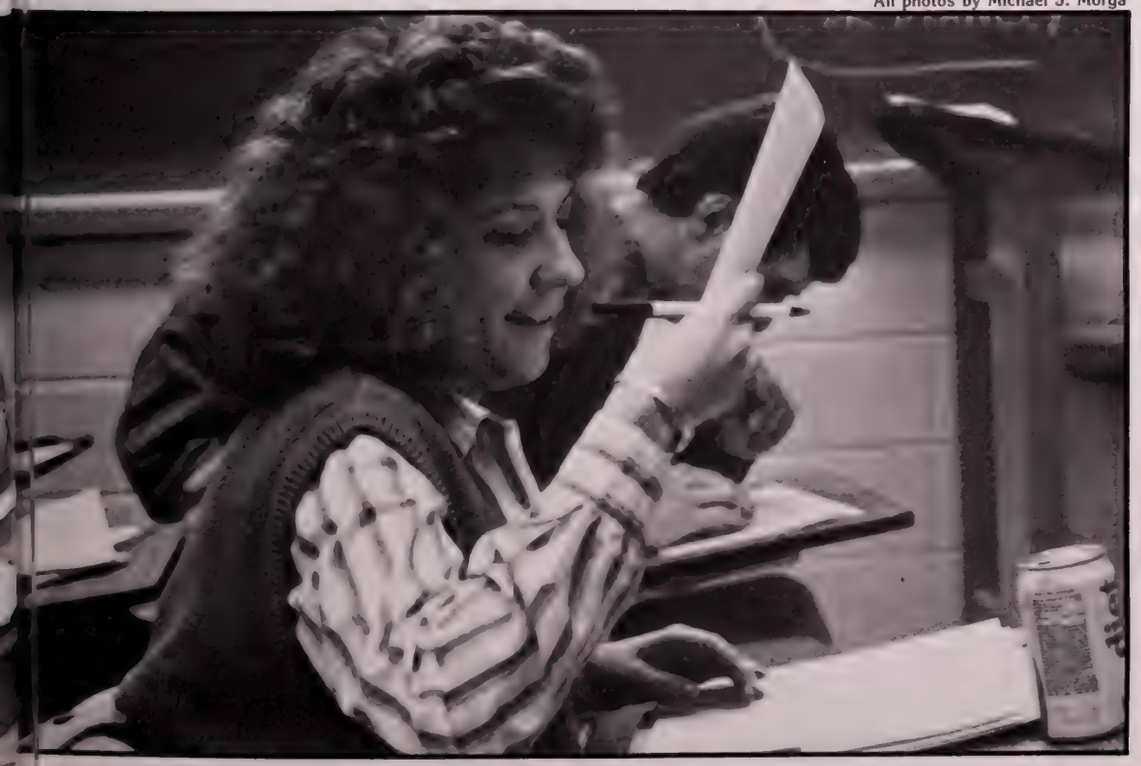
Another important part of making a good class was the students in the class. The number of students in a course was usually important because most people preferred a small class of about twenty to thirty students. Also, no matter how great the professor was, the students had to be willing to participate and be open-minded for the course to be interesting. Finally, a good class consisted of students who liked each other and who had the opportunity to get to know each other. This created a comfortable and friendly atmosphere.

Although many other factors went to making up a good class, most students agreed on these basic criteria. A good class must have had both an enthusiastic professor and interested students. Other factors, such as the material that was studied also affected student's opinions of a course. But, an enthusiastic professor with interested students could make any class a good one. Then the long drop/add lines could have disappeared, completely.

Ann Driskill



All photos by Michael J. Morga



A good class is one where the teacher cares enough to spend time with his students.

Teachers can make a class "good" by using visual aids.

Karen Purer thinks a good grade makes a good class.

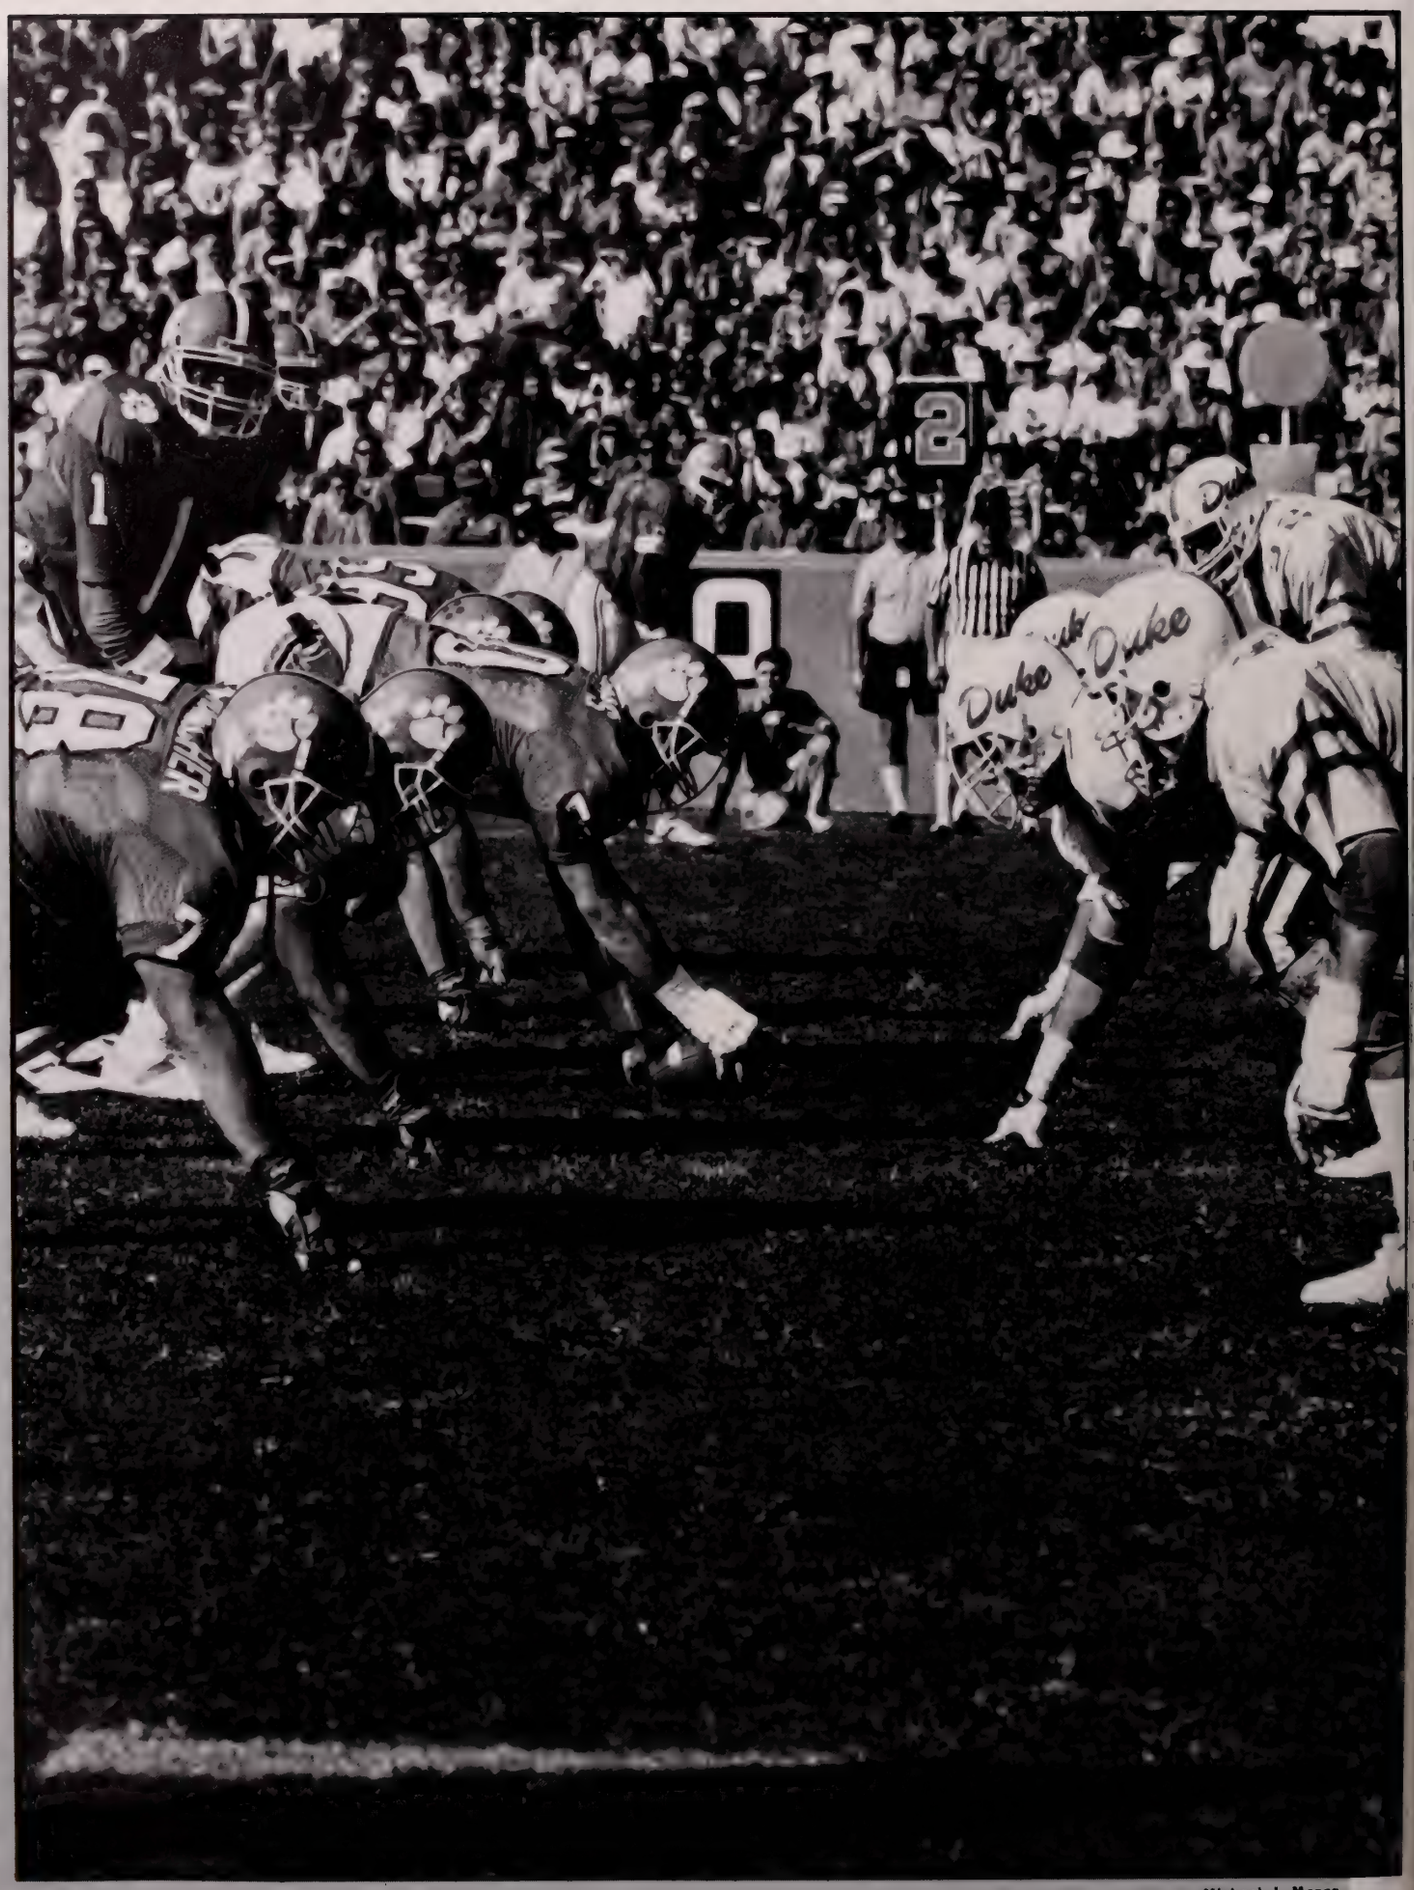
George Michael Nelon

The spirit of Clemson sports was exemplified in 1987. The confidence of play, challenge of competition and the thrill of victory was felt by players and fans alike. Throughout the season the athletes proved themselves not just the best athletes in the area but among the best athletes in the nation. Relive the moments of the heartbreaking and the victorious plays on the following pages:



Michael J. Morga

I'M A FOOTBALL

Here's my side of the story

It was October fourth, a Saturday. That day was not an ordinary Saturday. It was a football Saturday! I had to work, but only for a few hours. If I had to work more hours, I would have been in trouble, because my job is rough. I was constantly thrown, kicked, and manhandled. I would have been replaced if I had quit, so I went on and on. I was a football and my job was to help two groups of people iron out their differences.

There were many different tasks that comprised my job. The first of these involved getting kicked into the air from one side of the work place to the other side. The work place was a huge building with no roof and thousands of seats where people sat to watch me work. They would place bets on which group of people they thought would put me into the other group's end of the field the most. My work place was fully carpeted, but not where the people who watched me sat. As I was saying, when they kicked me into the air, it was great, except for my behind where it really hurt. If the guy on the other side caught me I was alright, but if I fell to the ground, I got bruised from the fall. The only thing I did not like about being caught was that the group that just kicked was after me until they could bash the guy that was carrying me. When I first started working, I got awfully mad at the group that kicked me, until I found out that each group took turns doing it. I could not help but think that no one liked me. Oh well, I got over it.

The second task I had to endure during my job happened after the man carrying me was stopped. I mean, trampled by the other group of men. That is another thing about my job, it was not an E.O.E. (equal opportunity employer). Not a single female was allowed to help the men. This task was kind of weird. They would put me on the ground where the guy was stopped. Both groups would then line up on either side of where I was. The side that had caught me would then put two hands on me and a guy holding me would stand behind him. He would put his hands right through the other guy's legs. Then he would yell "hut". At the same time the guy holding me would give me to the man behind him. After that, he usually did one of two things. He would either give me to another man or throw me to someone. Most of the time, he would give me to another man so as to get me as close to the other end of the field as possible. I really did not mind it too much as long as they did not squeeze me too hard. Sometimes the man holding me would not hold me tight enough, so when a man from the other group hit him he tended to drop me. I did not like when that happened, because both groups would start running after me and I would roll and roll so I could get away from them. When they did catch up with me, they usually tried to fall on me. I never could understand it. When they did not give me to someone else, they would try to throw me to someone. I really did not like that much either. About half the time they threw me, they would miss. After they missed I fell to the ground, of course. Sometimes the other group saved me from this plight, which was fine and good, except that the other group got mad. They threw me harder and grabbed me harder. I could not win for losing!

One of the last things that I had to endure, had to do with being kicked again. This happened when one group stopped the other one. The other one wanted to get me to the other side of the field so badly they decided to kick me through two tall poles that stuck straight up. This was not too bad if the work place that I was at had a net behind the goal posts. If they did not I had to endure the spectators. They were maniacs! They did almost anything to get me to take home to their children.

Some of the more important encounters of these groups tended to be very intense. In these games, the team that won got to keep me. It happened, and I retired so I could set on someone's fireplace.

Chris Calhoun

"Both groups would then line up on either side of where I was."

Golf

Team receive 5th NCAA bid in 5 years.

The 1986 golf season started with showing a record nine freshmen hackers. Although there were so many freshmen, the outlook was good for the team did not falter and captured the fifth bid in the NCAA playoffs in five years — the sixth one in the last seven years.

The team got off to a slow start placing eighth and seventh respectively in their first two tournaments; the Hilton Head Island tourney and the Seminole classic, but that was all the warm-up the Tigers needed. From then on they did not finish less than fifth even in the ACC tournament. In the middle of their schedule, the team really began to show its real talent. They won two tournaments, the U.S.C. Spring Valley Invitational and the Campbell Invitational. The Tiger Golfers had their best mark in a second place finish in the Iron Duke Classic in Durham, North Carolina, finishing a incredible three over par for the team.

At the ACC tourney, the team received excellent leadership from Brad Clark, a sophomore in administrative management. Clark shot a 68 in the last round to tie for sixth place. The sixty-eight was his best of the year, tying his previous score in the first round of the NCAA tournament in which he scored the lead. Clark was the only Tiger to qualify for individual play in the tournament after three rounds.

At the Schenkel Invitational the Tiger golf team beat N.C. State to gain one of the last bids to the NCAA tournament. In this tournament, the experience of senior Robert McHardle really paid off as he finished in a fourth place tie.

A pleasant surprise for Head Coach Larry Penley was the emergence of Kevin Johnson, a freshman majoring in financial management. He lead the team in overall average with a 73.72 score.

The year was one for great advancement in the skill of the players. While competing in various meets, the golfers also focused on growth for the coming year.

Chris Calhoun

. . . We did bad in NCAA's this year but we finished 21st. Everyone's back and we are looking toward the next year. — Coach Larry Penley

Baseball

Strongest offense in Clemson's history

This year the Clemson baseball team had a lot of great accomplishments. They tied a record of the most wins in a season with 42. In the ACC tournament, they equaled their regular season performance by placing third. Their record was 42-21 overall, 9-4 in the ACC.

Two of the Tiger's most important series were with South Carolina and Miami. They won both series 4 of 6 and 2 of 3, respectively. At the time, Miami was ranked number one. The Clemson Tigers tied an ACC record set by Virginia for the most doubles in a game. This was just one of several offensive records that Clemson broke in the 1986 season. The most runs in a season of 482, set in 1982, was broken by the Tigers with 528. They also broke records for the most hits, most triples, most runs batted in, and the most bases. The new marks are 724, 38, 1157, and 470, respectively.

The Tigers also broke many individual season records. Chuck Baldwin, alone, broke four records. He broke his own record of at bats with 269. He also set a new hit mark of 103, which broke Jim McCollom's record set in 1985. Chuck Baldwin got more doubles (23) and singles (64) than any other Tiger in Clemson baseball history. Bill Spiers broke the most runs scored record with 69. Bert Hefferman set the final offensive record with the most walks taken in a season with 52. The Tigers also broke a defensive record with 65, which beat the mark of 60 set, in 1977,

and tied in 1985.

Chuck Baldwin was the key player for the Clemson baseball team. He broke several records and was Clemson's best all-around baseball player since the days of Jimmy Key. Baldwin was the team's top hitter with a .383 average. On the mound, Baldwin also proved his abilities, with five saves, the highest total since Len Bradley set the school record of seven in 1980.

The baseball team improved tremendously this past year. As with other years, the team looked forward to the next year's fresh start.

Tennis

Both teams capture ACC crowns

This year the men's tennis coach set a record by having the most consecutive NCAA tourney appearances by a Clemson coach. The team had eight straight appearances at the NCAA tournament. Chuck Kriese was named ACC coach of the year and the Southern coach of the year. The team also captured its fourth straight ACC crown by going 7-0 in the ACC.

At the NCAA tourney, the tigers advanced to the final eight for the sixth time, but lost to the eventual champion Stanford 5-3. The tigers ended the season ranked fifth in the country with a 31-7 record.

Several of the tiger tennis team players won individual honors. The U.S. Olympic Committee named the number one seed, Jay Berger, a sophomore majoring in Psychology, the male athlete-of-the-year. He reached round sixteen at the 1985 U.S. Open, but lost to Yannick Noah in four sets. Berger also earned All-American honors.

Jay Berger decided to compete for the U.S. Junior Davis Cup team this summer and then turn pro; we will miss him and hope he will do well in the professional circuit.

Next year looked promising since all but three of this year's members will be returning. The returning members included Vince Van Geldren, a freshman majoring in Economics. Van Geldren was the first foreign player to make the line up since the mid 70's

Jay Berger returns a hard smash, getting the point.

Tennis

ing eight ATP points on the satellite circuit.

The women's tennis team set a record this year by winning their fifth straight ACC tournament. The lady tigers did not lose a match to any other ACC teams and went 88-11 in set score against ACC competition. This was a .890 winning percentage. The team ended with a record of 26-3, the best winning percentage in Clemson women's tennis history. Although the team lost in the first round of the NCAA's, the season was a success as the team was ranked in the top five for most of the year.

Andy Johnston, the coach, was named ACC coach of the year. This was the third time in four years that Johnston had won this award. In the last four years since Johnston has

Brian Page, stretches every inch he has.

Richard Matuszewski goes in full stride.

Going for the net.

been here, his teams finished in the top twenty every year.

The individuals of the team should also be recognized for the honors and awards they received. Cathy Hofer led the team in the position of number one seeds. Her overall record was 34-5, and she was named All-American. She reached round sixteen at the NCAA's and named to the U.S. Junior Federation Cup team. In addition, she was one of six Clemson tennis team members to be named to the 12-member All-ACC team. The other five named for this honor were Lisa Bobley, Pam Menne, Marianne Groat, Simone Schilder, and Ingelise Driehuis. Driehuis also attained All-American status and was named the ACC tournament's most valuable player.

Careful preparation is necessary for a smashing backhand.

SOCCER

Tiger booters suffer letdown season

Even with his doctorate, Coach I.M. Ibrahim was unable to find the proper chemistry that would allow the 1986 Clemson soccer team to live up to its potential. The 1986 squad a talent-laden crew, suffered key injuries early on and was never able to totally bounce back as it finished with a 12-6-2 overall record, 3-3 in ACC action, and a number of 19 ranking in the final ISAA/adidas poll.

Expectations were high in Clemson prior to the season opener on August 31 against the College of Charleston. SOCCER AMERICA ranked the Tigers number one in its preseason poll while ISAA/adidas placed the Tigers sixth. Back on the squad from the 1985 ACC champions were three All-Americans, an All-South player, and an All-ACC selection.

However, something failed to fall into place for Clemson. The Tigers' final record marked its fewest wins since 1980 and its most losses since 1969. Furthermore, the NCAA selection committee passed Clemson by, marking the first time since 1980 and just the second time in 15 years that a Clemson soccer team did not participate in post-season play.

The season started off well as Clemson rolled to a 4-1 victory over the College of Charleston. Gary Conner led the way for the Tigers as he scored three goals on three assists from Eric Eichmann.

The next match was a homecoming of sorts as the Tigers headed west to meet St. Louis. The match was played in semi-friendly confines, though, as the parents and friends of the nine Clemson players from there turned out

to pull for the lads of orange. Unfortunately, a Tim Miramonti penalty kick with 4:07 remaining in regulation allowed the Billikens to tie Clemson 2-2, and neither team was able to net a goal in overtime. Still, Jamey Rootes and Gary Conner were there to score goals for Clemson, which saw its hopes for a perfect season drop with a 1-0-1 record.

Before opening ACC play, the Tigers had to face perenially tough USC Spartanburg without the services of Gary Conner, who missed the game with an ankle injury. The Rifles have a nasty habit of playing Clemson particularly tough, and this game was no exception. Clemson however did not take them lightly and hung on to a 2-1 win.

Soccer '86

Johnny L. Wood

The Tigers' next opponent was N. Carolina. The seniors had not lost to the Tarheels, a team that Clemson has fared better against in Chapel Hill in recent years than at Riggs Field. The "Riggs jinx" worked again, as N. Carolina jumped to an early 1-0 lead. Bill Fortner tied the game for Clemson when he drilled a scoring shot from 40 yards out just before halftime, and the Tigers exploded in the second half, scoring two goals while completely shutting down the UNC offense.

Following a 5-1 pounding of Wright State, the Tigers returned to the road to play in the George Mason Tourney. Clemson returned to town as co-champs; however, the title was a costly one as Bernard Gray, Dick Langren, Dave Fortner, and Bruce Murray were all lost to injury. In the tourney, though, Conner scored two goals to lead the Tigers to a 2-1 win over 1985 NCAA runner-up American in round

While the two NC State defenders attempt to take the ball, Bruce Murray carefully guards the ball.

While the opponent's attempt to save the ball is unsuccessful, Eric Eichmann achieves a goal.

one in the GMU tourney. But when the Tigers aced the host, defense was the key as Clemson and George Mason battled to a scoreless tie.

Bruised and battered, Clemson returned home to face an Erskine team that it defeated with a mere 13 seconds remaining in 1985. This match was entirely different, though, as the Tigers sailed to an easy 4-1 victory. Clemson received scoring from four different players, and the Flying Fleet was only able to score with 2:25 remaining in the contest. With two-fifths of the season

(opposite page) Bruce Murray puts out 110 percent in Tiger's 3-1 win over North Carolina.

George Michael Nelon

on the books the Tigers had moved to a 6-0-2 record.

Traveling to Durham, Clemson had hopes of defeating its ACC nemesis, Duke. The last Clemson win in Durham was in 1978 and this game failed to change that fact as the Blue Devils handed the Tigers their worse defeat since the quarters of the 1972 NCAA playoff. Duke scored four first half goals en route to a 5-2 win. Furthermore, the Blue Devil offensive showing marked the first time since 1971 that Clemson had allowed more than four goals in a game. Clemson fell to 6-1-2 overall, 1-1 A CC.

The Tigers needed a win, and most would have thought that it would have come on Clemsons' short road trip to Greenville to face Furman. After all, the Tigers had never lost to the Paladins and had outscored Furman, 122-51. Unfortunately someone they moved to a 2-0 lead that eventually became a 3-1 win. Clemson's monopoly over Furman was broken, and the Tigers had suffered their second consecutive loss for the first time since September of 1984.

The Tigers bounced back with a close 1-0 road victory over Wake Forest as freshman John Meek scored the game's only goal and then returned home to muzzle Wofford by a 6-1 score; however, the time had come to travel to Columbia for the annual grudge match with South Carolina.

Several days' worth of rain made "The Graveyard" resemble a swamp when Clemson met at the Gamecocks. The weather and conditions were reminiscent of that fateful playoff game of 1985, when South Carolina defeated

Johnny L. Wood

Jaworski makes a nice stop on the ball shot by University of North Carolina.

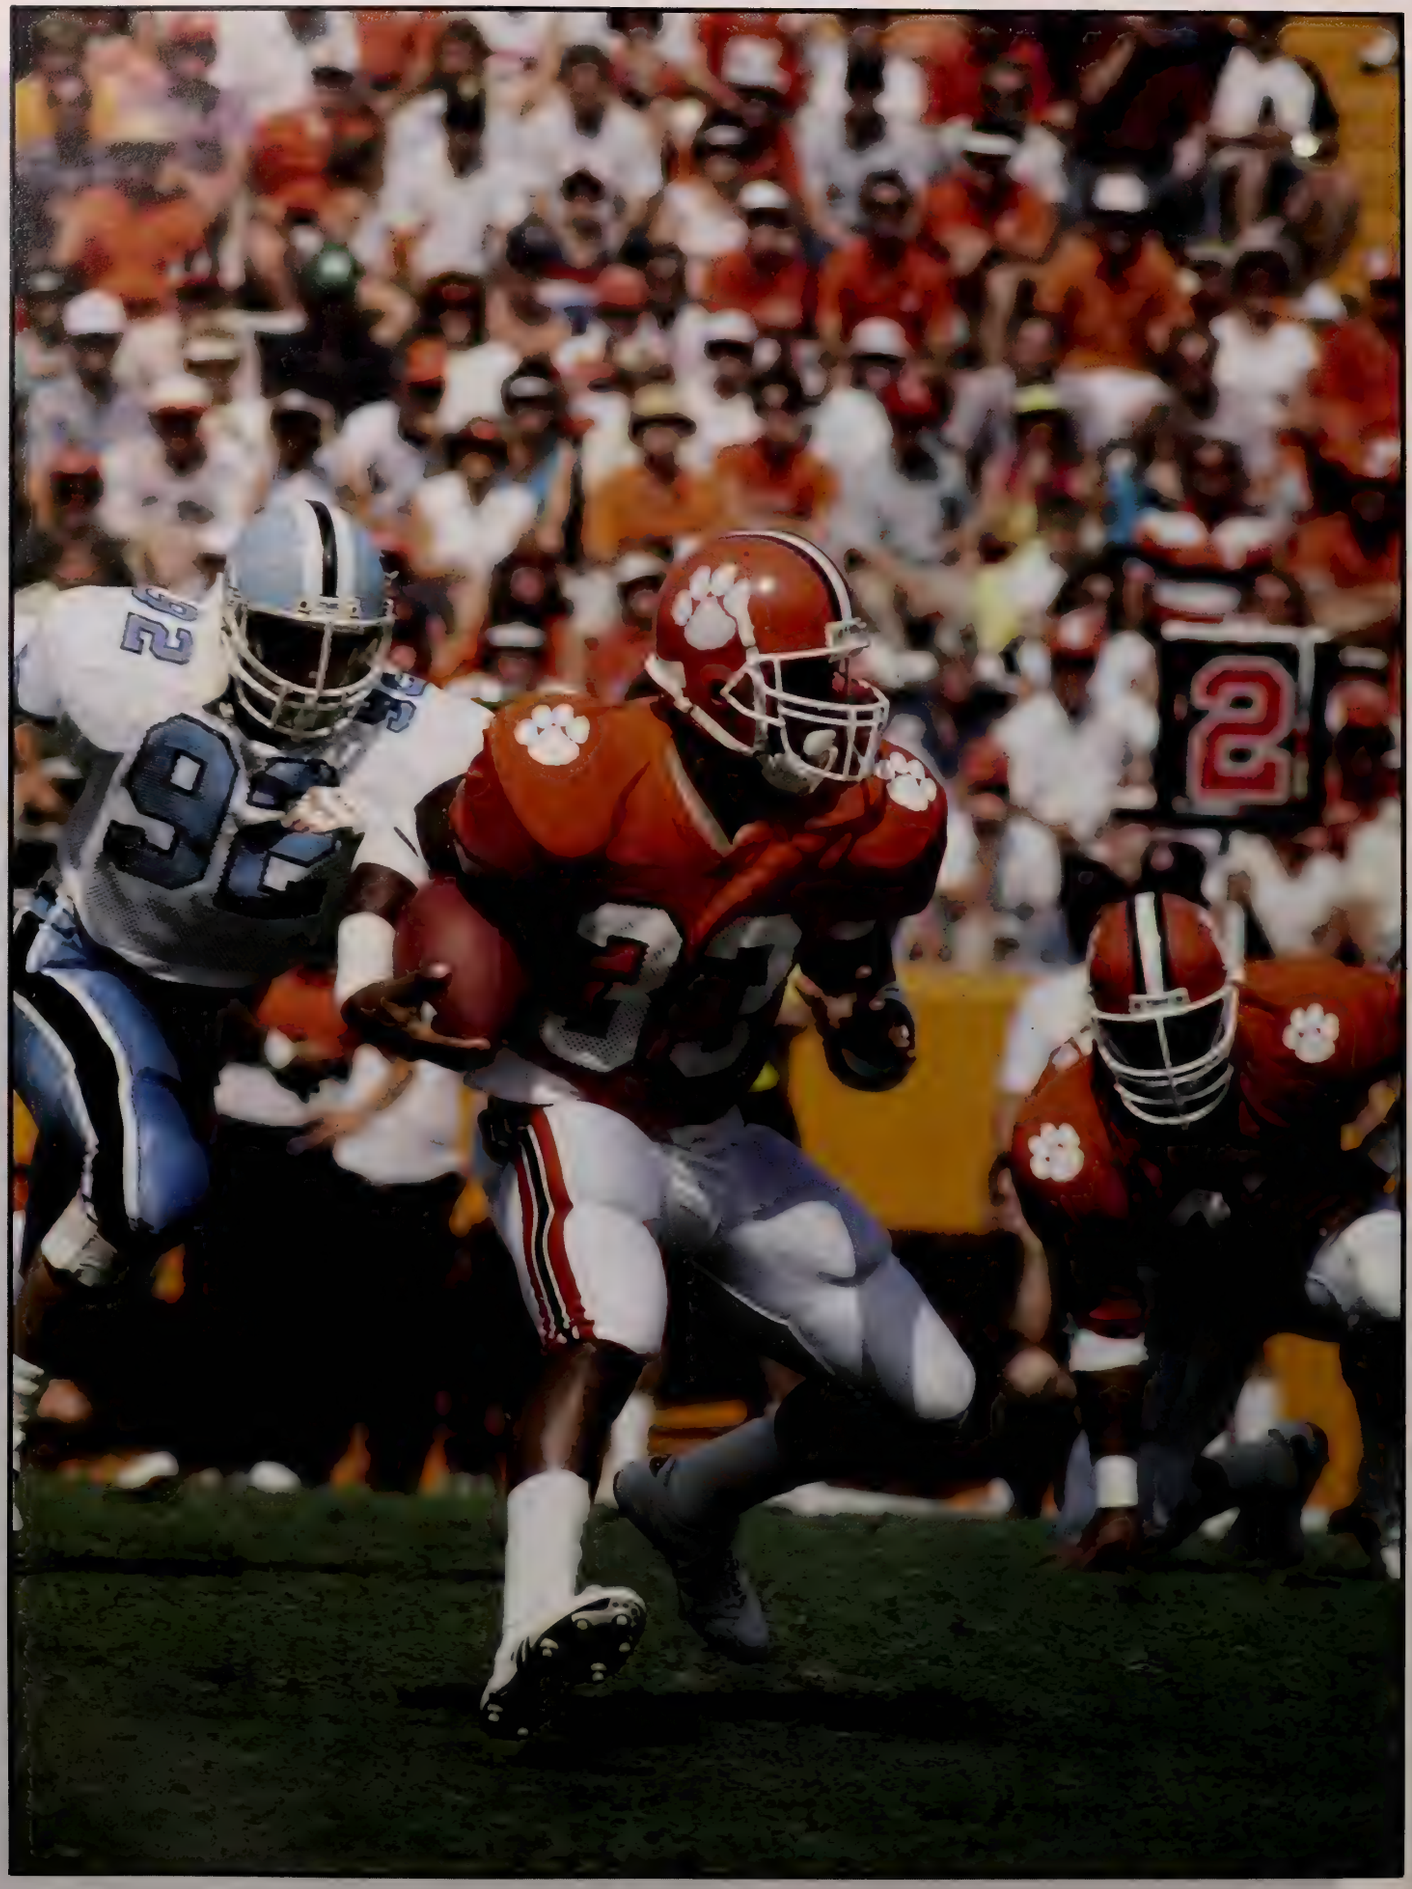
the Tigers for the first time ever. Clemson drew first blood when Gary Conner connected on a Bruce Murray assist with 34:34 remaining in regulation; however, Doug Allison scored two unanswered goals to give the Gamecocks a 2-1 lead. This one wasn't over yet. Out of the fire, the Tigers tied the game when Carolina's Arni Arnthorsson was called for holding in the showing on the clock. As the teams battled in overtime, the Gamecocks inched out to a 3-2 lead on a Scott Cook goal with 5:32 left in overtime period number one, but Murray was there again for Clemson on an assist from Conner on a virtual replay of their earlier score. The game was finally decided with 2:54 remaining when Scott scored his second goal on a header from two-and-one-half yards on the right.

The Tigers then split a pair of games, defeating Southern Connecticut State, 3-0, and losing a tough one to N.C. State, 1-0, before hosting the annual Clemson-Umbro Invitational, dubbed "The Tournament of Champions" as the past three NCAA champions and the past two NCAA runners-up participated in this event. In by far its most thrilling match of the season, Clemson defeated Indiana by a 3-1 score in the opening round. Much closer than the score might indicate, the Tigers tied the match with only 23 seconds remaining in regulation when Paul Rutenis scored on a header on a cross from Bill Fortner. Eric Eichman and Dave Fortner added the final scores for Clemson in overtime.

The second round proved less favorable for Clemson, though, as defending national champion UCLA took advantage of momentary lapses in the Clemson defense to defeat the Tigers 3-0 and win the tournament.

To end the season the Tigers left on a winning note as they upset 10th ranked Maryland 2-1.

David Weber



Vern Verna

FOOTBALL

Clemson football fans had reason to be optimistic heading into the 1986 season. Reason number one was the return of star tailback Kenny Flowers, who was expected to make a run at the Heisman Trophy. Reason number two was a healthy Michael Dean Perry, who had missed most of the previous season with an ankle injury. With Flowers breaking the long ones and Perry breaking opposing quarterbacks 1986 figured to be a banner year for the men in orange.

But the eleven games that followed lacked any rhyme or reason as the Tigers lost their opening game, won the next five, and finished the season with consecutive ties against Maryland and arch-rival South Carolina to post a 7-2-2 record. In the process the Tigers claimed their first Atlantic Coast Conference title in five years and accepted a bid to face Stanford in the Gator Bowl.

The success the Tigers enjoyed in 1986 was due in a large part to a pair of gifted legs, but not those of Kenny Flowers. Nineteen eighty six was Terrence Flaglers' year, a year in which the senior tailback stepped in for an injured Flowers and almost single-handedly carried the Tigers offensively. Flagler ran for 1,176 yards and 13 touchdowns on the season, and was named the ACC Player of the Year for his efforts. Joining Flagler on the All-ACC teams were tight end Jim Rigs, guard John Phillips, defensive lineman Michael Dean Perry, and defensive back Delton Hall.

(opposite page) Terrence Flagler, after replacing injured Kenny Flowers, has set nine Clemson records this season.

Johnny L. Wood

By diving into the end zone, Flagler attains just one of the many touch downs.

While Flagler was enjoying his finest season as a Tiger, it was a little-known, walk-on punter that received much of the attention early in the season. Lacking a viable punter with only two weeks remaining before the season opener against Virginia Tech, Tiger head coach Danny Ford put out a plea in the newspapers for "anyone who can kick the ball 40 yards consistently with about a four second hang time." Some thirty players showed up the next day at practice, and from that group Bill Spiers, the shortstop from the Tiger baseball team, was selected.

Thanks Virginia!

The road to recognition went through Athens, Ga.; it was there the Tigers defeated the Bulldogs 31-28 on a last-second field goal by David Treadwell with the whole country watching from their living rooms on ABC. In the weeks that followed the Tigers inched their way up in the polls and had CBS in hot pursuit of television rights to

their games.

Clemson 14 Virginia Tech 20

The Hokies of Virginia Tech came into Death Valley with a score to settle with the Tigers. The previous year in Blacksburg, Va. the Tigers had come away with a victory on a Treadwell field goal with no time remaining. Revenge was sweet for the visiting Hokies as they stymied two fourth-quarter Tiger drives deep into their own territory and came away with a 20-14 win in front of 78,000 fans who came out for the Tiger's season opener.

The Tigers had trouble handling the ball in the first half as they lost two fumbles and walk-on punter Bill Spiers had his first punt blocked in the endzone for a Tech touchdown in the first quarter. Terrence Flagler scored on a 11 yard run to tie the score at 7-7. The Hokies added a field goal just before halftime to go ahead 10-7.

With the Tigers struggling to generate any offense, Tech's quarterback Erik Campbell went to work on Clemson's secondary. Campbell connected on passes of 13 and 31 yards before finding his tight end all alone in the endzone to increase the Hokie's lead to 17-7. Kenny Flowers dove over from the 1 yard line to pull the Tigers to within 3 points, but Campbell hit his split end for a 50-yard completion to set up a field goal to account for the final margin.

Clemson 31 Georgia 28

David Treadwell stood 47 yards from never having to buy a beer in Clemson again. With four seconds left to play, Treadwell lined up to attempt a field goal that would break a 28-28 tie and give the Tigers their first win over Georgia "between the hedges" since 1977. Treadwell's kick was true and the Tigers defeated the Dawgs 31-28 in front of a national television audience and 81,000 in Sanford Stadium.

In a game which the Tigers found themselves having to match touchdowns with the Bulldogs all afternoon, Georgia jumped on top early with a touchdown following a fumbled punt. The Tigers answered with a 2-yard touchdown by Kenny Flowers, which ws set up by a 57 yard scamper by Flowers on the preceding play. The Tigers and Bulldogs traded scores two more times and the score stook 21-21 at intermission.

The third period began with an exchange of fumbles before the Tigers went ahead 28-21 on a 1-yard dive by quarterback Rodney Williams. Following interceptions by both teams, Georgia rallied with a 78-yard touchdown

Vern Verna

Vern Verna

pass to knot the score. The fourth quarter saw both teams mount long drives, with the Tigers missing a 30-yard field goal attempt and the Bulldogs fumbling on the Tigers' 9 yard line.

The Tigers then drove 64 yards behind the running of Williams and Flagler to the Bulldogs' 30, setting up Treadwell's field goal as time expired.

Clemson 27 Georgia Tech 3

Clemson completed a successful trek through the Peach state with a relatively easy 27-3 win over Georgia Tech in which the Tigers mixed ball-control with big plays to manhandle the Jackets in Atlanta.

Before fans could settle into their seats, Terrance Rouhlac took the opening kickoff and raced 81 yards down to the Jacket's 9 yard line. Johnson and runningmate Chris Lancaster combined for 118 yards on the day from their fullback position as the Tigers controlled the ball for 41 minutes of the game.

Leading 17-3 at halftime, the Tigers sealed their second win of the season on a 29-yard David Treadwell field goal and a 20-yard run by Lancaster.

Clemson 24 The Citadel 0

Defense was the name of the game as the Tigers cruised to a 24-0 victory over The Citadel in front of 75,000 orange-clad fans in Death Valley. Bulldog quarterback Kip Allen came into the game highly rated and looking to exploit the Tigers' weakness — he left the game with a bruised body and ego as the Tigers pressured the senior passer all afternoon, forcing him to hurry his throws and avoid the rush.

While Rodney Williams failed to get

(left and far left) The last-second field goal is good. Clemson beats Georgia in Athens for the first time since 1977.

untracked through the air, Terrence Flagler churned for 177 of the 368 Tiger yards on the ground. Flagler scored on runs of 20 and 38 yards to stake the Tigers to a 14-0 lead in the first half. The second half saw the Tigers stop themselves several times with interceptions and fumbles. Tracy Johnson ran in from the 10 yard line and David Treadwell added a field goal to give the Tigers their third win against one loss on the season.

Clemson 31 Virginia 17

Twenty five times the Tigers and Cavaliers had lined up against each other on the gridiron — the result was always the same, a Clemson victory. Number 26 was no different as the Tigers rode Terrence Flagler's 210-yard rushing performance for a 31-17 win over the Cavs in front of 44,300 well-dressed, but unamused fans in Charlottesville, Va.

The lack of healthy bodies translated into a field day for Flagler who became only the third Tiger runner to surpass the 200-yard plateau. Much of Flagler's running room was supplied by All-ACC guard John Philips who opened holes big enough to drive William Perry through.

After each team traded field goals to open the scoring, Tiger kickoff returner extraordinaire Terrance Roulhac took the kick and ran 47 yards to give the Tigers great field position. Five plays later Chris Lancaster ran around left end for a 3-yard touchdown to put

the Tigers ahead 10-3.

Flagler's touchdown, a 3-yard drive, contributed to a 14-point third quarter that enabled the Tigers to take control of the game leading 24-3 midway through the third quarter. Overall, the Tigers controlled the ball on the ground, rushing 64 times out of 74 plays from scrimmage.

Clemson 35 Duke 3

The Blue Devils of Duke spent much of their Saturday afternoon in Death Valley on the move — in the wrong direction, as the Tigers staked a record 14 tackles of losses in winning their fifth consecutive game by defeating Duke 35-3 in front of a packed Homecoming crowd and six bowl representatives.

Clemson 3 NC State 27

With the rain pouring down on a Saturday afternoon, the Tigers would have been better off staying in Clemson to see David Lee Roth, who was scheduled to apear in Littlejohn Coliseum that night. As it was, you never would've known the Tigers hadn't taken that advice as the Wolfpack of NC State ripped the Tigers 27-3 in Raleigh and left CBS to fill in for the lack of action on the field.

The Wolfpack, under the direction of first-year head coach Dick Sheridan, won the battle on both lines of scrimmage, running through a pourous Tiger defense for 253 yards while holding the talent-laden Tiger rushing corps to just 141 yards on the ground. Unable to generate any yardage on the ground, the Tigers went to the air, but with similar results. Rodney Williams suffered through a horrendous five-of-20 passing day.

The Tigers looked like a team ready to assume league dominance as they took the ball and drove the length of

the field in 15 plays, but had to settle for a 28-yard field goal by David Treadwell. That was the Tiger's offense for the day, as the remainder of the day saw the Wolfpack bottle up Flagler and Flowers while capitalizing on several big plays to take the important conference victory. With the win the Wolfpack needed only to defeat Virginia and Duke to claim the league title.

Clemson 28 Wake Forest 20

The first day of November 1986 was Terrence Flagler day in Winston-Salem, NC. The senior tailback took it upon himself to beat the Demon Deacons, and he did. Flagler rushed for 209 yards, caught passes for 64 yards and scored all four Tiger touchdowns as Clemson defeated Wake Forst 28-20 in Winston-Salem.

On the Tigers' second play from scrimmage, Flagler dazzled the rain-soaked crowd with an 88-yard touchdown gallop. Wake answered with touchdown and two field goals to go up 13-7. Once again Flagler came to the rescue, this time ripping off a 50-yard touchdown. The Deacons regained the lead 20-14, but Williams found Flagler streaking downfield for a 39-yard touchdown pass to put the Tigers ahead to stay, 21-20. Two possessions later, the two hooked up again for a touchdown, this time from 21 yards out.

Clemson 38 North Carolina 10

While the Tigers were busy whipping the Tar Heels of North Carolina 38-10 in Death Valley, they had one ear tuned to the loud speaker, waiting for news of the NC State game with Virginia.

With the game well in hand, the Tigers waited for word on the league-leading Wolfpack, hoping for a loss that would rekindle the Tigers' chances of a conference crown. Mid-

Kenny Flowers, here running in for a TD, has been plagued by injuries.

Michael J. Morga

Vern Verna

way through the fourth quarter the announcement came, Virginia had upset the Wolfpack, and the loudest cheer of the day rang through Memorial Stadium — the Tigers were back in the hunt. Terrence Mack summed it up, "Thanks, Virginia."

Clemson 17 Maryland 17

Needing only a tie to claim their first conference championship in five years, David Treadwell coverted on a 21-yard field goal as time expired to give the Tigers a 17-17 tie with Maryland and the ACC Championship in a game played in Baltimore, Md.

With coaches Danny Ford of Clemson and Bobby Ross of Maryland watching from the press box, punishment resulting from previous arguments with officials, the Tigers drove 88 yards to set up Treadwell's kick. Faced with a third-and-goal situation from the 4 yard line with no timeouts remaining, Ford opted to go for the tie and the championship.

Both teams were slowed by penalties in the first half, but managed a touchdown apiece to head into the half tied 7-7. The Tigers' score came on a 1-yard run by Rodney Williams. The Tigers went up 14-7 on their first possession of the second half on a 28-yard run by Kenny Flowers, but Maryland came back with a field goal and touchdown to go ahead.

Clemson 21 South Carolina 21

In a game marked by mistakes and missed opportunities, the Tigers came out of the gate on fire, with Terrance Roulhac returning the opening kickoff 75 yards to set up a Tracy Johnson 1-yard touchdown with less than two minutes gone from the clock. The extra-point attempt was muffed, but holder Todd Schonhar threw to tight end Jim Riggs for the two-point conversion to put the Tigers ahead 8-0. Carolina's big-play offense struck back quickly to pull within one point. Moments later Schonhar loafted another pass, this time on a muffed field goal attempt, but his second effort fell into the hands of USC's Brad Edwards who ran 61 yards to put the Gamecocks ahead 14-8.

The Tigers regained the lead with a 35-yard touchdown pass from Rodney Williams to Terrance Roulhac to go up 15-14 early in the third quarter. With time ticking down in the final period, Rodney Williams completed his only pass of the second half to set up a Treadwell field goal that tied the game at 21-21. Carolina marched back down the field, but a 41-yard field goal attempt by USC's Scott Hagler was wide left. Tiger long kicker Rusty Seyle tried a 63 yarder on the last play of the game, but his effort fell well short of the goalposts.

Tommy Trammell

In an expression of triumph, Jon Peterson raises his helmet indicating the finality of the winning score.

Contributing to the sound beating of Duke during the Homecoming match, Richard McCullough stretches forward to bring down the Blue Devil on the carry.

The Gator Bowl

Clemson 27 Stanford 21

On December 27th an overcast sky and 50 degree weather greeted the Tigers to Florida and the stage was set for the 1986 Gator Bowl. With Clemson receiving and Stanford defending, the game was underway. On their second drive the Tigers sent Lancaster up the middle for two and then Williams connected with Flagler for a first down. With a thirty-four yard gain by Harris, the Tigers were in scoring position. On his next possession, Lancaster then went off the right guard for a five year gain and the first Tiger touchdown. Clemson 7 Stanford 0

Relying strictly on their ground attack the Tigers foiled the Stanford defense for their second score. Clemson 14 Stanford 0

Stanford was still unable to make any headway and were forced to punt once again. With the ball in their possession the Tigers drove to the five yard line, but had to settle for three. Clemson 17 Stanford 0

On the kickoff Henley fumbled and the Tigers regained possession. After a Flowers' gain of two Williams took the ball in from 14 yards out for another score. Clemson 24 Stanford 0

With 6:53 remaining in the first half Stanford took possession of the ball and experienced their best drive of the first half. However, the Tiger defense rallied and broke up Stanford's passing game; once again the Cardinal had to yield possession of the ball. Unfortunately the Tigers had to settle once again for three points at the end of the half. Clemson 27 Stanford 0

In the second half Stanford shut down the Tiger defense; nine plays later the Cardinal finally drew blood on a Muster rush for one yard. Clemson 27 Stanford 7

Vern Verna
Tiger defense foils another Stanford gain.

Stanford's offense feels the heat of a crushing Tiger attack.

At the end of the third quarter Stanford had moved deep into Tiger territory. Ennis had regained his passing attack and completed to Muster for their second score. Clemson 27 Stanford 14

Clemson's next possession resulted in an interception by Cook; Clemson defense retaliated with an Ennis interception by Delton Hall. Unfortunately, the Tigers were still unable to up their tally and were forced to punt. Ennis passed to Muster over the middle and Stanford drew within six points. Clemson 27 Stanford 21

With the ball in possession and 1:24 remaining in the game the Tigers sat back and waited to reap their just rewards, namely that of a Gator Bowl championship title.

Tim Crawford

COACH KRIESE

A coach on the rise

The Clemson tennis team has met with remarkable success in the last eight years. The reason for this big turnaround in the tiger tennis program had to be obvious. It took Coach Kriese just four years to change Clemson from a little known school in the national scene to a consistent top competitor.

Coach Kriese started his commitment to tennis in high school. From there he went to Tennessee Tech. At Tennessee Tech., he was both the captain and the most valuable player in his senior year. He also received other honors. Among them were a selection to the All-OVC team and a selection as an Outstanding Athlete of America. Just a year ago he became the first tennis player to be selected into the Tennessee Tech. Hall of Fame.

From Tennessee Tech., Coach Kriese went to the prestigious NY Tennis Academy where he gained professional training under Harry Hopman. Hopman had coached the Austrailian Davis Cup team for twenty years.

In 1976 Coach Kriese started his coaching career at Clemson. In his first year he had very little to work with. In his second year, he improved the team to a winning season. In his third season, he evened up the ACC record as well as the overall record to 60 percent.

It was the fourth year that was the charm. Coach Kriese led the team to a 24-7 season. In doing this the team won the ACC regular season and placed second in the ACC tournament. At the end of the season, they were ranked fifteenth nationally.

The seven years after that year were even more impressive. In that period, Kriese's record at Clemson was 190-61, a 75.9 winning percentage. Also, Coach Kriese's teams have been in the top ten in the country seven of the last seven years. In the ACC, the tennis team was also extremely impressive. In the late seven years, Clemson won the regular season title six times and the ACC tournament five times. Coach Kriese led Clemson to it's first NCAA tournament appearance ever. Then, he coached the team to seven more NCAA tournament appearances. Including this years appearance, Coach Kriese tied the record for the most consecutive NCAA appearances for a Clemson coach. The record was held by soccer coach Ibrahim.

Coach Kriese had been recognized as one of the nation's best tennis coaches. Along with this recognition came several awards. Among these was the National Coach of the year in 1981. In 1985 he won for the second time the Southern Coach of the year award.

Coach Kriese's number one goal was to win the national championship.

Kelvin Sykes

A personal interview

Q — What made you decide to run track?

A — I started my track career as a high jumper in junior high. It wasn't until high school that I switched to the triple jump. I never thought that I would be good enough to earn a scholarship to a major university. Although football was my first love, I like the individuality that most track events fulfill.

Q — What are your goals in track and out of track?

A — My goal in track as of right now is to qualify for the Olympic trials in 1988. Outside of track I am striving to get my degree in marketing from Clemson.

Q — What made you decide to come and run for the Clemson track program?

A — I was originally at the University of South Alabama before I transfered to Clemson. Because of coaching staff reasons the University of South Alabama decided to drop the track program there. I was pleased to be accepted by the Clemson track program after I contacted Wade Williams. Since I've been here, I've jumped better than I ever have before and I owe it all to my jump coach Gail Olsen.

Q — What would you like to do after track?

A — After I get my marketing degree I plan to join the Armed Forces and become a fighter pilot. If not that route then I would like to work for a firm as a marketing manager.

Q — What other things are you interested in?

A — A favorite pastime of mine is photography. I'm not involved with it as much as I would like. Track and my classes take up alot of my time. I still like to play photographer at all of our track meets.

Q — What do you think the impact will be on track with drug testing?

A — I don't feel there's a problem with drugs in track with drugs such as grass, cocaine, . . . etc. Steroids are the big problem in track. But now with all the testing going on to cut this out may result in records lasting longer than they do now. I'm all for drug testing because I don't use steroids. But some people want that advantage no matter what the cost. Thanks to testing every one has an equal chance.

Q — What do you think about the team as a whole and how do you think we will do in the next couple years?

A — We lost some key performers this year but the team as a whole has a bright future. We have a lot of newcomers and they are good. Once they've been here a year to learn the expectations of the track program Clemson will continue to be a dominant force in the ACC.

Q — How did you do this year and how do you think you an improve for next year?

A — I did fairly well among the ACC ranks and the Clemson record books. Unlike last year, this year I want to be among the national ranks. I think with the coaching and facilities here at Clemson I have more than enough to get me among the top in the nation. The rest is left up to me.

Indoor records: 51'3" triple jump
24'7" long jump

Strength and technique will be a large concern of ours this year.

TRACK

Both teams tie or break records

The men's outdoor track team finished second out of eight teams at the ACC meet for the 1987 season. In doing so, they tied the school record for championships in the men's competition.

The start of the season was slow for the Tiger track team with only receiving two personal bests at the Domino's Relays, but achieving nine personal bests at the ACC track tournament and finishing thirtieth overall at the NCAA meet. In all four Tigers achieved All-American status. Mike Spiritoso finished second in the shot put with a school record toss of 68'4¼". This second place performance was the highest a Clemson male athlete had ever placed. Victor Smalls also earned All-American status by placing sixth overall in the high jump. In 200 meter and 5000 meter competition, Marcus Black and Martin Flynn respectively achieved All-American status.

The men's indoor track team sent five athletes to the NCAA Tournament in Oklahoma City in 1986. Of those five, one earned All-American honors. Greg Moses took 7th place in the tourney to become Clemson's only All-American in indoor track, but the other four missed taking the same honors by very close margins. Two of the four finished in the top ten overall. Mike Spiritoso took eighth place in the shot put while Victor Smalls took seventh place in the high jump.

The women's out door track team won three events at the ACC meet to give them eleven combined ACC wins which set a school record for ACC play. In the ACC meet, the women placed fourth in route to earning two All-American honors. Tina Krebs earned All-American for placing third in the 1500 meters. This was the eighth time in her career to receive these honors. Ute Jamrozy joined Tina by earning All-American honors in the 10,000 meters and also placing fourth overall. Elsa Brent was a 1986 participant in the NCAA tournament.

The women succeeded in indoor track as the team went to the NCAA's and placed nineteenth overall. Five athletes from the team participated in the events with Tina Krebs earning All-American in the one-mile by placing second.

THE LONG DISTANCE RUNNERS

In their divisions ranked with the best

Both of Clemson's Cross Country teams this year entered the season highly regarded and highly ranked. In the track magazine Inside Track the men's team was ranked sixth in District III, the women's team were ranked even higher. They were ranked number three behind N.C. State and Kentucky.

The men's team were paced by senior Martin Flynn, who was the top-ranked individual in the District III rankings. Martin Flynn ended up placing number one in three meets. He also had a second and third place. One of the first included the ACC individual championship beating his rival, UNC's Jim Farmer, by two seconds.

As a team the men's Cross Country won one meet, finished ninth, fourth and fourth. The team came in fourth place in the ACC behind N.C. State, Maryland, and UNC respectively. In the NCAA's the men's team finished at number twelve. To emphasize how tough the ACC was this year all that was needed is to look at the NCAA meet. Seven team's from the ACC placed in top twenty of the NCAA meet.

The women's Cross Country team were paced by senior Ute Jamrozy and Elsa Breit. Individually Ute Jamrozy proved to the ACC and the nation that she can run with the best. Jamrozy beat the eventual NCAA champion Patricia Matava in the ACC championship by fifteen seconds. In winning the ACC meet Jamrozy set a course record of 17:00. Elsa Breit did well also this season. She did her best in the ACC

meet by finishing third overall. In the NCAA's Breit finished fourteenth behind the best runners in the nation.

As a team the Cross Country team did better than most could hope. They won the ACC championships for the first time in the school's history. N.C. State and Virginia are the only two other teams in the ACC who have now won the ACC crown. In the Wisconsin Invitational the lady tigers finished sixth. In the tournament there were seven teams participating that were rated in the top twenty. In this meet Ute Jamrozy led the tigers with a fifth place finish.

In the NCAA's the lady tigers finished a strong third place behind Alabama and Kentucky respectively.

CLEMSON NETTERS

A very good year for the volleyball team

The Clemson volleyball team has had one of the best seasons in the history of Clemson University. In fact the team this year finished the regular season with the fourth best team record.

The volleyball team set a record of the largest attendance at a home game in Jervey gym during the game with W. Carolina. Some 679 people were jammed into the place. The match went to five sets with the Tigers winning both the last game and the match.

Another great match, arguably the best of the season, was with Central Florida. C. Florida took the first two matches from the lady netters 16-14, 15-6 respectively. Things did not look good for the team. The volleyball team re-grouped and showed the Floridans what they were made of. They won the next three 15-11, 15-2, and 15-11. At the time C. Florida had an outstanding record of 12-4.

Denise Murphy set a Clemson Volleyball record by being the first lady tiger ever to record her 100th kill. This kill occured in the loss to UNC. Denise had thirteen kills in that game. Denise also attained second team All-ACC. The Clemson Volleyball team finished 21-13 for the season overall and 3-5 in the ACC. In the ACC tourney the team struggled against Maryland eventually losing the tough match 16-14, 14-16, 13-15, and 11-15.

Drugs and sports

A hard lesson for some to learn

From the collegiate ranks to the pros, from the NFL to the NBA, from high school sports to the Olympics, there was one common factor which had played a role in all these divisions of the sports world; that one factor was drugs. Whether it was uppers, codeine, or steroids, the usage of such foreign substances had increased dramatically in all sports over the past few years.

The events which best marked the increased prolifration of drugs in sports was the unfortunate death of college basketball great, Len Bias. After performing an autopsy on Bias coroners determined that he had died of drug-induced heart failure. This plunged the University of Maryland into a scandal including charges of selling cocaine and possible manslaughter. Within a week of Bias' death, Don Rogers, linebacker for the Cleveland Browns, was pronounced dead from a cocaine related incident on the morning of his wedding day; the only chance he had to wear his wedding band was to his own funeral.

Unreasonably, it took the deaths of two prominent athletes before the seriousness of sports related drug abuse was strickly dealt with. Fore drugs had been involved in sports long before the deaths of Bias and Rogers; four years ago Tim Raines of the Montreal Expos took to sliding head first into base to prevent breaking cocaine vials in his back pockets. Before that Texas Rangers' Dock Ellis pitched a no-hitter while under the influence of LSD. Little known were these incidents at the

This collage is a representation of the different sports that are affected by the drug testing proposal.

These roaches as with all the pictures of illegal substances in this article, are courtesy of the Clemson Police Department.

time, because such affairs were either unreported or covered up. It was not until recently that the 1983 death of Miami Dolphins' Larry Gordon may have been cocaine related; this was discovered by then teammate Thomas "Hollywood" Henderson. Henderson was reported as saying that Gordon and he had free-based cocaine on the night of his death. "Hollywood", who was released from prison in October on cocaine possession and sexual assault charges, wanted to warn others of his $10,000 a week addiction during the period he played linebacker for the Dallas Cowboys. After his release Henderson applied to the NFL to become a drug counselor, but was subsequentaly rejected. The reasons for Henderson's addiction stemmed directly from the pressures and the physical stress connected with the job itself. He began his addiction by taking pain killers such as codeine four and percadin and later included cocaine and alcohol. According to Henderson the sport can sometimes be very cruel, "The game of football breeds alcoholics, it breeds drug addicts."

Football was not the only area to have such problems, Major League Baseball also had it's crosses to bear. Infiltration of drugs into the majors had become so potent that baseball commissioner, Peter Ueberoth, wanted the military to secure the U.S.-Mexican border.

Steve Howe was a classic example of the severity of the situation. Howe who played for the Los Angelos Dodgers, would snort cocaine in the tunnel outside the clubhouse before, after, as well as during games. However, Howe was not the only one, Dave Parker of

Marijuana is one of the most popular drugs that athletes currently use.

This coacine kit is just one of the many ways that cocaine can be prepared for use.

the Pittsburgh Pirates was involved in a salary dispute because it was decided he was not playing up to par while under the influence and did not deserve his set salary.

Most recently to appear on the scene had been the use of steroids, which had become almost commonplace in all sports. Steroids, which are synthetically produced human growth hormones, were indeed proved to be life-threatening as well as addicting. Overabundance of HGH in the body could lead to diabetes, heart disease, and shorter lifespan and sometimes acromegaly or "gigantism". This had been exceptionally noted in the Eastern Bloc Athletes, men and women alike. Although prescription of steroids was not illegal, it may have questioned certain medical ethics. In addition, obtaining these hormones was not difficult either; most times all one needed was a bogus prescription. Needless to add, since HGH added to athletic performance sports officials were slow to begin strict testing and regulation of these substances.

With all the evidence, one would think that people would have begun to realize what they were risking in this deadly game. They were not just risking their job security and status but their lives and possibly the lives of people close to them. Maybe if more people took the position of Oklahoma's Brian Bosworth who cold-cocked a fellow for trying to push cocaine on him. Needless to say he has had no problems since then.

Barry Mayes

Wrestling

Injuries and inexperience haunt Tiger grapplers

Starting with only four starters out of ten weights, the Wrestling team was expected to have some difficulties due to youth. Not only did inexperience give the team trouble but nagging injuries as well.

"I've been coaching for fifteen years, and this is the worst year that I've been associated with as far as injuries, and they're not conditioning injuries — two knee cartilages, a torn rotator cuff, a broken wrist. It's those kinda things," commented Coach Eddie Griffin. The injury problem began early. Kurt Howell at 118 pound class suffered his second knee injury of the season before the Sunshine Open and was sidelined. Kurt was off to an excellent start before being sidelined with his injury.

The Tigers opened November 8th with a non-scoring meet, West Virginia Open. From there, even with all of the problems, the grapplers finished with a winning record of 8-7 overall, although they were only 1-4 in the ACC. Hidden behind the stats was the effort and "we're not giving up attitude". Many of the losses were only by one point. There were many close matches, and many matches were won solely on effort and conditioning.

Coach Griffin commented that this year's bunch was one of the most talented groups he had coached. Looking beyond this season, he planned to regroup and set for next three or four seasons. With only two starters graduating coupled with other ACC teams losing many of their starters due to graduation, Clemson was expected to do well in the upcoming season.

Swimming

Ladies take the ACC crown, men finish with a winning record

The lady Tiger swimming team was ranked number six in the nation going into the ACC meet. With their 6-2 record, they were favored to take the ACC crown. The two losses were given to them by the University of Florida and University of Georgia. For the meet, Coach Boettner considered several different strategies while drilling the team for the meet. Unlike all other ACC coaches, he chose not to use two of the most used strategies, shaving and tapering. "Our girls swim well off of real hard work so I don't have any problems staying with it (not tapering)."

Shaving reduced the friction between the body and water while tapering involved lessening the intensity of their training to minimize the wear and tear on their bodies.

Coach Boettner's decision not to use these strategies paid off as the women's team ended North Carolina's domination of the ACC. This meet marked the first time the women's team has captured the ACC crown. In addition to this title, the team received two other honors. Coach Boettner was once again named the ACC Coach of the Year. Also, Mitzi Kremer received the ACC Most Valuable Swimmer of the Year award. Mitzi was excited about the season, "We accomplished what we set out to do: winning the ACC championship."

Mitzi won the 500 meter and 200 meter freestyle events and went on to anchor the two winning Tiger relay teams. Mitzi's efforts heavily contributed toward the capturing of the title. The women were within the NCAA's qualifying times in twenty different events, five relays and fifteen individual events. This gave them the chance to finish in the top five of the nation.

The men finished with a winning season, 5-4, and placed second overall in the ACC tournament. Season began with a decisive victory over Georgia Tech 124-75 on November 15. This began the season which Boettner created to be one of the strongest schedules to date. To gain more qualifying experience for the NCAA, the men faced two teams which placed within the top thirty in the 1986 NCAA's, including the fourth ranked Florida Gators.

Although the defending champions coming into the ACC meet, the men managed to place second behind the University of Virginia, beating North Carolina by four points. The men were led by Allen Thomas, the captain of the team, who set a school record in

Basketball

A season of records

The 1986-87 Clemson basketball team opened their season ranked as high as twenty fifth in the nation. Expectations were high with the recruitment of several talented freshmen, namely, Elden Campbell and Ricky Jones. Early in the year, Ricky Jones was sidelined and red-shirted due to an injury. Elden Campbell's story was a happier one. Campbell was second in the team according to points per minute played and ranked fifth in scoring with 9.6 points per game.

The leading scorer per minute was Horace Grant. Horace Grant won the ACC Player of the Year through his relentless scoring and hard play. Grant was so overpowering that Littlejohn Coliseum was given the nickname "Grant's tomb". Grant led the ACC in scoring with 21.2 points per game, shooting percentage with 66.2 percent, and rebounding per game.

Along with the nickname "Grant's tomb" came the "R" board. Originally, early in the season, this board was primitive, consisting of a few fans holding up R's to recognize Grants great rebounding ability. As the season progressed the board became more and more professional, going so far as to rival the K board set up for the Mets' Dwight Gooden's strike outs.

Grant did not do it all by himself. Jerry Pryor was a very effective partner with Grant in the destruction of opponents defenses. In the Hawaii Pacific tournament, Pryor so impressed the officials that he was awarded the Most Valuable Player. Pryor ranked as high as 18th in the nation in field goal percentage and led the team in scoring and rebounding in five separate games.

(opposite page) In the final home game against Ga. Tech., Horace Grant perfoms a jam to excite the capacity crowd in his 30 point effort.

(above right) There can be no doubt that the leadership of coach Cliff Ellis is the key ingredient in the team's success.

Another very effective weapon in Clemson's arsenal was the three point shot. The three players who proved effective in this range were Michael Tait, Anthony Jenkins and Michael Brown. In the Georgia Tech game, Michael Tait provided the game winning shot with just three seconds remaining on the game clock. Although this was just a 17 footer, it showed the long shooting talent that senior Tait excelled at. Michael Tait was ranked seventh in the nation in three point shooting.

Anthony Jenkins, the ACC's all-time three-point champion, was another member of Clemson's three point shooting trio. 64 percent of his field goal attempts had been from three-point range.

The last but not least in this trio was Michael Brown. Brown, a transfer from Syracuse University, provided a big boost for the Clemson bench. Against the University of Virginia, Brown hit

four three-pointers in the second half, as well as hitting two free throws in the final four seconds to give Clemson the victory. Also, Brown provided the winning three-point shot against Maryland with eight seconds left. Overall, Brown shot 8.8 points per game with 42.5 field goal percentage.

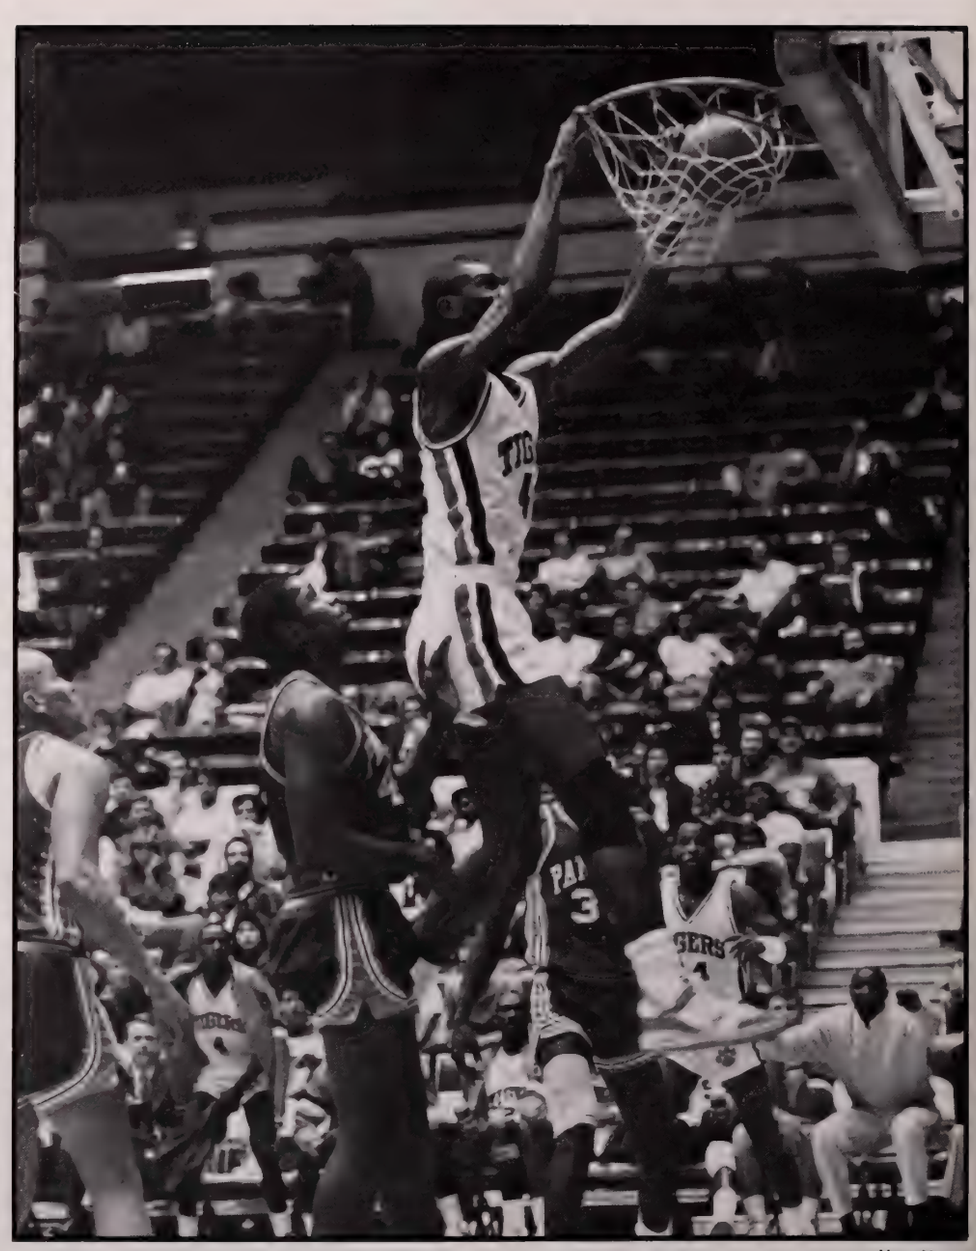
The playmaker for the team was Grayson Marshall. Going into the ACC tournament, he was ranked sixth on the ACC's all-time assist list with 670. Marshall was not only known for his assists but for his fine ball handling ability. He had a 3.08 to 1 assist to turnover ratio for the year which ranked him in the top five figures in the ACC over the last six years. In the Maryland game, Marshall achieved his first double-double game of the season with 10 points and 12 assists. Due to an injury to his Achilles tendon in the second Duke game, Marshall was unable to participate in the ACC tournament.

Behind the leadership of Coach Cliff Ellis, the team established the record for the most wins in a season with twenty-five wins and four losses. They also had the best start in the history of Clemson with seventeen wins before a heartbreaking overtime loss to Duke at Littlejohn while ranked tenth in the nation. In accomplishing this record, the team won three tournaments. These were the IPTAY tournament, the TCBY tournament, and the Hawaii Pacific tournament.

The Tigers went twelve games and twelve wins before being recognized as a nationally ranked team. The biggest problem for the Tigers getting early national attention was due to very easy schedule of small colleges. These included such opponents as Prairie View, Armstrong St., and Delaware St. These games were won by a total of 310 points for Clemson to a total of 126 points for the opponents.

The first ACC game and the first challenging game for the Tigers was with North Carolina State at Littlejohn. They beat the Wolfpack, 73-69, in a fast paced game witnessed by an overpacked coliseum. For the first time in the history of the Tigers, they clinched second place in the ACC at the end of the regular season. Although Clemson could not get past their jinx with Duke and North Carolina in the regular season, they managed to beat all of the other ACC competition. Another reward for the team's national ranking was an assurance of a NCAA berth.

The Lady Tigers did not have such an impressive season. The women had a disappointing 7-20 overall record, and 3-11 record within the ACC; the 20 losses was the most ever by a Lady Tiger club, as were the 11 ACC defeats. The women opened up their season with a 91-50 loss to Auburn in the opening round of the Minnesota Dial Classic. However, the following night the Lady Tigers recovered and handed Northern Illinois a defeat to claim the third place title. The next big win for the women was the 103-53 stomping of Baptist on December 13. This win was to be the last victory for the women for



Vern Verna

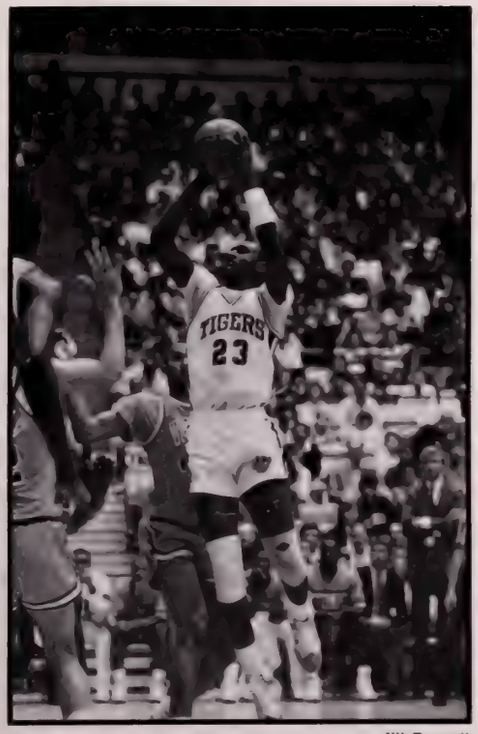
Basketball



Jill Russell

11 consecutive games. The game which broke this streak of losses was th 72-55 win over South Carolina State. From this game on the Lady Tigers' luck changed. They still turned in losses, but the games were hard fought and close. Some of the wins that the women claimed were against Maryland, Duke, and Wake Forest.

The individual statistics for the players were much more impressive than the overall team statistics. Karen Ann Jenkins and Nickey Lynch both made career high of 30 points in separate games. Jenkins, the mainstay of the Lady Tigers, was chosen as a co-ACC Player of the Week for February 16-21. During that week Jenkins averaged 24.5 points by hitting 63 percent of her field goals and averaged 7 rebounds. In the ACC, these impressive statistics placed her in the top ten in scoring, field goal percentage, and rebounding.

Nickey Lynch, a guard and forward for the women, was the most improved player of the 1986-87 season. In the 1985-86 season, it took Lynch 15 games to tally 68 points. In the season of 1986-87, she scored a total of 409 points in 27 games, averaging 15.1 points per game. As a reward to Lynch for her improvement, she also received the award of the co-ACC Player of the Week for February 2-7.

Some other key players for the Lady Tigers include Cheryl Nix, Louise Greenwood, and Renee Williams. Cheryl Nix was ranked as high as second in the ACC with a .827 free throw percent, and accumulated 53 steals for her team. Louise Greenwood, the 6-3

(upper right) Jerry Pryor, a 6'7" sophomore, (shown here scoring a jumper against Virginia at Littlejohn) has been a top scorer for the Tigers in five separate games.

Jill Russell

center for the women, was Clemson's top rebounder with an average of 8.9, a figure which placed her sixth in the ACC. The guard which accumulated the most assists was Renee Williams. Her efforts made her the highest assist person in 8 separate games.

The Lady Tigers came to life late in the season to give Coach Annie Tribble her 200th win with the women before her retirement at the end of the 1986-87 season. Tribble had coached for 20 years, 11 of which she spent at Clemson. Tribble accumulated many honors during her stay with the women, but the one title which escaped her was the ACC championship. The 1986-87 team came closer than the three previous teams by progressing past North Carolina State to the second round of semifinals only to lose to the University of North Carolina.

One of the best ways to become involved at Clemson was through its many organizations. From Accounting to Zoology, there was a group for every interest. Organizations provided career opportunities, a medium of expression through music or drama. But most of all, organizations were a great way to establish new friendships and have lots of fun, additional ways to help us step ahead.

Organizations Day

Johnny L. Wood

Rhonda Tuck

Rhonda Tuck

Johnny L. Wood

One of the first major events of fall semester was Organizations Day. Held during the first week in September, the day gave students a chance to see what the various clubs have to offer. Sponsored by Student Government, the day also gave organizations an opportunity to promote their activities and recruit new members.

This year, hundreds of students attended Organizations Day, which was held on Senior Walk. Over 75 clubs, ranging from the Frisbee Club to the Pre-Veterinary Club participated. Students watched demonstrations by several clubs, including the Fencing Club and the Physics Club, and sampled ice cream and cookies supplied by various organizations.

Although the skies had threatened to rain, the sun managed to shine all afternoon, helping to make Organizations Day '86 a great success!

PROFESSIONALS

The Agricultural Council consisted of representatives from all agricultural and biological clubs. The purpose of the Agricultural Council was to unite the College of Agriculture and to promote and direct all activities that involve the entire college. Annual events included the Agricultural Ball, the end-of-year cookout, Agricultural Careers Day and hat sales.

The Agricultural Economics Club was formed to promote and create fellowship among students in Agricultural Economics and to provide opportunities for extracurricular activities. During the year, the club went to Washington, D.C. and gained insight into the making of agricultural policy. The club also journeyed to Chicago to visit the Chicago Board of Trade and the Mercantile Exchange. The members sponsored a chicken barbeque for the Virginia Tech football game and held several social functions, including the annual Awards Banquet in the spring.

The American Institute of Architecture Students, in broadening the experience and education of each student in the College of Architecture, has assumed an active role in the sponsorship of lectures, films, and exhibits. The organization afforded the students the opportunity to meet and interact with other students and established professionals while serving as its student representative at the state and national levels. Activities of AIAS included publication of the Newsletter and Architecture Student Journal and attendance to the National Convention held each year. In response to greatly increased membership and enthusiasm towards AIAS in the past year, the club concentrated its funds and energies towards travel and upgrading the lecture series.

The objective of the American Institute of Chemical Engineers was to help acquaint students with the chemical engineering profession by offering a variety of professional programs and social functions. The fall semester began with a free "Welcome Back" picnic for

all chemical engineering students. Activities continued throughout the fall with speaker meetings on a variety of topics, a shrimp boil, an open house during Homecoming, and building a float for the First Friday Parade. Spring activities included a skiing trip, a pig roast, and a trip to the Southern Regional Conference, which was held last year in Baton Rouge, Louisiana. Members also participated in biannual meetings with the Western South Carolina Section of the AIChE. In recognition of the outstanding performance of the Clemson AIChE student chapter, they received one of the National AIChE Awards of Excellence.

The American Production and Inventory Control Society was a dedicated group of men and women practicing the art and science of production and inventory management. The student chapter was aimed at making students aware of what was happening in these fields and relating it to their studies at the university. APICS was the primary source for information on the latest innovations which made the production and inventory management field more productive. This information was distributed through quarterly journals, monthly magazines, seminars, and newsletters. Members kept updated in this field by receiving all publishings of APICS and attending seminars and monthly meetings. The meetings included spe-

cial guest speakers and group discussions of student ideas which allowed its members an excellent chance to learn and make business contacts at the same time. Members also competed for scholarships through essay contests for production and inventory control.

The American Society for Personnel Administration was the national organization for Personnel Administrators. The purpose of the student ASPA chapter was to broaden its members' understanding of the business and professional world and to establish and develop contacts with professional personnel and other executives, managers and labor officials.

The Biochemistry Club was organized in 1975 for students interested in the field of Biochemistry. The club sponsored several guest lecturers throughout the year in order to expose students to different aspects of Biochemistry. Members explored various job opportunities and learned about the progress in the field. The club visited the National Institute of Health in Washington D.C. and enjoyed a spring picnic at the Outdoor Lab.

One of the largest organizations on campus, the Block and Bridle Club was part of the Animal Science Department and devoted to furthering Animal Agriculture. The club took part in many activities on campus including First Friday Parade, Organizations Day and Agricultural Careers Day. Throughout the year, mem-

bers helped with many cattle shows and sales by clipping and washing cattle, running the sales ring and serving large beef lunches. Block and Bridle hosted a fall horse show and the Little North American Livestock Showmanship and Judging Contest in the spring. The Clemson University Livestock Judging Team and the Equestrian Team, which were sponsored by the club, competed at regional and national contests. At the annual Spring Banquet, a Workhorse Award was given to an outstanding freshman, plus two junior scholarships and an outstanding senior award.

The Constructor's Guild was an umbrella organization composed mostly of building science and management students. Suborganizations in the Guild included four professional organizations: American Institute of Contractors, Associated General Contractors, National Association of Home Builders and Construction Management Association of America.

Annual activities included a fall picnic and a spring awards banquet. The banquet, which was an all day affair, began with a construction-related activity in the morning and included sports in the afternoon. Individual suborganizations sponsored meetings throughout the year, bringing professionals from the industry to share their insights.

On March 9, 1981, the

ership development opportunities for a wider range of college students, who were previously involved in high school FFA.

Since its inception, CCFFA has promoted leadership in many ways. One activity the group has involved itself in is interaction with off-campus civic groups. A slide show supported group of FFA'ers readied themselves to speak to groups about agriculture and FFA. CCFFA also conducted fundraisers, including the annual barbecue sale at a Clemson football game.

CCFFA welcomed members from all of Clemson's colleges and encouraged all students to find out more about the club.

formed in the United States. Immediately after the formation of the Microbiology Major Curriculum, a group of approximately 20 undergraduates formed the Microbiology Society. They drew up a constitution, petitioned the S.C. Branch of the American Society for Microbiology and were recognized nationally in 1970.

Meetings twice a month allowed a wide variety of programs including seminars given by both faculty and guest speakers and tours of many research laboratories. Field trips included tours of the Department of Health and Environmental Control, the Human Genetics Lab, the Yerkes Research Center, and many others. The Society has awarded the Microbiology Society Award annually since 1975.

Phi Gamma Nu was founded in 1924 at Northwestern University. The members of Phi Gamma Nu fostered the study of business in colleges and universities, while promoting professional competency in the field of business.

Membership is open to all business majors who maintained a 2.0 GPR and completed the pledge season. Through such events as business and faculty speakers, National Association of Accounting meetings and Regional Business Chapter meetings, members strove to learn about business. Honorary

Alpha Epsilon Delta was a national honor society that recognized high scholastic achievement and offered its members an outstanding pre-medical education. The main objective was to encourage excellence in scholarship, high personal standard and to promote cooperation and contacts between pre-medical students and educators.

The honor fraternity was a member of the Association of College Honor Societies and was an affiliated society of the American Association for the Advancement of Science. Alpha Epsilon Delta was founded on April 28, 1926 at the University of Alabama. Through such events as medical and faculty speakers and field trips to various medical universities, members strove to learn as much as they could about the study of medicine. Subjects of interest and concern to pre-medical students were discussed at meetings. Other activities included the annual picnic and various fund-raisers.

Membership was open to those students that have completed at least three semesters of pre-medical work and a cummulative science GPR of 3.0.

The Kappa Chapter of Alpha Tau Alpha began with the purpose of developing a true professional spirit in teaching agriculture. Actively affiliated with the national organization, Alpha Tau Alpha fostered a fraternal spirit among students in teacher training for vocational agriculture.

To qualify for membership, a sophomore must have a cumulative GPR of at least 3.0, a junior 2.75 and a senior 2.5. A three-fourths majority vote by the membership was also required for membership.

ATA participated in several projects — all aimed at improved teacher and community competencies. This year the group was involved in a project to record textbooks on audio tape for the blind. They also launched a

new program for Clemson logo balloon sales at football games. In addition, the membership held a small wooden projects sale for the school community in the fall.

The Zeta Rho Chapter of Beta Alpha Psi, the national accounting honor fraternity, was founded in 1982. The officers were elected every semester. The chapter was involved in supporting social functions as well as fraternal, professional and educational activities. The club visited CPA firms, offered tutoring for Accounting classes and sponsored a VITA program to assist people with their tax returns.

The basic requirements for joining the chapter included an overall GPR of 3.0 with a 3.2 in accounting, junior standing, declaration of accounting as a major and completing of at least nine hours in accounting, three hours of which should be Accounting 301.

The Clemson Chapter of Chi Epsilon, the national

Civil Engineering honor fraternity, was founded in 1974. To be eligible for Chi Epsilon, a student must be a junior or senior in the top one-third of their class.

The members published "Chi Epsilon News," a newsletter highlighting the students, faculty and alumni of Chi Epsilon and the Civil Engineering department. Other annual projects included the Spring Initiation Banquet, the Homecoming picnic and various community projects. This year the chapter worked on the design of a pedestrian bridge to be constructed in the mountains of upper Greenville County as well as the design and construction of playground equipment for married student housing.

Golden Key was a national academic honors organization dedicated to excellence. The purposes of the society were to recognize and encourage scholastic achievement and excellence in all undergraduate fields of study, to provide economic assistance with scholarships and to unite collegiate faculties and administrators in developing high standards of education. New on campus, Golden Key began promoting academic excellence by tutoring fellow students.

Keramos was the honor fraternity for the Ceramic Industry and Ceramic College at Clemson. The oldest professional fraternity in the country, Clemson's chapter was chartered January 10, 1958. Members of Keramos participated in many activi-

ties including service to Alumni, fund-raisers, tutoring and attending the National Ceramic Convention. They also had a great time at various parties on campus and at their Advisor's house.

Mu Beta Psi, Honorary Musical Fraternity, was chartered in 1937 at Clemson College, making this the 50th anniversary of the fraternity at this campus. The fraternity promoted better fellowship among musicians of the various musical groups in a college and among the musicians of different schools. For many years, Mu Beta Psi was all male, but in the mid-1970's, the chapter merged with Psi Mu Psi, a music sorority.

To become a member, a candidate must have completed two semesters of band, chorus or Gospel Choir and have been nominated by his/her respective director. Major projects for this year included Singing Valentines and the annual Talent Show. As always, the brothers also helped the Music Department by ushering for the University Concert Series.

Pi Mu Epsilon was an active organization whose purpose was the promotion of scholarly activity in mathematics. It was incorporated in 1914 under the laws of the State of New York, and the Clemson Chapter was founded in 1973.

Undergraduates achieving at least a B average in mathematics after two years, graduates maintaining a B average, and faculty members of mathematics were distinguished by invitation to membership into Pi Mu Epsilon. The average GPR of this year's initiates was 3.66. Activities included contributions to Science Day, the Freshman Math Award, attending the Math Association of America's National Convention, the annual Induction Ceremony and socials to promote faculty-student and fraternal unity.

al Honorary Mechanical Engineering Fraternity, was established on the Clemson campus on September 10, 1984. The main objectives of the fraternity were to foster high ideals in the engineering profession, to stimulate and support departmental activities, to promote professional welfare and to develop leadership and citizenship.

The chapter sponsored several informal cookouts to help the members get to know the faculty better. Pi Tau Sigma produced a departmental newsletter which was sent to the department's alumni and sponsored a banquet each semester. The Clemson chapter also nominated an outstanding professor of Mechanical Engineering.

The Clemson University Chapter of Psi Chi, the National Honor Society in Psychology, was founded in 1975 thanks largely to the efforts of Professor David J. Senn. Psi Chi was an affiliate of the American Psychological Association and a member of the Association of College Honor Societies.

The purpose of Psi Chi was to advance the science of psychology and to encourage, stimulate and maintain scholarship of the individual members in all fields, particularly in psychology. In addition to honoring academic achievement, Psi Chi strove to create a congenial climate for the creative development of the discipline for all members of the campus community. To this end, lectures, colloquia, films, panel discussions, field trips, demonstrations and research awards were sponsored by the chapter.

In order to qualify for membership in Psi Chi, an individual must maintain an overall GPR of at least 3.0, must maintain an overall average in psychology courses of 3.0, must be either a psychology major or minor, and must have completed at least six hours and be enrolled in at least three addi-

tional hours of psychology courses.

The Gamma Tau chapter of Sigma Tau Delta National Honor Society was formed during the 1985 spring semester. The society was open to English majors and minors, and English education majors who are second semester sophomores or beyond. Students must be in the top third of their class and must maintain at least a B average in their English courses. Membership eligibility was also extended to graduate students in English and English faculty members.

The main goals of the society were to honor undergraduate students who excel in English and to spread appreciation for literature among students and the entire community. Activities included publicly reading Shakespeare's sonnets on

his birthday, supporting the efforts of the Clemson Players, inviting lecturers to campus, participating in various reader's theaters, producing a literary magazine, and attending area dinner-theater productions. The society's motto — "Sincerity, Truth, and Design" — exemplified the components in literature that the members of Sigma Tau Delta found valuable.

Sigma Tau Epsilon was an honor society for juniors and seniors majoring in the College of Liberal Arts and the College of Sciences with a GPR of 3.2 or higher. The society was established in 1934 for the purpose of developing high standards of scholarship and character and for promoting a spirit of fellowship among its members. Since 1969, Sigma Tau Epsilon has held weekly tutoring sessions in an effort to help fellow students in various academic disciplines.

Tau Beta Pi, the only National Engineering Honor Society, was founded in 1885 at Lehigh University to recognize those engineering students who have distinguished themselves both academically and with their exemplary character. The Tau Beta Pi chapter at Clemson, the South Carolina Alpha Chapter, was one of 195 chapters nationally.

Chapter activities included free tutoring in the areas of physics, chemistry, calculus, and mechanics for freshmen and sophomores, an EIT sack lunch and review sessions for the EIT, "The Great Book Giveaway," and a mixer for new members in the Alumni Center. Tau Beta Pi presented awards to the outstanding sophomore and senior within the College of Engineering. The Clemson Chapter also participated in a "Trick or Treat" for UNICEF and the "Helping Hands Home" in Six Mile.

Tiger Brotherhood was an honorary service fraternity restricted to individuals of high morals and character dedicated to the betterment of Clemson University. The most selective service organization on campus, this club united the most outstanding students, faculty, alumni and community members to better Clemson University.

One of the oldest and most respected organizations on campus, Tiger Brotherhood was founded in 1929. Over its fifty-seven year history, Tiger Brotherhood accomplished many goals, such as forming the first "Student Government", donating the tiger statue in front of LittleJohn Coliseum and the future development of Trustee Park along Highway 93. Annual projects included Clemson's "Mother of the Year" Award, the March of Dimes Casino party in Greenville and helping with the South Carolina Commission of Agriculture and Aquaculture exhibition in Columbia.

Media

Although having experienced periods of non-publication, *Chronicle* was Clemson's oldest medium. The University's official variety and literary magazine, *Chronicle's* purpose was to provide a creative outlet for Clemson students. Publisheds once each semestery, *Chronicle* was a means of artistic expression and afforded exposure to the world of publiction.

TAPS, the official yearbook of Clemson University, was published by the Jostens Yearbook Company. Although the staff was mostly new and inexperienced, they learned quickly and managed to meet all of the deadlines. A workshop sponsored by Jostens came to Clemson early during the fall semester to help the staff develop ideas for each section. Over Fall Break, the staff visited the Jostens plant near Nashville, TN to tour the plant and design the cover.

TAPS held a Drop-In at the beginning of each semester to solicit new members. A First Friday party and a Christmas party gave the staff a chance to relax. During spring semester, the Senior Staff attended a yearbook conference in New York City. The year concluded with the annual banquet and the election of a new Senior Staff.

The Tiger went into print in 1907 as the first college newspaper the state had provided. The staff of that early paper had two goals. One was to fulfill the idea of a

college newspaper. The first issue, published on January 21, was a "financial success" in that it helped pay for *TAPS* that year through its subscription rates.

In the 80 years since, many changes have come about. Emphasis shifted from keeping alumni informed to being a source of information for all people connected with the campus.

World War II was a low point for *The Tiger*. The size and production schedule was erratic. Only 10 names appeared as staff members for the October 7, 1943 issue and none as editor.

Since then, *The Tiger* has been on the rise. The Associate Collegiate Press has awarded *The Tiger* more than 35 Five-Star All-American ratings and has several times named *The Tiger* the best collegiate newspaper in the state.

Clemson's student radio station, WSBF-FM, broadcasted as 88.1 MHz with 1000 watts of power. Operated by a student staff, WSBF offered alternative programming with a variety of music types including jazz, soul, blues, classical, reggae and heavy metal. WSBF placed emphasis upon exposure for new artists, smaller record labels, public service programming and anything affecting the Clemson campus. The student staff, totally responsible for programming content, operated under FCC regulations including restrictions of the airing of commercials or political opinion and the use of obscenity.

Sport and Hobby

The Amateur Radio Club began as a military MARS station, providing message service from military personnel all over the world to their families in the United States. The club was originally located in an old army building where Cook Laboratory now stands and its call sign was W4ZUK, now WD4EOG. The club has moved several times over the years, starting from the army building, to the basement of Kinard, to Godfrey Hall, and to its new location atop Water Tank Hill, across from the fire station. The club has also changed over the years from the MARS station to the Amateur Radio station it is today.

The club offered many modes of communication on all the popular "Ham" bands. The club operated on 160 through 2 meters, using either Single Sideband Voice, Frequency Modulated Voice, Radioteletype, Radiotelegraph and Slow Scan Television communications. The club also offered Novice classes so that those who are currently not "Hams" can become licensed. The club offered help to the community when natural emergencies arose or when organizations needed free and reliable communications for specific events. Free telegraph service was also available to all faculty and students to anywhere in the United States.

The Amateur Radio Club was open to everyone, Hams and Non-Hams, students and non-students. The Amateur

Sport and Hobby

In its first few years, the club drew most of its membership from the class offered by the university, and most of the fencers concentrated on the foil. The class has not been offered for the past two years, so the club has drawn members by giving demonstrations to arouse interest and by offering instruction. Some members began training in the epee and sabre, so that, for the first time since 1982, the Clemson Fencers could bring an entire team composed of three foil, three epee and three sabre fencers to matches. Several members earned rankings. The club hoped to continue to grow through increased student interest in the art of fencing.

Started in the spring of 1976, the Clemson Lacrosse Club was a member of the United States Intercollegiate Lacrosse Association. Although Lacrosse was a spring sport, the team attended a tournament in the fall. The Lacrosse Club played 11 games in the spring against such teams as USC, Georgia Tech, UGA, Atlanta Lacrosse Club and Davidson. Home games were played on the lacrosse field beside the rugby field. The season climaxed with a fan appreciation night. The team has had winning seasons for the past four years. Anyone could join the Lacrosse Club and previous playing experience, although helpful, was not required.

Variety

Collegiate Big Sisters was a non-profit service organization that was founded at the University in 1983. The organization worked with underprivileged young girls in the community who were in need of special attention. Each member was paired up with a "little sister" who was betwen the ages of eight and thirteen. Group activities included roller skating, movie nights, picnics and a trip to the zoo. The organization also had a bake sale for MS. Interviews for membership were held in the fall.

Gamma Sigma Sigma, a national service sorority, was founded nationally in 1952 and at Clemson in 1969. Based on friendship, service and equality, all college women were eligible for membership. The sorority's major projects included a 64-hour Rock-A-Thon for the American Cancer Society and a 10 kilometer Walk-A-Thon for the March of Dimes. There were several smaller projects throughout each semester, such as visiting Miracle Hill and Helping Hands children's home.

Central Dance and Concert Committee, sponsored by the University Union was formed when two campus committees merged several years ago to provide concerts on campus. The committee sponsored shows in Tillman Auditorium, Edgar's Entertainment Center, Little-John Coliseum, as well as outdoor shows. Responsibilities of Committee members included booking the acts and providing technical assistance, stage crew, security and hospitality the day of the show. The main purpose of the Committee was to provide quality entertainment for the students of Clemson University.

The Clemson University Residence Hall Association, formerly known as Interdormitory Council, consisted of the presidents and vice-presidents of all university residence hall councils including Calhoun Courts and Thornhill Village. CURHA was advised and financed by the Housing Office in Mell Hall and was charged with the responsibility of providing educational, social, recreational and charitable programs for resident students. Additional purposes included supplying input to the Student Senate via the Senate Housing Committee, as well as acting as a liasion between Administration, the Office of Student Life and the students. CURHA was also a member of the student body vice-president's Executive Committee.

The South Carolina Student Legislature met with

students from other colleges and universities from the state in Columbia during the fall semester. They formed a working model of the state legislature in which they wrote and debated bills in order to gain a better understanding of how the state government in South Carolina operates. Students from any major were welcomed and earned an hour credit for participating. Interviews for membership were held in the fall.

The Student Alumni Council at Clemson University was formed because the Alumni National Council wanted to better serve and attract the growing number of young alumni. Since its first meeting in January 1973, the SAC has become an active and influential campus organization. The SAC sponsored a variety of programs and services for the faculty, staff and students of Clemson University.

The SAC was comprised of 38 student members who represented the same 19 districts across the United States as the Alumni National Council and the Young Alumni Council. The SAC assisted in the fund-raising efforts of the Loyalty Fund and served as hosts at many University functions including Orange Carpet Day. The SAC also sponsored the Master Teacher Award and the Father of the Year Award and organized the second annual Welcome Back Festival on College Avenue.

The Clemson University Tour Guides were a volunteer organization sponsored by the Clemson University Visitors Center. As official hosts of Clemson, the purpose of Tour Guide program was to provide tours and other related services which promote pride and an increased understanding of Clemson University and its many functions to the people of South Carolina and the many other visitors to the campus.

The Tour Guides conducted campus walking tours three times a day, seven days a week for prospective students as well as van tours for campus conferences and seminars. They also assisted at various lectures and Orange Carpet Day.

The University Union grew out of the Holtzendorff YMCA on campus. The University Union building opened in 1975 and the Union Board began programming for students. The programs were designed by the students to meet the social, cultural and recreational needs of Clemson students. The Union was comprised of ten comittees which had a total membership of approximately 300 student volunteers.

An average of 700 programs were organized each semester. These programs ranged from mainstage shows like George Burns and David Lee Roth to movies in the YMCA, a Performing Artist series, a variety of shortcourses such as scuba diving and shagging, football excursions, snow skiing trips, outdoor recreational trips including rafting and horseback riding, and many other exciting programs. The University Union offered the students a variety of programs to take advantage of during their stay at Clemson University.

Fine arts

The Clemson Dancers was a recognized organization open to anyone interested in the dance medium. The purpose of the club was to introduce and broaden the skills of dance students through practice and mutual assistance and to further heighten interest in dance.

Monthly meetings were held to inform members of activities planned by the Dancers. Some of these activities included attending dance conventions in Myrtle Beach, sponsoring guest artists, attending dance related events as a group, electing a representative to the Homecoming pageant, and encouraging participation in the dance classes offered at Fike.

As a service to the University, the Clemson Dancers provided free dance classes of all levels in jazz, tap, and ballet. These classes were open to anyone with an activities card or a membership to Fike. The Kinetic Theater was the performing part of the Clemson Dancers. New members were chosen in September and they worked hard to prepare for fall performances and classes at Fike.

The Clemson Players have established a tradition of quality theatre over the past twenty-five years. They made their home in the "Green Room" in Daniel Hall and in the Daniel Auditorium and in the Daniel Annex.

The Players presented two full-scale productions each semester and two each summer. Their repertoire in-

cluded everything from musical comedies to the classics to surrealistic absurd theatre. Recent emphasis was on original works including *A Killing Frost* by Robin Roberts, *Yellow Dog Crossing* by Tom Evans, and *Les Voyuers* and *Gargoyles,* two one-act plays by Leslie A. Wade which were entered in the American College Theatre Festival this year.

In recent years, the Clemson Players have received national recognition for the excellence of their work. Advanced at the state level in the ACTF competition for three straight years, they were one of six university companies in the country invited to perform at the Kennedy Center for the Performing Arts in 1984.

The Clemson Players were open to everyone for performances, meetings and auditions; there was not requirements or dues for membership. Students, faculty, staff and others participated in and attended these outstanding performances.

The most audible, if not the most visible organization on campus was Tiger Band. This musical ensemble performed at all Tiger football games, the annual First Friday Parade, pep rallies and Tigerama. Tiger Band was offered as a one hour credit under the course heading of MUSIC 361.

Led by Drum Majors Jim McKenrick and Billy Baker, and under the auspices of band director Dr. Bruce F. Cook and assistant director Dr. Richard Goodstein, Tiger

Spirit

The Bengal Babes were a group of females who assisted with football recruiting. They served as hostesses for prospective football players by giving campus tours.

Clemson's Block "C" Club, an organization for varsity lettermen, consisted of approximately 120 athletes. Any athlete who earned a varsity letter and completed the initiation was eligible for membership. The members participated in many social activities, including post-game drop-ins, a fall ball, a spring banquet and an oyster roast.

Block "C" sponsored several fundraisers throughout the year such as football program sales, spring game concessions and Tiger Rag sales. Because of the success of their fundraising activities, the club was able to contribute $1000 to the Athletic Department and also to the Loyalty Fund. They also purchased a stereo for the Letterman's Room and planned to purchase a big screen TV. With much help from the Athletic Department and other organizations, Block "C" sponsored Special Olympics as a service project.

With a membership of nearly 200, Central Spirit coordinated many activities to promote school spirit. Traditional activities included pep rallies, balloons, Tiger Paw painting and T-shirt sales. Central Spirit participated in the First Friday Parade, administrated the Homecoming displays and organized Orange Day USA for the

North Carolina football game. Members distributed orange shakers to all Clemson fans as they entered the stadium. They unrolled what was probably the world's largest Tiger Paw Flag across the football field during the halftime show.

The cheerleaders helped to promote school spirit at all Clemson athletic events, pep rallies, First Friday Parade, Tigerama and other events. Tryouts were held in the spring.

The Rally Cats provided entertainment during halftime at basketball games. They also performed at many other functions including Tigerama and the Miss Clemson Pageant.

The Sixth Man Club, which was also known as the Basketball Pep Club, supported the basketball teams by painting banners to advertise each game. They helped to raise spirit at all home games.

Another group that supported the basktball team was the Tiger Belles. These girls served as hostesses for prospective basketball players while they visited the Clemson campus.

MILITARY

A national, professional, and honorary military service organization, Arnold Air Society worked within the Air Force ROTC program to provide opportunities for greater interaction among collegiate level Air Force Officer candidates.

Membership in Arnold Air was open to any cadet enrolled in AFROTC who successfully completed the pledge program. Arnold Air members worked with many service projects including sponsoring a blood drive each semester in conjunction with the Carolina-Georgia Blood Center, Girl Scout Derby Day to help local scouts earn their Aerospace Badge, a ball run each year to raise money for charity, and frequent visits to the Helping Hands Home for abused children. The squadron also held an annual Art Auction to benefit this home. Arnold Air members were active in securing awareness for the still unresolved POW/MIA issue.

The Major Rudolf Anderson, Jr. Squadron won numerous awards this past year. These included the Colonel George Robert Hall Freedom Cup for best support of POW/MIA awareness program, the Eagle Award for best civic service, and the Lemay-Ohio Award for best support of local Air Force Association Chapter. The squadron also received the highest award given nationally — the Maryland Cup for the Outstanding Large Squadron in the Nation.

Formed in 1939, Pershing Rifles Company C-4 was a combination of both Army and Air Force ROTC cadets and civilians. At the beginning of the year, they provided the colorguard for the inauguration of the new president and for the First Friday Parade. During both football and basketball seasons, they served as ushers and the colorguard for the pregame show. They marched in many parades and performed special sabre performances upon request. Their hard work prepared them for the Mardi Gras parade in which they participated in the spring.

MILITARY

Air Force ROTC first came to Clemson in 1948 when the university was still a military college. This strong military tradition is reflected in the outstanding group of cadets currently enrolled in ROTC.

Students joined the Air Force ROTC program in order to earn a commission in the U.S. Air Force. ROTC offered pilot and navigator slots to qualified individuals, as well as provided an opportunity to get 4 year, 3 year, or 2 year scholarships.

Freshman and sophomore cadets made up the GMC (General Military Corps). They attended a one hour Air Force class every week and marched on Bowman Field every Thursday afternoon. These cadets were under no obligation to serve in the military after graduation.

Between the sophomore and junior years, all cadets attended a month long training camp, which was a lot of hard work, but worth it. At this point, they were either

The correct procedure for addressing the "grog bowl" includes saluting, then drinking down every drop of the nasty concoction.

Recent graduate Carlos Hill inspects Cadet Harry Lane as Dennis Dinge records the results.

All photos by Harold Elrod

Jenny Little and Molly Flynn show that the Air Force isn't made up of only men with very short haircuts.

Seniors James Owens, Tim Hill, Donnie Garrison, Paul Farkas, Jeff Hill and Brad McCoy enjoy a good time at Dining Out.

(far left) Alpha Flight demonstrates sophomore know-how as they march in step on Bowman Field.

accepted or denied into the POC (Professional Officer Corps). In the POC, cadets attended classes three times a week and were assigned a job in the leadership lab — no more marching! The government paid POC cadets $100 a month for being on contract. Then, when the students graduated from college, they were given the rank of 2nd Lieutenants and served in the Air Force for a minimum of four years.

There were many different aspects to being a member of Air Force ROTC. Cadets must be fit physically as well as mentally. There were maximum weight standards, minimum 1.5 mile run times and flight sports competitions, in addition to regular class work. Air Force ROTC was also a great way to make friends through organizations such as Arnold Air Society, Angel Flight, Scabbard and Blade, Pershing Rifles and Officers Christian Fellowship. There were social events every semester such as Dining Out, Military Ball and informal corps get-togethers. ROTC was a lot of fun, a lot of work and a great career opportunity for those who took advantage of it.

Each Greek organization was given the opportunity to cover the costs of publication, so that they could appear in TAPS 1986-87. The location and dress of the members were left entirely up to each fraternity or sorority allowing for each picture to reflect something about the personality of the organization. Special Greek events such as Mr. Greek, Derby Day, and Anchor Splash were also featured since they added to the fun of Greek life and provided many memories for all involved.

Panhellenic

Front row: Andrea Thompson (Tres.), Mary Lloyd Lovelace (Sec.), Karen Johnson (Pres.), Nancy Wolfe (Vice Pres.), Margie Geisler (Historian), Anne Perkins; Row 2: Amy Mendenhall, Susan Strauts, Cathy Harrell, Julie Lesley, Roseanne Woodham, Jennifer Parker; Row 3: Kathy Junk, Maria Farry, Sandy Claghorn, Paulette Warren, Betsy Camacho; Row 4: Roseanne Little, Weesie Gaston, Susan D'Angelo, Katherine DuRant

The Panhellenic Council was the common link between the nine women's sororities on campus and was comprised of the President and two delegates from each group. The largest undertaking of Panhellenic Council was sorority rush held each fall. Throughout the year, however, Panhellenic was also very active in providing scholastic recognition, social functions and service projects for Greeks.

The Junior Panhellenic Council, comprised of the President and two delegates from each sorority's pledge class, introduced Panhellenic spirit to the new Greek members. A Panhellenic Pledging ceremony was given for the pledge classes, as well as a bonfire and dinner so that pledges from different soririte could meet each other.

Panhellenic spirit kept Greek women working together to be the best that they could be!

The Theta Lambda Chapter of Alpha Chi Omega worked hard in their second year on campus. At the beginning of the year, the First Friday parade gave plenty of opportunities for the new pledges and sisters to get aquainted. Many long nights were spent laboring over the float which was entitled "Soup's On" in honor of the general parade theme of "A Clemson Thanksgiving".

The next big event for the Alpha Chis was their Capture Cruise. They kidnapped their dates and took them to Stone Mountain, Georgia, where they took a riverboat cruise around the lake. Other events of the year included the Red Carnation Ball, Derby Day, Dixie Day, and the second annual Alpha Chi Omega Frisbee Golf Tournament in the spring. The money raised by the tournament went to their major philanthropy, the Cystic Fibrosis Foundation.

The Zeta Nu chapter of Alpha Delta Pi began their 10th year with much excitement. They raised money for the Ronald McDonald House by holding their annual Teeter Tooter Marathon. Working with the community was important to these young ladies. They shared both their time and love by visiting with senior citizens and working with Meal on Wheels.

Maintaining a high chapter GPR was also important to the sorority. Several sisters were members of both Mortar Board and honorary fraternities.

Even though academics were stressed, ADPis knew how to have fun. Derby Day was special to the chapter this year since the winning trophy was dedicated to a fellow sister, Amy Cartledge. The school year was highlighted with mixers, a Sadie Hawkins party, a Christmas party at the Punchline in Greenville, and a formal which was held at Encore's in Greenville.

Alpha Gamma Rho is a national social-professional fraternity for men studying in any of the agricultural or biological sciences. AGR builds better men through participation in a variety of fraternity and campus activities. AGR's were involved in many campus organizations as well as holding leadership positions in clubs of the College of Agriculture.

Alpha Gamma Rho actively participated in First Friday Parade and Homecoming displays with continued success in each category. Extracurricular activities in the spring included the annual Spring Fling Barbecue, Mudvolleyball Tournament, Pink Rose Formal, and Sun Break at the end of the semester.

Striving for academic achievement, Alpha Gamma Rho had the highest grade point ratio among the fraternities on campus for the past two years. The brothers of Alpha Gamma Rho took pride in their work and accomplishments and hope their association with Clemson and the Greek System will continue to grow in the future.

Alpha Phi Alpha Fraternity, Inc., the first intercollegiate greek letter fraternity established for black students, was organized at Cornell University, Ithaca, New York, in 1906. The first unit of this national fraternity, organized by men of Afro-American descent, was called "Alpha Chapter." Alpha Phi Alpha fraternity was born out of the desire for maintaining close association and unified support for members of this small minority group, inasmuch as they were denied, for the most part, the mutual helpfulness which the majority of students attending their university regularly enjoyed. The seven visionary founders at Cornell were: Henry Arther Callis, M.D., Charles Henry Chapman, Eugene K. Jones, George B. Kelley, Nathaniel A. Murray, Robert H. Ogle, and Vertner W. Tandy. These men labored in the years of severe economic struggle and racial conflict in the United States. Despite their difficulties of organization in this untried field of student life, the early fraternity pioneers succeeded in laying a firm foundation and remained steadfast in their goals pointing toward development of the fraternity membership — that is espousing the principles of good character, sound scholarship, fellowship, and the uplifting of humanity, especially the struggling Black minority in the United States.

The Fraternity has grown steadily in influence throughout the years. It integrated it's racial membership in 1945 and it has expanded mightily to the extent that are now approximately 750 chapters located throughout the U.S., Caribbean Islands, Africa, Asia, Europe, and the West Indies.

Gamma Lambda Chapter of Alpha Phi Omega National Service Fraternity was chartered Oct. 6, 1940, making it one of Clemson's oldest Greek-letter organizations. Founded in 1925 as a collegiate extension in Scouting, Alpha Phi Omega remains committed to the ideals embodied in the Scout Oath and Law. Scouting affiliation is no longer required for membership, however, and the fraternity prides itself on the diversity of its Brotherhood and the variety of its activities. The purpose of Alpha Phi Omega is to develop leadership, promote friendship and provide service. in working to fulfill it's purpose, the fraternity recognizes four "worlds of service": the campus, youth and the community, the nation, and the fraternity itself.

Clemson APOs have opportunities to develop and improve their leadership skills through service in chapter and committee offices. The chapter also encourages its members to be active in other campus leadership roles and to attend sectional regional and national fraternity workshops, conferences and conventions. During the early part of each spring semester, the chapter holds a weekend retreat devoted to leadership development and goal setting. Additionally, APO leads and coordinates Clemson's participation in an annual blood drive competition with the University of South Carolina.

APO was active in major campus social events, such as the First Friday parade and Homecoming, and provided judges for the Interfraternity Council's Greek Games in the spring. APO's social and fellowship activities range from mixers with sororities to brother-pledge football games to awards banquets and parties.

The distinguishing quality of Alpha Phi Omega as a brotherhood is dedication to service shared by its members. They voluntarily devote countless hours of their personal time each semester to projects and programs designed to meet the needs of others. Activities range from spending time with physically impaired children who need individual attention and friendship to raising money (by running to Anderson wearing diapers!) for the fight against arthritis. The APOs took on a new youth-and-community project when they became university liason for a group of Daniel High School students working to educate young people and their parents about drug abuse.

The philosophy of Alpha Phi Omega is summarized in the fraternity's motto: "Be a leader. Be a friend. Be of service." The brothers and pledges of Gamma Lambda Chapter are committed to putting that motto into practice at Clemson University.

APO's Charles Costner takes it off for his talent in the Mr. Greek competition. Costner placed second place for the APOs.

The Eta Pi Chapter of Alpha Tau Omega was once again very involved in many activities on campus. The Alpha Tau Omega Tiger Paw calendar, featuring 12 beautiful Clemson coeds, was very popular again. The ATOs also kept busy by placing 2nd overall in Homecoming Week. The brothers continued to be very involved with many service projects to help less fortunate people.

The school year was highlighted by parties on football weekends, mixers, pre-game cookouts, Rush Week and Greek Week. The ATO's beautiful Little Sisters supported them throughout the year and were always around to help out. The brothers ended the year with their annual Founder's Day Formal and a trip to Myrtle Beach to celebrate the school years end.

Chi Omega has been an integral part of the Clemson system since March 1970. Nationwide, Chi Omega was the largest sorority with 172 active chapters.

Psi Kappa chapter of Chi Omega prides itself in the diversity of its members whose activities include all aspects of collegiate life-honor and professional organizations, student government, SAC, Central Spirit, fraternity little sisters, and sweethearts.

Chi Omegas were also very involved in community service. They assisted with many March of Dimes functions, a Tub-a-Thon for muscular dystrophy with the Sigma Alpha Epsilon fraternity, visited the children of Collins Childrens Home, and held an Easter egg hunt for the children of the Clemson Child Development Center.

The members of Chi Omega were proud of their achievements during the year. Chi O exceled in many campus activities such as Tigerama, Dixie Day, and the float competition on first Friday and Homecoming.

The Brothers of Alpha Chi Delta of Chi Psi Fraternity continued in their tradition of excellence this year. Chi Psi produced a pledge class ranked second among fraternities in academics, and all members were encouraged to achieve their full potential scholastically. Chi Psi fielded successful teams in all Intramural and IFC sports. The fraternity also strengthened relations with Chi Psis at USC, Georgia Tech, and the newest Chi Psi chapter at Wake Forest.

The social calendar was topped with the Spring formal and quite a few "Tiger victory" celebrations. The Homecoming party was to be remembered since it honored the third consecutive still display victory — a feat unmatched in Clemson Homecoming history.

A first place in last year's still display, Tigerama, Greek Week, athletics, and academic achievements were included in Chi Psi's active year.

The Beta Theta chapter of Delta Delta Delta has been on the Clemson campus since 1970. With 120 sisters and 50 pledges, they were the largest sorority on campus.

In the fall, Tri-Delta was the overall winner in the First Friday Parade float competition. Tri-Delta also participated in Tigerama 1986. Other activities were the Pledge Formal, Dixie Day, and Derby Day.

For their philanthropy project, Tri-Delts had continued success with the Superdance, which they sponsored with Pi Kappa Alpha. All proceeds went to Muscular Dystrophy.

Delta Gamma was founded in 1873 on the basis of sisterhood and high ideals. Today with over 100 collegiate chapters throughout the United States and Canada Delta Gamma is recognized as an outstanding leader among women's organizations. The Epsilon Kappa Chapter of Delta Gamma was chartered at Clemson in 1981. The strong tradition of excellence continues.

Both on campus and in the community, the DG's showed their spirit of service. They participated in a Fun Day at Rocky Bottom Camp for the blind and held vision screening booths. In November they held their fifth annual Anchor Splash. In the spring semester they sponsored their Spring for Sight. Both events brought in funds for their philanthropies Sight Conservation, Grants and Loans, and Aid to the Blind.

Campus involvement was vital as always. Delta Gamma participated actively in First Friday Parade, Derby Day, and Dixie Day. Their social functions included the Pledge Ball, a Mix-Match Party, a formal, the Founders Day Celebration, and the Heartless Hannan Luau. The sisters of Delta Gamma supported Clemson University through their involvement in a wide range of campus organizations and activities including honorary groups, service organizations, student government, business fraternities, and social groups.

Delta Sigma Theta, a public service sorority, was founded in 1913 on the deals of sisterhood, public service, and scholarship. Nationally the major projects were based on educational and economic development, community and international involvement, housing and urban projects, and mental health.

The Omicron Phi Chapter at Clemson, chartered May 5, 1983, worked to uphold these programatic thrusts with such programs as the Delta Sweetheart Pageant to help fight sickle cell anemia, the Hallowen carnival for community children, SAT tutoring sessions, and child safe day.

The Kappa Alpha Order involved itself in a wide variety of activities this year. Highlights included Fall and Spring Rush, Homecoming, and various fund raisers for their philanthropy, the Muscular Dystrophy Association.

Socially, the year was a busy one. Band Parties followed each home football game during the fall. Other events included the Kappa Alpha-Chi Omega Sunrise Mixer and the Brother-Little Sister Christmas Party. The traditional Mountain Weekend House Party in the changing leaves of North Carolina was another exciting event.

Old South, KA's toast to southern heritage, welcomed the brothers of Delta Omicron Chapter back to school after the Christmas Holidays. It was held in Myrtle Beach, S.C. with other KA Chapters from across the state. It entailed a golf tournament, band parties, and banquets. The remainder of the spring semester included mixers, a state wide Bike-a-Thon with other KA Chapters, the Carolina Cup in Camden, S.C. and the annual Bahamas Party.

The undergraduate and alumni chapter of Kappa Alpha Psi is the realization of a dream shared by ten astute brothers. The founding of Kappa Alpha Psi took place on January 5, 1911 on the campus of Indiana University of Bloomington, Indiana. It was originally chartered as Kappa Alpha Nu on April 15, 1911 and on April 15, 1915 it was changed to Kappa Alpha Psi.

The Grand Polemarch for the first 6 years was brother Elder Watson Diggs. Brother John Milton Lee, brother Byran K. Armstrong comprised the original Grand Board of Directors, and most of the credit for the survival of Kappa Alpha Psi goes to them.

Kappa Alpha Psi is continuously growing and prospering under the leadership of brothers on the graduate and undergraduate level. Kappa Alpha Psi is about the achievement of your goals. Dreams and ambition is what Kappa Alpha Psi is about.

Alpha Kappa Alpha Sorority Inc. was founded in 1908 and has over 90,000 members on the national level. Lambda Theta Chapter at Clemson University was chartered in 1977 and now has 27 members.

The sisters sponsored many service projects such as Skatathon for Scholarship, Rape Awareness Seminar, Thanksgiving baskets, and a Toys for Tots for underprivileged children. The sorority also sponsored many social activities throughout the year.

Lambda Theta Chapter of Alpha Kappa Alpha celebrated their ten year anniversary in May with many activities and events.

Kappa Alpha Theta's kite flew high this year! Theta captured second place in the First Friday Parade for the float "Roasted Hoakie — Almost as Good as Fried Chicken". Tigerama's Fairyland wasn't complete without Theta's "Three Little Tigs". They were also third place academically among the sororities.

The sisters ate their share of Campbell's Soup. The labels from the cans were collected by Theta and other participating organizations. These labels went to the "Labels for Education Program" at the Institute of Logopedics, Kappa Alpha Theta's national philanthropy.

In October the Thetas and Kappa Alpha Psi threw a Halloween Party for the children at the Clemson Child Development Center. They were back in the saddle again with the Brother of Alpha Tau Omega in November for the annual Rocking Horse-A-Thon. Thetas also put on their cowboy boots and hats for the annual Barn Dance at the armory.

The sisters of Kappa Delta enjoy a wide range of activities each year. Some of KD's philanthropy projects include a Halloween Carnival for deaf children and a campus wide Mr. Greek Pageant. Funds raised from philanthropy projects are used to help support crippled and abused children and the Shriner's Hospital in Greenville.

In addition to special projects, Kappa Deltas enjoyed getting together strictly for fun! Some favorite events included the White Rose Formal, a Christmas party, the KD Luau in the spring and a week at Myrtle Beach after exams.

Each year Kappa Delta continues to grow stronger at Clemson University. A very successful rush brought KD's membership to 145.

The Epsilon Mu chapter of Kappa Kappa Gamma has come a long way since it was chartered on Clemson's campus in 1970. At the 1986 Kappa convention, Epsilon Mu received the prestigious Standards Award. This honor is given to the top chapter in the nation based on its accomplishments in membership, academics, community service, leadership, and campus involvement.

Again Kappas were very proud of their top philanthropy project, the Kappa calendar, featuring Clemson men. The proceeds from the sales of the calendar were donated to the Multiple Sclerosis Foundation.

Kappa's social events included the annual Kappa Kidnap in October, the winter formal in January, and the New Year's Eve party in March.

Kappa was also well represented in many campus organizations and events including Central Spirit, Student Government, cheerleading, beauty pageants, and various honor societies.

Kappa Sigma's social calendar was as varied and colorful as its members. Fall semester parties centered around Rush and home football games with Homecoming week being the most exciting. In addition to those special events, several mixers, cookouts, and informal gatherings with the fraternity's Little Sisters and campus sororities were enjoyed by everyone. The traditional "Sweetheart Ball" formal and fraternity resort house weekend provided many memorable moments during the cold winter months of the second semester. The coming of spring time brought lots of warmth, but also the excitement and spirited competition of Greek Week and the Greek Day Games. As always, throughout the year, the Kappa Sigma biannual Buckwheat functions resulted in unique social events.

Since their formation in 1983 Phi Alpha Sigma Associate Chapter of Pi Kappa Phi have worked hard to establish themselves as a force on campus. By promoting brotherhood as their main foundation, they have increased their membership and have created many annual events to keep the alumni active.

Since its creation on December 4, 1904. Pi Kapp national has supported each of its many chapters and colonies. With a strong national sponsor behind them, they plan to be a recognized chapter by Fall 1987.

Pi Beta Phi celebrated it's tenth year at Clemson in October with a Drop-In. Alumni, sisters, and family members visited the floor, viewed Chapter Histories from the past ten years, and got to know each other better. In September, the Pi Phis were honored by a visit from their Grand President, Carolyn Lichtenburg. A reception was held in her honor, and Pi Phis as well as representatives from other fraternal organizations got a chance to meet her.

Fundraisers for the year included the Greek God and Goddess contest and the Kidnap Social. Pi Phis also visited the Collins Childrens Home.

Pi Phis attended many functions including an Around the World Party, the annual parents day brunch, a Christmas semi-formal, the pledge retreat in Gatlinburg, the spring chapter retreat, firesides, and candlelights. Despite staying so busy, Pi Phi was awarded the second highest overall grade point average.

The brothers of Sigma Alpha Epsilon entered their seventeenth year on the campus of Clemson University with a busy schedule. Pre-game cookouts, band parties, sorority mixers, a bus trip to Maryland, and the annual ChiO-SAE Tub-a-Thon for Muscular Dystrophy highlighted the fall semester. The brothers also built the float for the Homecoming Queen and her court. Three of the ten finalist in the Homecoming Pageant were little sister.

The spring semester was busy with more sorority mixers, a fantastic rush, a trip to Florida for spring break, the annual "House Party" ski trip to the mountains, and their traditional spring formal which was held at The Clemson House. The brothers of South Carolina Nu Chapter of Sigma Alpha Epsilon were rewarded for their hard work and determination by receiving the Chapter Achievement Award which recognizes them as one of the top twenty chapters in the nation.

Sigma Chi's fall semester started off with a bang as they held the first annual "Fall Kick-Off" party. This was followed by a very successful fall rush. Derby Days, sponsored by Sigma Chi, raised over $5,000 for the Shriner's Hospital in Greenville. The Spring Semester was highlighted by the annual White Rose formal held on Hilton Head Island.

As the defending champions of Anchor Splash, they went into this year's competition with another strong team. Little sister Andrea Mooney was awarded the title of "Greek Goddess" by the Pi Beta Phi sorority in the fall. I.F.C. Rush Chairman and Sigma Chi brother Troy Weakley was induced into the Order of Omega in October.

Theta Zeta Chapter of Sigma Nu Fraternity had an excellent 1986-87 school year. The year began by winning the Rock Award, given to Sigma Nu's best collegiate chapter. Homecoming was dominated by Sigma Nu as the brothers won first place in both Tigerama and the moving display competitions. The fall rocked with numerous parties attended by both actives and generous Alumni.

The brothers of Theta Zeta Chapter also participated in numerous philanthropy projects including the Greek Liasson Swing-a-Thon, Delta Gamma's Anchor Splash, Clean-up-Clemson, I.F.C. Blood Drive, and many others. The spring was filled with many events, like the Sigma Nu Formal, innumerable parties and mixers and the infamous blowout at the beach, Gaterball.

Sigma Nu fielded several award-winning Eagles teams, and did well in the I.F.C. sports category. In the future, Sigma Nu wishes to continue the tradition of "The Cup".

Sigma Phi Epsilon began its 16th year at Clemson with one hundred brothers giving them the manpower to participate in many service and social activities. The brotherhood consisted of brothers from all over the east coast enabling them to compete successfully in both intramural and interfraternity sports.

The Sig Eps social calendar included parties, sorority mixers, and a Sweetheart Formal. The year concluded with a trip to the beach after exams.

Academic, social, and athletic success marked the year for the brothers of Phi Delta Theta. The Phi Delts won Greek Day and placed second in IFC soccer and intramural water polo.

Socially, the Phi Delts were consumed in a whirlwind of fun. The social calendar was centered around the Founders Day Formal, the Premasters with the Tri-Delts and eight other mixers. The year came to a crashing end at the place where it all began, The Game Room. All of this was managed while somehow maintaining the highest fraternity GPR on campus.

The beginning of classes in the fall meant a continuation of hard work for the brothers of Pi Kappa Alpha. Throughout the summer hard work was done on Summer Rush, and the organization of Pi Kappa Alpha sponsored the First Friday Parade.

During the Fall semester the Pikas worked hard at Tigerama and the still display. Once the Fall semester and football season passed, the Pikas worked hard at their fund raiser for Muscular Dystrophy. A little friendly competition, fun, and exercise combined to produce fraternity sports in which Pi Kappa Alpha excelled.

Proof of hard work could be found at the national level. It was here that the Clemson chapter of Pi Kappa Alpha proved itself once again by receiving the Smythe Award. This award, presented annually to the fifteen best chapters of the 176 chapters across the United States, was presented to the Pikas for the eleventh time in sixteen years.

Theta Chi dove into the year with as much anticipation and zest as ever. Brothers, pledges, and various friends of the family frolicked at the Around the World Party as well as the traditional PJ-PJ Party and the 11th annual Return to Guyana Party.

The Theta Chis extended their Helping Hand project to the South Carolina Heart Fund by collecting money at area shopping centers.

Brothers and pledges gathered in the woods at the semi-annual Wilderness Buzz to discuss goals and strengthen bonds.

Alumni returned for the spring festivities including the Red Carnation Ball and Greek Games the following morning.

Leading the brothers were Dan Vickery, President; Mike Keller, Vice-President; Dave Reilly, Secretary; Marc McInnes, Treasurer; Erik Reitz, Pledge Marshall; Richard Williams, 1st Guard.

The Delta Nu chapter of Beta Theta Pi certainly had a full slate of fun for the year. The brothers sponsored Dixie Day, Sorority Sing, and Miss Magnolia keeping them busy in the spring semester.

The Betas had a fruitful season on the playing field participating in such events as soccer and football. Individual intramural titles were won by some of the brothers.

Mixers also made for some interesting fun at the Beta House for the brothers, little sisters, and guests.

Editor's Note: This page was intentionally printed in this manner at the actual cost of over $200.00.

Anchor Splash

(below) The brothers of Sigma Chi display the awards they won during Anchor Splash.
(bottom right) The DGs join in the fun of Anchor Splash.

The highlight of the fraternal competition during the Fall was Anchor Splash. Sponsored by the sisters of Delta Gamma, Anchor Splash was a swim competition in which the fraternities competed on the basis of spirit and swimming skills.

November 12, 1986 marked the fifth Anchor Splash at Clemson University. The events of Anchor Splash week began with the showing of the movie, *The Deep* then came the Mr. Legs competition. The fraternities and sororities nominated their favorite pair of legs and the winner was chosen by a campus wide penny vote contest during the week. There was also a Banner Day and Goodie Day for the fraternity brothers.

In anticipation of the swim meet, the Delta Gammas sponsored a cook-out in the Quad for the fraternities. Attendance at the cook-out counted for spirit points, and the DG coaches and brothers enjoyed food and fun.

The night of the big meet, everyone gathered for some interesting swimming events. Some of these events included the Granny-Gown Race, the Coaches — Brothers Race, the 50 yard freestyle, and the synchronized swimming competition.

The brothers of Sigma Chi won the Spirit Award, based on the number of t-shirts bought, movie attendance, cook-out participation, and overall enthusiasm. Mr. Anchor Splash was won by Sigma Alpha Epsilon's Mark Young and Mike Davis of Sigma Chi won Mr. Legs.

The brothers of Sigma Alpha Epsilon won third place overall, and the brothers of Kappa Sigma won second place overall. Finally, the brothers of Sigma Chi became the 1986 Anchor Splash champions.

Ruth Anne Glasgow

Mr. Greek

After jumping his victim on his bike, David Harrelson concludes his talent while his victim breathes a sigh of relief.

photos by Vern Verna

(Above and right) Two Mr. Greek candidates show themselves off in what they consider eveningwear.

An imitation of Pee Wee Herman, lip syncing, and a strip tease were only part of the fun in the Mr. Greek 1986 competition. The event, sponsored by Kappa Delta sorority, gave male contestants, supported by a fraternity or sorority, a chance to show their originality in the categories of sportswear, eveningwear, and talent while competing for the title.

After being introduced in their sportswear contestants donned their eveningwear which ranged from dresses to a girl's aerobic outfit.

The talent category of the competition followed offering a wide range of entertainment. David Harrelson, sponsored by Pi Kappa Alpha, imitated Pee Wee Herman while riding an orange bike off of a ramp over another person. Charles Costner (Alpha Phi Omega) heated things up with a strip tease to ZZ Top's "Velcro Fly". Other talents included Jeff Jinks singing "Life Sucks".

By the end of the evening Sigma Nu's Todd Nash had emerged the winner of the Mr. Greek 1986 title. Nash dressed up as Santa Claus for the eveningwear competition and performed his own version of Van Halen's "Ice Cream Man" for his talent. Charles Costner came in second and David Harrelson took third place.

Mr. Greek 1986, Todd Nash, in his eveningwear.

Derby Day

The most successful Derby Day ever took place on October 24, 1986 when more than $5,000 was raised for the Shriner's Hospital in Greenville. Sigma Chi fraternity sponsored the event in which sororities gathered for a day of fun and friendly competition. The money was raised by selling tickets to a dance that followed the games, selling t-shirts, and votes for the Derby Queen.

The sororities competed to be the overall winner of Derby Day by winning points for money that they raised, placement in the games, and their standing in the Derby Queen competition.

That night at the dance trophies were awarded to Alpha Delta Pi who won the competition, Chi Omega who placed second, and Delta Delta Delta who captured third. Eboo Cole of Delta Delta Delta was Crowned Derby Queen.

Vern Verna

These sisters take a break from the activities to clown around for some pictures.

Brian B. Koldyk

Getting dirty is only part of the fun of Derby Day.

an B. Koldyke

Working together, the sisters of Kappa Kappa Gamma try to get the string through the right places.

Concentration and coordination are just a few of the skills required for the Izzy-Dizzy Relay.

S.M. Morris

Greek Day

GOOD TIMES

Spring was highlighted by Greek Day which marked the end of fraternity competitions in such activities as intramural sports, academics, Tigerama skits, homecoming displays, and other events which had been going on all year. Greeks and their dates enjoyed spending the day with friends while participating in various events such as tug-of-war. When the day finally ended the Sigma Nu fraternity was declared overall champions.

Karen Purer

Tug-of-war is just one of the many events that cause fraternity brothers to pull together during the Greek events.

Sigma Nu's enjoy a bite to eat.

All photos by Vern Verna

Dixie Day

Friends, fun, and sun were all part of Dixie Day 1986. Dixie Day, sponsored by Beta Theta Pi Fraternity and the Interfraternity Council, culminates a week of exhilarating activities such as the Miss Magnolia pageant and Sorority Sing. Various events throughout the year preceded Dixie Day such as intramural softball, basketball, tennis, and spades. Each sorority was awarded points based on final standings in these events along with points for having the highest grade point ratio. The final standings were determined by the outcome of the Dixie Day events like the three-legged race. Alpha Delta Pi was the overall winner for Dixie Day.

Karen Purer

Taking time out from the day's events, sisters find time to relax and talk.

These ChiO's seem to have problems getting off the ground for the three-legged race, all part of the fun of Dixie Day.

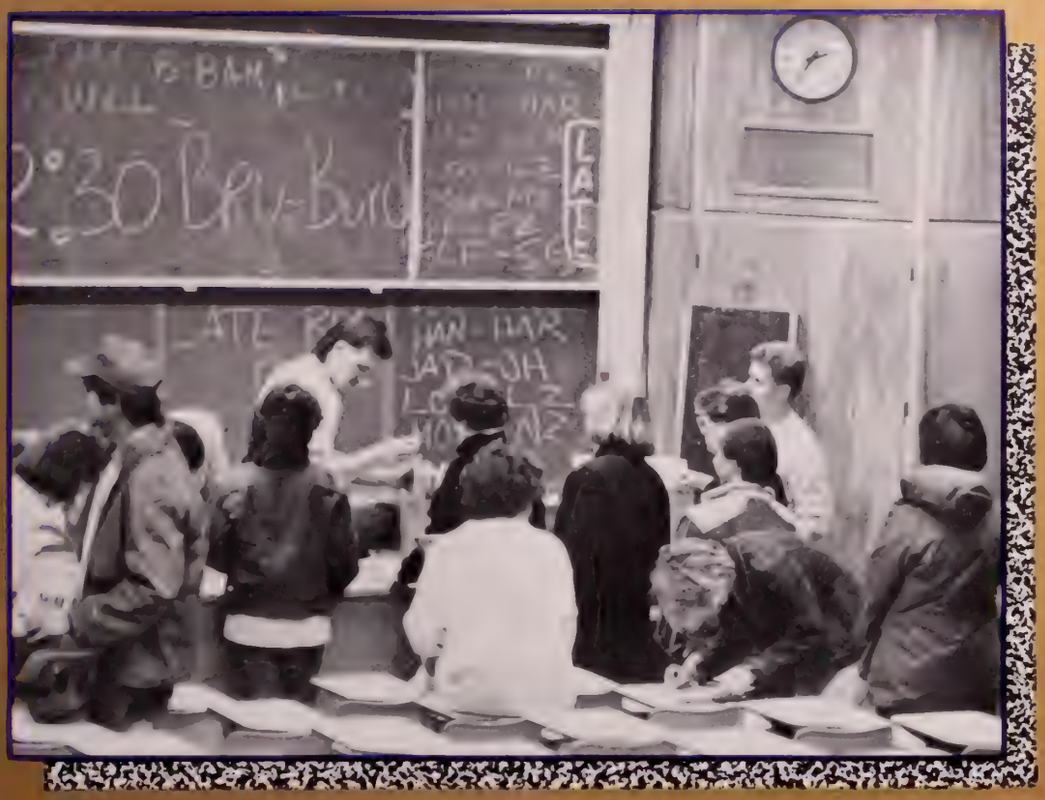
Tim Crawford



Remember having to don your best dress or coat and tie and attend all your classes that way, then having to stand in line for what seemed like hours just to have your picture taken. All that trouble just so that when you got your '87 TAPS you could flip to your picture and stare in disbelief at how stupid your fake smile really looks. At least you think that until a friend convinces you that your picture looks superb. Somehow that makes it worth all the effort. (We hope you enjoy your '87 TAPS.)

Moore, Stanley J. ..... Clemson, SC
Moore, Suzanne J. ..... Columbia, SC

Vern Verna

As always Tillman Hall is a prominent figure on the Clemson campus.

Sophomores

Moorhead, Sandra C. ..... Anderson, SC
Morris, Darby A. ..... Aiken, SC
Morris, Michelle ..... Taylors, SC
Morrow, Sonia M. ..... Chester, SC
Morse, Robert H. ..... Oakdale, NY
Moser, Stephanie Jean ..... Lilburn, GA

Moshang, Christina ..... Baltimore, MD
Mosrie, Brian Todd ..... Kingsport, TN
Moulton, Kevin ..... Greenwood, SC
Moyd, Steve ..... Greenville, SC
Mungo, Darren B. ..... Lancaster, SC
Munroe, James ..... Sumter, SC

Murray, Gail T. ..... Univ. Park, MD
Mussat, Robert J. ..... Summerville, SC
Myers, Patty ..... Moncks Corner, SC
Nabors, Molly ..... Pittsburgh, PA
Nance, Eva L. ..... Columbia, SC
Nanney, Susan ..... Chester, SC

Nason, Miles H. ..... Greer, SC
Neely, Roger D. ..... Piedmont, SC
Nelon, Michael ..... Asheville, NC
Nelson, Craig ..... Hampton, GA
Nelson, Edward E. Jr. ... Simpsonville, SC
Nelson, Sheri R. ..... Anderson, SC

Nelson, Vicki Joy ..... Greenville, SC
Netherton, Brett L. ..... Weaverville, NC
Newburn, Edward L. ..... Aiken, SC
Newell, Erwin ..... Hemingway, SC
Newman, Martha ..... Jefferson, SC
Newsome, Edward L. ..... Charlotte, NC

Newton, Gregory W. ..... Spartanburg, SC
Newton, Jessie L. ..... Pickens, SC
Nichols, Shelley Renee ..... Dillon, SC
Nix, Kirk A. ..... Walhalla, SC
Nun, Tim James ..... Atlanta, GA
Odell, Maria Gail ..... Chester, SC

Okner, Coleen E. ..... Andover, NJ
Okoniewski, Laura K. ... Cocoa Beach, FL
Orebaugh, Kristen ..... Rockville, MD
Orton, Mary ..... Vero Beach, FL
Otlowski, Lori ..... Germantown, MD
Overbay, D.A. ..... Waynesville, NC

Overstreet, Mark E. ..... Belvedere, SC
Owens, Mary K. ..... Sumter, SC
Owings, Alan D. ..... North Augusta, SC
Padgette, Lisa Gaye ..... Spartanburg, SC
Page, Jay ..... Mullins, SC
Page, Mike ..... Columbia, SC

Page, Richard ..... Inman, SC
Palmer, Kristin L. ..... Honea Path, SC
Papenfus, Jeff ..... Lexington, SC
Paradeses, Jim ..... Greenville, SC
Pare, Eric D. ..... Jacksonville, NC
Parker, Matthew ..... Taylors, SC

Sophomores

Parris, Billy ..... Spartanburg, SC
Parsons, Richard V. ..... Savannah, GA
Paschal, Kim Kaye ..... Beaufort, SC
Patterson, Ryan ..... Charleston, SC
Patterson, Lee ..... Iva, SC
Paty, Valerie ..... Buckhead-Atlanta, GA

Paulino, John A. ..... Allendale, NJ
Payne, John ..... Newton, NC
Pearson, Marilyn R. ..... Manning, SC
Pearson, Pam D. ..... Greer, SC
Peck, Cathy E. ..... Florence, AL
Pelz, Stanley R. ..... Jacksonville, FL

Penelope, Jagers ..... Boca Raton, FL
Pennebaker, Edward R. .. Spartanburg, SC
Pennington, Harold D. ..... Blacksburg, SC
Pepper, William Odell ..... Walhalla, SC
Perkins, Carolyn W. ..... Clemson, SC
Perkins, John R. Jr. ..... Gretna, VA

Perry, Mary Elizabeth ..... Anderson, SC
Petro, Eileen ..... Bethlehem, PA
Pettit, Dana ..... Gaffney, SC
Phillips, Graham ..... Greer, SC
Pigeon, N. Todd ..... Ft. Washington, MD
Pinckney, Myra Danell .... Charleston, SC

Player, John W. ..... Bishopville, SC
Poole, Ervin ..... Pelion, SC
Poole, Stephanie D. ..... Inman, SC
Poore, Lori Ann ..... Belton, SC
Porio, Stephen A. ..... Gaffney, SC
Porter, James R. ..... Florence, SC

Porter, Jeffrey R. ..... Aiken, SC
Porter, Wendy ..... Hartsville, SC
Poston, Andrea Lynne .... Dunwoody, GA
Poston, David ..... Johnsonville, SC
Poston, Jay ..... Pamlico, SC
Poteat, Michael R. ..... Inman, SC

Potter, Matthew ..... Charleston, WVA
Pough, Cassie Mae ..... Neeses, SC
Powell, Eric ..... Camden, SC
Preston, D II ..... Midland, TX
Price, Amanda D. ..... Seneca, SC
Price, Lane ..... Hendersonville, NC

Pritchard, Glenn A. ..... Clemson, SC
Profitt, John W. Jr. ..... Liberty, SC
Ptak, Colleen Ann ..... Marietta, GA
Purvis, Herbert C. ..... Anderson, SC
Pyle, Phillip E. Jr. ..... Clemson, SC
Quaresima, Tamara ..... Milford, MA

Quarles, Patrick D. ..... Springfield, TN
Queen, Lee Ann ..... Gaffney, SC
Rabalas, Brian ..... Pickens, SC
Rabb, William Stuart ..... Cameron, SC
Radcliffe, Leslie M. ..... Mt. Pleasant, SC
Raines, Jim ..... Blissfield, MI

Sophomores

Raines, Paul Christopher . . Blacksburg, SC
Ramsden, Paige . . . . . Belleair, FL
Ramsey, Sharon D. . . . . Sumter, SC
Rangwani, Deepa H. . . . . Myrtle Beach, SC
Rasheed, James E. . . . . Georgetown, SC
Rawls, Mimi . . . . . Wagner, SC

Reed, Donna Ann . . . . . Marion, SC
Reimers, Martha M. . . . North Augusta, SC
Rettberg, Harv . . . . . Pickens, SC
Rhinehardt, Gina . . . . . Clemson, SC
Rhodes, Kalen K. . . . . Central, SC
Richardson, Taji H. . . . . Charleston, SC

Rickenbaker, Carla M. . . . . St. George, SC
Riordan, Catherine E. . . . . Greer, SC
Riordan, Jack . . . . . Rock Hill, SC
Riordan, Jane M. . . . . Greer, SC
Roberts, Alan T. . . . . Savannah, GA
Roberts, Amy E. . . . . Gainesville, GA

Roberts, Lance D. . . . . Chester, SC
Robertson, Mark A. . . . . Enoree, SC
Robinson, James T. Jr. . . . . Easley, SC
Robinson, Linda . . . . . Gaithersburg, MD
Robinson, Mary E. . . . . Pacolet, SC
Robinson, Michael D. . . . . McBee, SC

Robinson, William N. . . . . Oak Ridge, TN
Robinson, Wiliam T. . . . . St. Matthews, SC
Rodgers, Byron C. III . . . . . Pinopolis, SC
Rogers, David A. . . . . Walhalla, SC
Rogers, Dean . . . . . Columbia, SC
Rogers, Marie . . . . . Rainforest, SC

Michael Lloyd

Only one week into the spring semester, the students are already into the "rat race" of changing classes.

Sophomores

Rogers, Sallie ..... Bennettsville, SC
Rogerson, Benjamin F. Moncks Corner, SC
Rollison, Susan ..... Belton, SC
Roper, Joy L. ..... Williamston, SC
Ross, Susan ..... Dayton, OH
Rourke, Barbara ..... Ft. Bragg, NC

Ruckman, Nancy ..... Jacksonville, FL
Runey, William M. Jr. .... Charleston, SC
Rushing, Pat ..... Ridgeland, SC
Russell, Juleen M. ..... Suffside Beach, SC
Rust, Dean J. ..... Martinez, GA
Rutz, Edward ..... Stone Mtn., GA

Sain, April M. ..... Dana, NC
Sale, Geoffrey B. ..... Rochester, NY
Sampson, Tracey L. ..... Florence, NJ
Sams, Catherine E. ..... Edisto Beach, SC
Sanders, Brian A. ..... Graniteville, SC
Sanders, John ..... Columbus, MS

Sanders, T.O. ..... Barnwell, SC
Sanders, W. ..... Adams Run, SC
Sapinoso, Geraldine A. ..... Lake Wylie, SC
Sarvis, Michael M. ..... Columbia, SC
Savaria, Lynn A. ..... Greer, SC
Sawyer, Elizabeth S. ..... Saluda, SC

Sayre, Denise ..... Wellford, SC
Schade, Garrett ..... Clemson, SC
Scherer, Kristine Ann ..... Indialantic, FL
Schilleter, Doug ..... Columbia, SC
Schlegel, Janet ..... Newark, DE
Schmidt, Suzanne ..... Edison, NJ

Schofield, Joseph D. III ..... Pelzer, SC
Scholl, Sandy L. ..... Taylors, SC
Schraibman, Cathy ..... Columbia, SC
Schramm, Lisa ..... Bethel Park, FL
Schuller, John M. ..... Ft. Lauderdale, FL
Scoggins, Margaret L. ..... McConnels, SC

Scott, Candace C. ..... Clearwater, SC
Scott, Laurie ..... Canfield, OH
Scott, Mark Timothy ..... Greer, SC
Scott, Sullivan R. ..... Wilmington, DE
Seabrook, Robin E. ..... John's Island, SC
Sells, Tamatha L. ..... Greenwood, SC

Serman, Brigham S. ..... Wilmington, DE
Serock, Vincent ..... Trenton, NJ
Sessions, Gloria ..... Ronleverte, WV
Shahriari, Kristine S. ..... Charleston, SC
Shane, Thomas S. ..... Duluth, GA
Sharbaugh, Patrick E. .... Charleston, SC

Sharpe, Martin D. ..... Norfolk, VA
Shealy, Beth ..... Batesburg, SC
Shealy, Paula C. ..... Chapin, SC
Shealy, Regina E. ..... Saluda, SC
Sheedy, Raymond L. ..... Sumter, SC
Sheehan, Jill M. ..... Richboro, PA

Sophomores

Sherard, Suzanne ..... Calhoun Falls, SC
Sherburne, Mike ..... Jacksonville, FL
Shipley, Michael ..... Frederick, MD
Shipman, Michael L. ..... Greenwood, SC
Shrum, J. Beth ..... Florence, SC
Shuler, Pamela Gaye ..... Sumter, SC

Shuler, Rusty ..... Springfield, VA
Shull, Ashley H. ..... Cayce, SC
Shull, Davis James ..... Wagener, SC
Shumpert, Stacy ..... Leesville SC
Shy, Gina Marie ..... Summerville, SC
Sigmon, James A. ..... Fort Mill, SC

Simmons, Jill M. ..... Huntington, WV
Simmons, Rebekah F. ..... Claxton, GA
Singleton, Stacey D. ..... Pinwood, SC
Sisk, Gregory T. ..... Stanley, NC
Skowysz, Christina ..... Surfside, SC
Slesinger, Sheri ..... Xenia, OH

Sliker, Zanne ..... Huntington Beach., CA
Smalls, Oscar A. ..... Goose Creek, SC
Smarra, Aric ..... Sumter, SC
Smigelski, Cheryl Lyn ..... Richmond, VA
Smith, Alan W. ..... Easley, SC
Smith, Chip ..... Columbia, SC

Smith, Courtney A. ..... Spartanburg, SC
Smith, Dana Delaine ..... Andrews, SC
Smith, David L. ..... Columbia, SC
Smith, Dianne L. ..... Sumter, SC
Smith, Elizabeth J. ..... Columbia, SC
Smith, Gustavis ..... Pickens, SC

Smith, Kelly ..... Spartanburg, SC
Smith, Mark T. ..... St. Matthews, SC
Smith, Michelle ..... Anderson, SC
Smith, Nathan ..... Easley, SC
Smith, Stephanie C. ..... Anderson, SC
Smoley, Debbie ..... Rockville, MD

Snead, Margaret Allison ..... Columbia, SC
Snider, Laurie Ann ..... Anderson, SC
Snipes, Susan M. ..... Columbia, SC
Solesbee, John B. ..... Greer, SC
Solesbee, Lynn ..... Duncan, SC
Solie, Timothy A. ..... Winter Park, FL

Southerland, Greg ..... Greer, SC
Southerland, Stacy B. ..... Williamston, SC
Spear, Susie ..... Dunwoody, GA
Spearman, Anthony G. ..... Summerville, SC
Spies, Mark K. ..... Long Valley, NJ
Sposato, Lisa ..... Huntington Sta., NY

Sprouse, Jim ..... Rock Hill, SC
Stadler, Arndt Roger ..... Dillon, SC
Staley, Todd ..... Burlington, SC
Stanley, Barbara ..... Hartsville, SC
Steagall, Todd ..... Columbia, SC
Sternberg, DeeDee ..... Columbia, SC

Sophomores

Stevens, James Allen [illegible]
Stevenson, Ann D [illegible]
Stewart, Hal ..... Sunset, SC
Stewart, Jennifer L. [illegible]
Stewart, Jodi Michelle [illegible] NC
Stewart, Kimberly A. [illegible] GA

Stisser, Nina ..... Spartanburg, SC
Stitt, Kate ..... Myrtle Beach, SC
Stone, Dewey L. Jr. ..... Easley, SC
Stone, Hugh ..... Chester, SC
Stone, Marc A. ..... Eden, NC
McKenzie, Spuds ..... Monterrey, CA

Stone, Robert Hamilton Winston Salem, NC
Stouthamer, Steve B. ..... Pittstown, NJ
Stover, Molly ..... Greenville, SC
Stukes, Meg ..... Summerton, SC
Stutts, Brandon ..... Columbia, SC
Sudduth, Bryan A. ..... Landrum, SC

Sullivan, Susan ..... Boca Raton, FL
Summer, Deena ..... Chapin, SC
Sutherland, Terri L. ..... Abbeville, SC
Sutton, Kelly ..... Flower Mound, TX
Swygert, Richard W. ..... Chapon, SC
Sykes, Jamie ..... Conway, SC

Tate, Shana E. ..... West Union, SC
Taylor, Deanna ..... Spartanburg, SC
Taylor, Geni ..... Sumter, SC
Taylor, Michael ..... Dalzell, SC
Taylor, Stephanie D. ..... Liberty, SC
Teague, Kenneth G. Jr. ..... Hahahan, SC

EDITOR'S CORNER

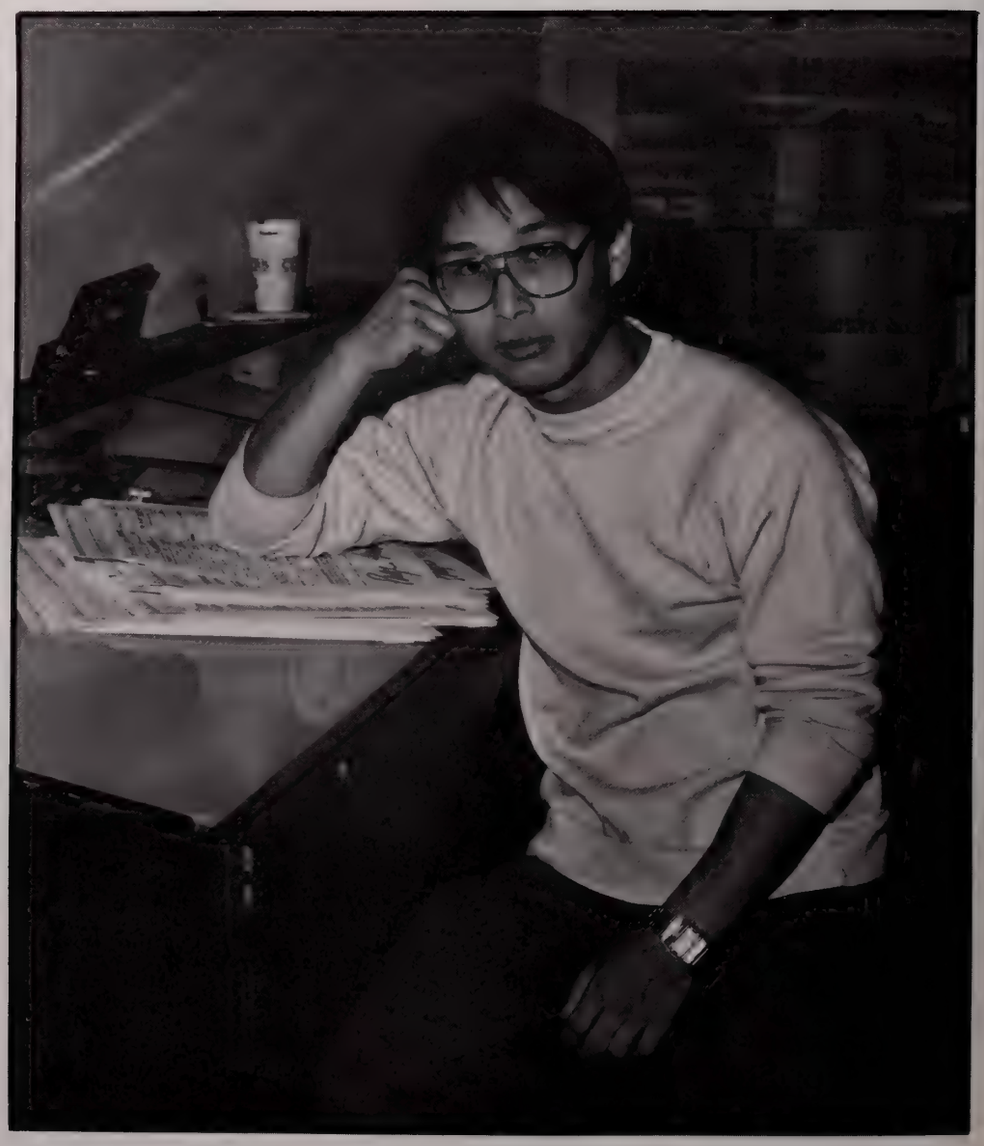
Finally, I can wake up from a dream in which I am not being attacked by the great purple yearbook monster. It's a wonder that I haven't forgotten that awesome American tradition called sleep. After all, how can I sleep when I have a "mangling idiot" to remind me every ten minutes that it is 25th anniversary of the Building Science Department, and correcting all those "captions of the year" at three in the morning. Of course, let me not forget the "awful waffle" trips in the wee hours to bring us back to life. All in all, it's been an experience, an unforgettable experience if I may use a cliche, and even fun sometimes.

Within these pages, I hope everyone finds all the dedication, drive, and effort put into them by the entire staff. I, no, we tried our best, without skipping more than 20% of our classes or getting too many grades knocked down for being late because we had a "deadline," to bring you the best yearbook possible — something you will look back remind you of your life at Clemson in 1986-87. No, we are not perfect, by no means. So hey, chill out! these things happen . . .

The year is over, and in a way, I am glad it is. But the experiences I've shared with all of you will never be "over." I want to thank all of you, the senior staff of 87, Vern, Tonya, Meg, Barry, Jackie, Michael, Chris, Mike, Richard, Debbie, Brian, Johnny, Jim, Joel, Cari, Karen and everyone else (you know who you are) for your dedication and friendly support. And to my family and Peaches, thanks for being there when I needed you, through letters and whispers. God bless all of you.

Love,

Suk



Colophon

The 1987 TAPS was printed by Jostens' Printing and Publishing Company, 1312 Dickson Highway, Clarksville, Tennessee, 37040. The press run was 6025, with a trim size of nine inches by twelve inches. It was Smyth Sewn in 16 page signatures for a total of 544 pages. The paper stock is Warren's Cameo Dull #80.

The body copy is Korinna, 11 point. The captions are Korinna bold, 9 point; the by-lines are 10 point Korinna bold. The photo credits are 7 point Korinna bold, and kickers are 8 point Korinna.

John Doubler designed the original cover art which was slightly modified by TAPS staff.

With the exceptions of Associated Press photographs, class portraits, and few others (appropriately photo credited), all photographs were taken by staff photographers. The black-and-white photos were selected by over 14,000 frames of 135 and 129 mm Ilford Pan F, FP-4, and HP-5 films. All were processed by the photo staff with Ilford chemicals and printed on Ilford Ilfospeed glossy paper. Over 18,000 frames of color transparencies were taken by the staff with Kodak Kodachrome 25 and 64, and Ektachrome 64, 200, and 400 in both 135 and 120 film formats. All Ektachrome films were processed by the staff while Kodachrome films were processed by the Kodak Labs in Atlanta, Georgia.

Class portraits were taken by Yearbook Associates, P.O. Box 91, Millers Falls, Massachusetts, 01349.

TAPS is a member of the Columbia Scholastic Press Association.

The End: Keeping in steps

With ease as if it was perfectly natural, Clemson squarely faced the challenges of tomorrow. New buildings such as the Chemistry Building were erected and old buildings such as the Godfrey Hall was innovated.

Conservatism continued to sweep away the nation, although the Iran Arms Deal raised some questions about the state of affairs with the conservative Reagan Administration. Students were much more active whether it be in politics or economics as they all boldly stepped ahead to make the world, if only their small part of it, a

Suk B. Fields

George Michael Nelon

little better place to live.

The pipe bomb incident brought to attention to all the students how a small mistake by just one person can bring harm to many. Even with unfortunate incidents like this, maybe especially because of incidents like this, we were able to make small adjustments and take small steps.

Past year marked myriad of changes, transitions, and explorations, which all carried us in step, both feet in stride.

Stepping Ahead . . .

Brian Koldyke
